## Tami Tami T600

# Tami Tami T600 Adjustable Bed Base with Massage & Remote User Manual

Model: T600

## INTRODUCTION

Thank you for choosing the Tami Tami T600 Adjustable Bed Base. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new adjustable bed base. Please read all instructions carefully before use and retain this manual for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

- **Weight Capacity:** Do not exceed the maximum weight capacity of 750 lbs (including mattress).
- **Children and Pets:** Keep children and pets away from the adjustable bed base, especially during operation.
- **Pinch Points:** Be aware of pinch points during adjustment. Keep hands and feet clear of moving parts.
- **Power Cord:** Ensure the power cord is not pinched or damaged. Do not operate if the cord is damaged.
- **Medical Devices:** Consult your physician before using if you have a pacemaker or other medical devices, as the massage motors may interfere.
- **Cleaning:** Disconnect power before cleaning. Use a damp cloth; avoid harsh chemicals.
- **Professional Installation:** If you are unsure about any assembly steps, seek professional assistance.

## SETUP AND ASSEMBLY

The Tami Tami T600 adjustable bed base is designed for easy assembly. Most components are pre-assembled. Follow these steps for quick setup:

1. **Unfold the Bed Base:** Carefully unfold the bed base in the desired location. Ensure there is enough space around the base for movement.
2. **Attach the Legs:** Screw the adjustable legs into the designated threaded holes on the underside of the bed base. You can choose from three height options (4", 8", 12") to customize your bed height.
3. **Connect Power:** Plug the power cord into a grounded electrical outlet.
4. **Install Mattress Retainer Bar:** Secure the mattress retainer bar at the foot of the bed to prevent the mattress from sliding.

during adjustments.

## OPERATING INSTRUCTIONS

Your Tami Tami T600 adjustable bed base comes with a wireless remote control for easy operation of all features.

### Remote Control Functions

**Figure 2:** Wireless Remote Control Layout. This image details the various buttons and their functions for controlling the bed base.

- **Head/Foot Incline:** Use the dedicated buttons to raise or lower the head (up to 65°) and foot (up to 45°) sections independently.
- **Zero Gravity Position:** Press the "Zero Gravity" button for a preset position that elevates your head and feet, promoting relaxation and reducing pressure.
- **TV Position:** Activates a comfortable position for watching television or reading.
- **One-Touch Flat:** Returns the bed base to a completely flat position.
- **Massage Functions:**
  - **Modes:** Select from Wave, Pulse, or Steady massage modes.
  - **Intensity:** Adjust massage intensity with 3 levels.
  - **Timer:** Set massage duration for 10, 20, or 30 minutes.
- **Memory Positions:** Program two custom comfort positions using the M1 and M2 buttons. To set, adjust the bed to your desired position, then press and hold M1 or M2 until the remote beeps.
- **Under-Bed Nightlight:** Activate the soft under-bed lighting for safe navigation in the dark.
- **Flashlight:** The remote includes a built-in flashlight for convenience.
- **Safety Lock:** Use the safety lock feature to prevent accidental adjustments.

## Comfort Features

# Adjustable Comfort Head-to-Toe Pressure Relief

Ergonomic supportive positions provide unmatched comfort, helping improve sleep and addresses health concerns

**Figure 3:** Customizable Comfort and Pressure Relief. The image demonstrates how the adjustable head and foot incline provide ergonomic support.

The T600 offers various features to enhance your comfort and sleep quality:

- **Ergonomic Support:** Independently adjust the head and foot sections to find your ideal ergonomic position, which can help alleviate back pain and improve spinal alignment.
- **Dual Zone Interactive Massage:** Enjoy targeted massage for both head and foot areas with multiple modes and intensity levels to relieve fatigue and promote relaxation.
- **Zero Gravity Mode:** Experience a feeling of weightlessness that can improve blood circulation and reduce snoring.
- **USB Charging Ports:** Two USB ports are located on the side of the bed base for convenient charging of your devices.
- **Side Storage Pockets:** Keep your remote, phone, or other essentials within easy reach.

# Dual Zone Interactive Massage Relieve Fatigue and Pain

**Wave Massage**   
Removal of fatigue

**Pulse Massage**   
Reduce pain and swelling

**Steady Massage**   
Increased circulation

**Figure 4:** Dual Zone Interactive Massage. This image highlights the three massage modes: Wave, Pulse, and Steady, designed to relieve fatigue and pain.

# Best Sleeping and Relaxing Positions

**Zero Gravity Position** help you relax deeply and sleep soundly

**Figure 5:** Zero Gravity Sleep Experience. The image illustrates the Zero Gravity position for deep relaxation, along with TV/Reading and Memory positions.

# Smarter Features, Better Nights

The night light makes getting up at night safer.

## MAINTENANCE

- **Cleaning:** Disconnect the power cord before cleaning. Wipe the frame with a damp cloth. Avoid using abrasive cleaners or solvents.
- **Motor Care:** The quiet lift motors are designed for long-term use. No special lubrication is required. If you notice unusual noise or reduced performance, contact customer support.
- **Fasteners:** Periodically check all bolts and fasteners to ensure they are tight. Do not overtighten.
- **Power Cord:** Inspect the power cord regularly for any signs of damage. Replace immediately if damaged.

## TROUBLESHOOTING

If you encounter any issues with your Tami Tami T600 adjustable bed base, please refer to the following common solutions:

Problem	Possible Cause	Solution
Bed does not operate.	No power, remote batteries low, remote not paired.	Check power connection. Replace remote batteries. Re-pair remote (refer to remote pairing instructions, usually involves holding a button on the control box and remote simultaneously).
Motor makes noise but bed does not move.	Obstruction under the bed, weight exceeding capacity.	Check for obstructions. Ensure total weight (including mattress and occupants) does not exceed 750 lbs.
Massage function not working.	Massage motors disconnected, remote issue.	Check connections to massage motors. Ensure remote batteries are fresh.
Under-bed light not working.	Light disconnected, remote issue.	Check light connections. Ensure remote batteries are fresh.

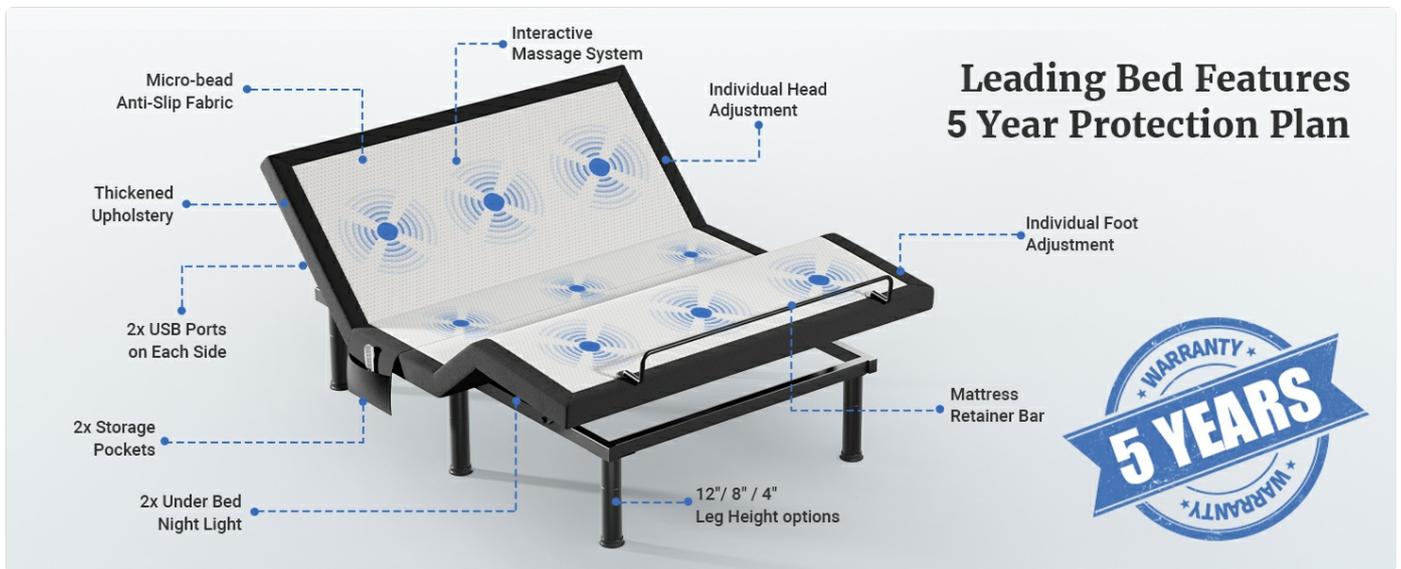

If the problem persists after attempting these solutions, please contact Tami Tami customer support.
