

taobosec F2

taobosec F2 Air Tracker Tag for Android Instruction Manual

Model: F2

1. INTRODUCTION

The taobosec F2 Air Tracker Tag is a compact and efficient item finder designed specifically for Android devices. Utilizing Google's Find My Device network, it helps you locate your valuables with high precision. This manual provides detailed instructions on how to set up, operate, and maintain your F2 tracker.

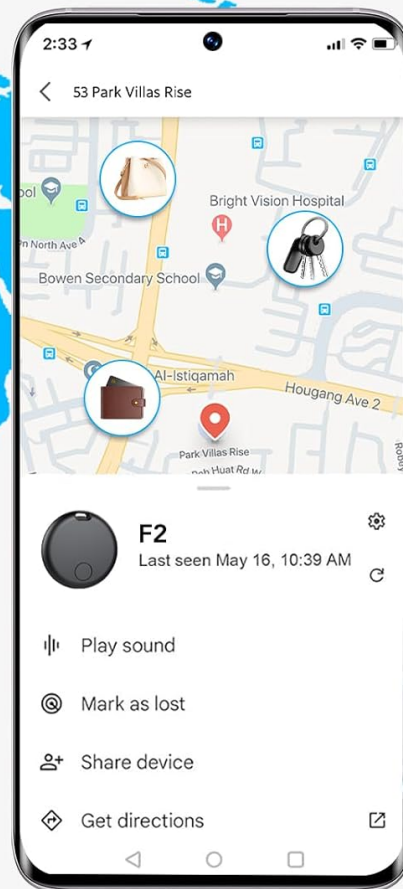

2. PRODUCT OVERVIEW

The F2 Air Tracker Tag offers a range of features to ensure your belongings are always within reach or easily locatable:

- **High-Precision Tracking:** Locates items within a 40-meter Bluetooth range and shows the last known location on a map via the Find My Device app when out of range.
- **Sound Finder:** Trigger a sound from the tracker's built-in speaker to find nearby items.
- **Left-Behind Reminders:** Receive instant notifications on your phone if your tagged item disconnects from Bluetooth.
- **Google-Certified Privacy:** Ensures anonymized and encrypted communication, with no location data stored on the device.
- **IP67 Water & Dust Resistance:** Durable design for reliable performance in various conditions.
- **User-Replaceable Battery:** Powered by a CR2032 battery with up to 1-year life, with low-battery alerts.
- **Smart Sharing:** Securely share location access with family or friends through the app.

Global Precise Positioning Tracking

Powered by Google's system for accurate worldwide tracking

Note: Apple and Huawei devices are not supported

Image: The taobosec F2 Air Tracker Tag utilizes Google's system for accurate worldwide tracking, as shown with a map and the 'Find My Device' app interface. Note: Apple and Huawei devices are not supported.

Privacy Protection

Working with "Find Hub" network and protect data security

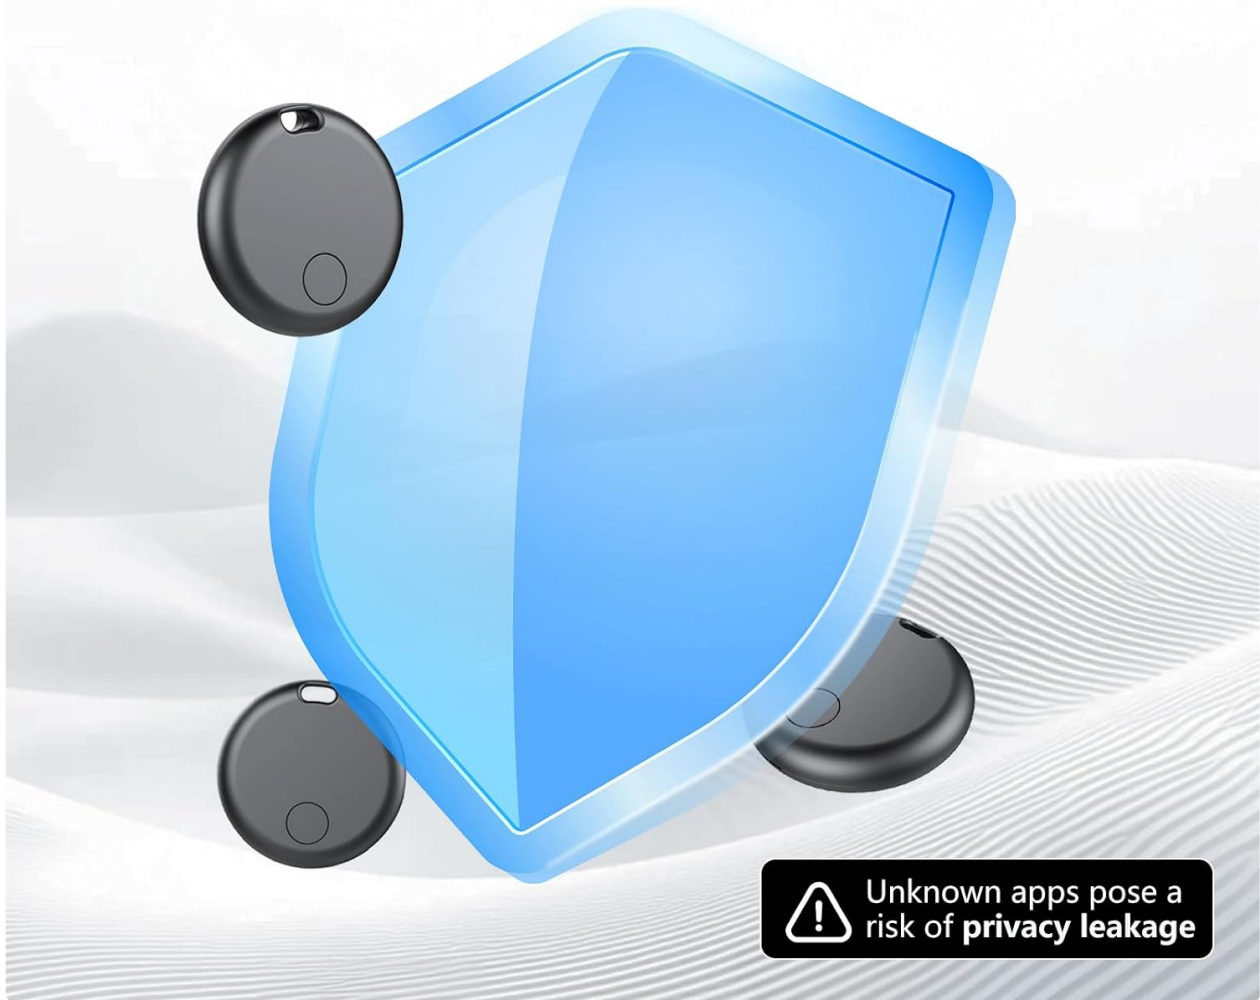

Image: The F2 tracker features a 365-day exchangeable battery and IP67 water and dust resistance, ensuring durability and long-term use.

Model Number	F2
Dimensions	1.2 x 1.2 x 0.35 inches
Item Weight	2.39 ounces

Connectivity	Bluetooth
Battery Type	CR2032 (user-replaceable)
Battery Life	Up to 1 year
Water Resistance	IP67 (Dust and Water Resistant)
Supported Application	Google Find My Device
Compatibility	Android 9.0 and above (Not compatible with iOS or Huawei)

5. SETUP GUIDE

Follow these steps to set up your taobosec F2 Air Tracker Tag with your Android device:

1. **Download the App:** Download and install the official "Google Find My Device" app from the Google Play Store on your Android smartphone. Ensure your device is running Android 9.0 or above.
2. **Enable Bluetooth:** Turn on Bluetooth on your Android smartphone.
3. **Activate Tracker:** Press the button on your F2 tracker to activate it and put it into pairing mode.
4. **Pair Device:** Open the "Google Find My Device" app. Bring the tracker close to your phone. A connection pop-up should appear in the app. Follow the on-screen prompts to complete the pairing process.
5. **Connection Successful:** Once connected, your F2 tracker will appear in the app, ready for use. You can manage multiple trackers simultaneously.

6. OPERATING INSTRUCTIONS

6.1 Locating Nearby Items

When your F2 tracker is within Bluetooth range (up to 40 meters), you can use the app to make it emit a sound:

- Open the "Google Find My Device" app.
- Select your F2 tracker from the list of devices.

- Tap the "Play sound" option. The tracker will emit a clear sound, helping you pinpoint its exact location.

**365 Days
Exchangable Batery**

**Global Precise
Location Tracking**

**IP67 Dust And
Water Resistant**

Image: Use the 'Play sound' feature in the app to locate your F2 tracker when it's nearby.

6.2 Tracking Out of Bluetooth Range

If your item moves beyond Bluetooth range, the "Google Find My Device" app will show its last known location on a map. This feature relies on the collective network of Android devices to anonymously detect your tracker's location.

- Open the "Google Find My Device" app.
- Select your F2 tracker.
- The app will display the last recorded location on a map. You can use navigation features to get directions to that location.

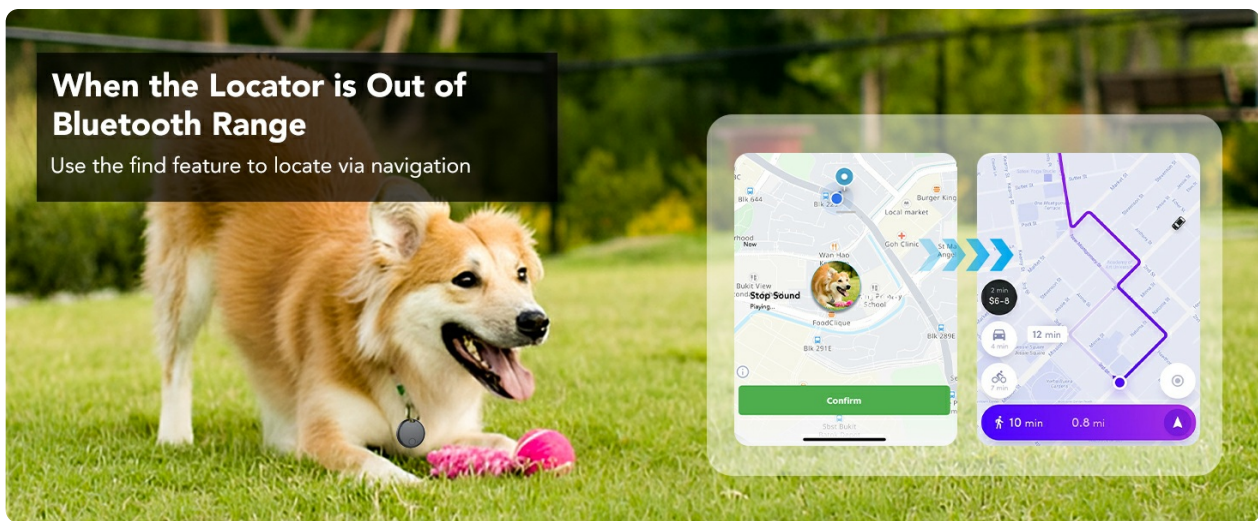

Image: When the tracker is out of Bluetooth range, use the app's navigation feature to locate it via its last known position.

6.3 Left-Behind Reminders

The F2 tracker can alert you if you leave an item behind:

- The app will send an instant notification to your phone if your tagged item disconnects from your phone's Bluetooth connection.
- This reminder helps prevent you from forgetting important items.

Left-Behind Remind

"Key" left behind

20mins ago

This item is no longer detected near you.
It was last seen near Home.

Image: Receive a 'Left-Behind Remind' notification if your tracker disconnects from your phone's Bluetooth.

6.4 Sharing Devices

You can share access to your tracker's location with trusted contacts:

- In the "Google Find My Device" app, select the tracker you wish to share.
- Look for a "Share device" or similar option.
- Follow the prompts to grant location access to family or friends. This requires them to also have the "Google Find My Device" app and an Android 9.0+ device.

Image: Share your tracker's location with family or friends through the Google Find Hub app.

7. MAINTENANCE

7.1 Battery Replacement

The F2 tracker uses a user-replaceable CR2032 coin cell battery. You will receive a low-battery alert on your phone when replacement is needed.

1. **Open the Casing:** Use a small tool (like a thin prying tool or a fingernail) to carefully pry open the seam of the locator's cover.
2. **Replace Battery:** Remove the old CR2032 battery and insert a new one, ensuring the positive (+) side faces upwards.
3. **Close Casing:** Align the cover with the device's slot and press firmly until it clicks securely into place.

The Locator Contains a Replaceable CR2032 Battery

1. Use a tool to pry open the locator cover's seam.

2. Replace with a new CR2032 battery.

Lithium 3V
CR2032

3. Close the cover, ensuring the latch aligns with the device's slot.

4. This battery can last up to 12 months and can be easily replaced if necessary.

Image: Steps for replacing the CR2032 battery in your F2 tracker.

7.2 Water and Dust Resistance

The F2 tracker has an IP67 rating, meaning it is resistant to dust and can withstand immersion in water up to 1

meter for 30 minutes. While durable, avoid prolonged submersion or exposure to high-pressure water jets to ensure longevity.

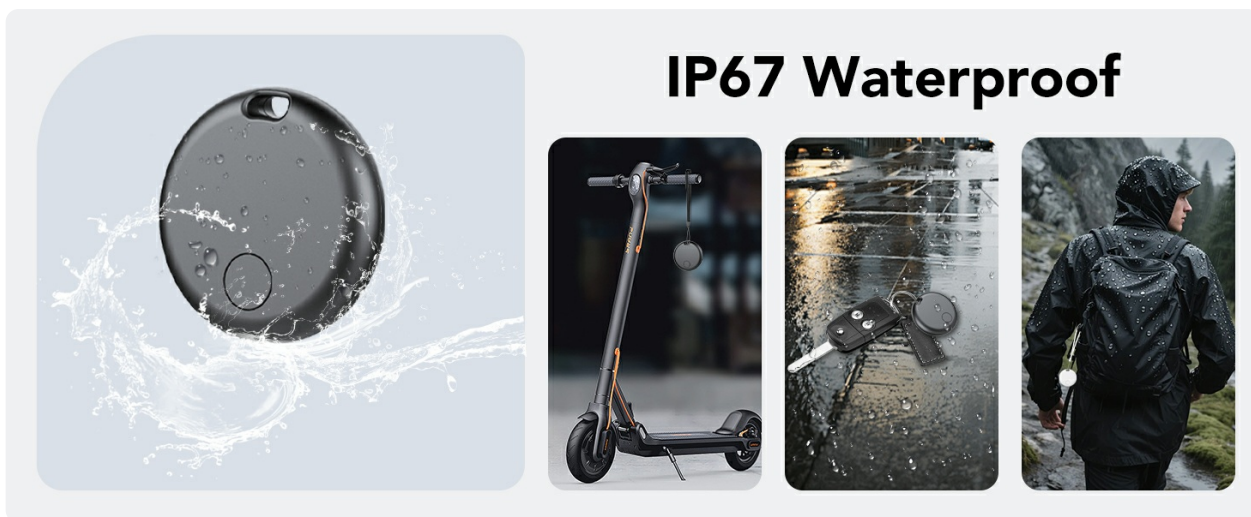

Image: The F2 tracker is IP67 waterproof, suitable for use in rainy or dusty conditions.

8. TROUBLESHOOTING

- **Tracker Not Connecting:**

- Ensure Bluetooth is enabled on your Android device.
- Check if the tracker's battery is charged or needs replacement.
- Make sure your Android device is running version 9.0 or higher.
- Restart your phone and try pairing again.

- **No Sound from Tracker:**

- Verify the tracker is within Bluetooth range of your phone.
- Check the battery level.

- **Inaccurate Location:**

- Ensure your phone's location services are enabled.
- Location accuracy can be affected by environmental factors (e.g., dense buildings, underground areas).

- **Notifications Not Received:**

- Check your phone's app notification settings for "Google Find My Device" to ensure they are enabled.
- Ensure the app has necessary permissions (e.g., location, Bluetooth).

9. SAFETY INFORMATION

- Keep the device and its battery out of reach of small children and pets. The CR2032 battery can be a choking hazard.
- Do not attempt to disassemble or modify the tracker beyond battery replacement.
- Avoid exposing the device to extreme temperatures or direct sunlight for extended periods.
- Dispose of batteries according to local regulations.

10. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation included with your purchase or visit the official taobosec website. If you encounter any issues or require further assistance, please contact taobosec customer support through their website or the contact information provided with your product.
