9. MAINTENANCE

Cleaning the Device

To keep your tablet in good condition:

- Use a soft, lint-free cloth to clean the screen and body.
- Avoid using harsh chemicals or abrasive materials.
- Do not spray cleaners directly onto the screen.

Software Updates

Regularly check for and install system updates to ensure your tablet has the latest features, security patches, and performance improvements. Go to Settings > System > System update.

Battery Care

To maximize battery life:

- Avoid extreme temperatures.
- Do not let the battery completely drain frequently.
- Use the original charger for optimal charging.

10. TROUBLESHOOTING

If you encounter issues with your TABWEE T60, refer to the following common solutions:

Problem	Solution
Device does not power on	Ensure the battery is charged. Connect the charger and try again. If unresponsive, press and hold the power button for 10-15 seconds to force a restart.

Problem	Solution
Wi-Fi connection issues	Restart your Wi-Fi router. Go to Settings > Network & internet > Wi-Fi, forget the network, and reconnect.
Slow performance	Close unused apps. Clear cache for frequently used apps (Settings > Apps > [App Name] > Storage & cache > Clear cache). Restart the tablet.
Apps crashing	Ensure the app is updated. Clear the app's cache. If the problem persists, uninstall and reinstall the app.
Screen unresponsive	Force restart the tablet by holding the power button. If the issue continues, contact support.

Factory Reset

If software issues persist, you may need to perform a factory reset. This will erase all data on your tablet. Back up important data before proceeding. Go to Settings > System > Reset options > Erase all data (factory reset).
