OPERATING INSTRUCTIONS

Mechanical MX Red Switches

The K243 is equipped with MX Red mechanical switches, known for their linear travel and low actuation force. This provides a smooth, precise, and responsive typing experience, ideal for both competitive gaming and extended typing sessions. The switches are designed for durability and consistent performance.

N-Key Rollover (NKRO) Anti-Ghosting

The keyboard features N-Key Rollover (NKRO) technology, ensuring that every keystroke is registered accurately, even when multiple keys are pressed simultaneously. This anti-ghosting feature is crucial for fast-paced gaming, preventing missed inputs and ensuring maximum precision.

RGB Lighting Control

The K243 keyboard offers dynamic RGB backlighting with 24 predefined effects. All lighting adjustments are made directly on the keyboard using function key combinations, without the need for additional software.

- **Change Lighting Mode:** Press **Fn + Ins** to cycle through the 24 predefined RGB effects.
- **Change Lighting Color:** Press **Fn + Del** to change the color within certain lighting modes.
- **Adjust Brightness:** Press **Fn + ↑ (Up Arrow)** to increase brightness, and **Fn + ↓ (Down Arrow)** to decrease brightness.
- **Adjust Effect Speed:** Press **Fn + ← (Left Arrow)** to decrease effect speed, and **Fn + → (Right Arrow)** to increase effect speed.
- **Lock Windows Key:** Press **Fn + Win** to disable the Windows key, preventing accidental presses during gaming.

MAINTENANCE

Cleaning Your Keyboard

To ensure the longevity and optimal performance of your EMPIRE GAMING K243 keyboard, regular cleaning is recommended:

- **Disconnect:** Always disconnect the keyboard from your device before cleaning.
- **Dust Removal:** Use a can of compressed air to blow away dust and debris from between the keycaps. Hold the can upright to prevent propellant discharge.
- **Surface Cleaning:** Gently wipe the keycaps and keyboard surface with a soft, lint-free cloth lightly dampened with water or a mild, non-abrasive cleaning solution. Avoid excessive moisture.
- **Stubborn Stains:** For stubborn stains, a cotton swab lightly dampened with isopropyl alcohol can be used on individual keycaps.
- **Drying:** Ensure the keyboard is completely dry before reconnecting it to your device.

Do not immerse the keyboard in water or use harsh chemicals, as this can damage the electronic components.

TROUBLESHOOTING

If you encounter issues with your EMPIRE GAMING K243 keyboard, please refer to the following common troubleshooting steps:

Problem	Possible Solution
Keyboard is not responding.	<ul style="list-style-type: none">• Ensure the USB-C cable is securely connected to both the keyboard and your device.• Try connecting the keyboard to a different USB port on your device.• Test the keyboard on another computer or console to rule out a device-specific issue.• Restart your computer or console.
RGB lighting is not working or stuck.	<ul style="list-style-type: none">• Ensure the keyboard is properly connected and receiving power.• Use the Fn key combinations (e.g., Fn + Ins, Fn + ↑) to cycle through modes or adjust brightness.• Disconnect and reconnect the keyboard.
Keys are not registering correctly (ghosting).	<ul style="list-style-type: none">• The K243 features NKRO anti-ghosting. If this occurs, ensure the cable is firmly connected.• Clean the keyboard to remove any debris that might be interfering with key presses.• Test on another device. If the issue persists, contact support.
Windows key is not working.	<ul style="list-style-type: none">• Press Fn + Win to toggle the Windows key lock on or off.
