

GALVANOX MSCP10PPS

GALVANOX Magnetic Wireless Charger for Samsung (MSCP10PPS) User Manual

Model: MSCP10PPS | Brand: GALVANOX

INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your GALVANOX Magnetic Wireless Charger. Please read this manual thoroughly before using the product and retain it for future reference.

The GALVANOX Magnetic Wireless Charger is designed to provide convenient and fast wireless charging for compatible Samsung Galaxy devices. It features a magnetic connection, 15W fast charging capability, an extra-long 10-foot braided cable, and includes a 25W PPS USB-C power adapter.

PACKAGE CONTENTS

- 2 x GALVANOX Magnetic Wireless Chargers (with integrated 10FT braided USB-C cables)
- 2 x 25W PPS USB-C Power Adapters

Image: Package contents showing two magnetic chargers and two wall adapters.

SETUP INSTRUCTIONS

1. **Connect the Charger:** Insert the USB-C connector of the magnetic wireless charger cable into the provided 25W PPS USB-C Power Adapter.
2. **Plug into Power:** Plug the power adapter into a standard wall outlet.
3. **Prepare Your Device:** Ensure your Samsung Galaxy device is compatible with wireless charging and, for optimal magnetic attachment, consider using a MagSafe-compatible case.

OPERATING INSTRUCTIONS

Magnetic Attachment

The charger features built-in N52 magnets for a secure connection. Simply place your compatible Samsung Galaxy device onto the magnetic charging pad. The charger will automatically align and snap into place, initiating the charging process.

Secure Magnetic Connection

Built-In N52 magnets provide a strong and secure charging connection to your Samsung device (magnetic case required)

Fast Wireless Charging

This charger supports up to 15W of fast wireless charging for compatible devices. The included 25W PPS USB-C adapter optimizes power delivery, ensuring efficient and stable charging while minimizing heat buildup.

15W Fast Wireless Charging

Supports upto 15W of wireless fast charging. Up to 2.5X faster than standard 5/7.5W chargers

SAFETY FEATURES

The charger incorporates smart protection features with built-in safety chips. These chips continuously monitor power flow to prevent overcharge, overheating, and short circuits, ensuring stable and efficient charging for your device.

SMART PROTECTION

SMART PROTECTION BUILT-IN SAFETY CHIPS CONTINUOUSLY MONITOR POWER FLOW, PREVENTING OVERCHARGE, OVERHEATING, AND SHORT CIRCUITS .

THE TECHNOLOGY ENSURES STABLE, EFFICIENT CHARGING FOR EVERY CONNECTED DEVICE.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the charging pad and cable. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** The braided cable is designed for durability. Avoid sharp bends, kinks, or excessive pulling to prevent damage.

TROUBLESHOOTING

- **Device Not Charging:**
 - Ensure the power adapter is securely plugged into a working wall outlet.
 - Verify the USB-C cable is fully inserted into the power adapter.
 - Confirm your device is properly aligned on the magnetic charging pad.
 - Remove any non-magnetic or excessively thick phone cases that might interfere with the magnetic connection or wireless charging.

- Test with another compatible device if available to rule out device-specific issues.
- **Weak Magnetic Connection:**
 - Ensure your phone case is MagSafe-compatible or thin enough not to obstruct the magnetic field.
 - Check for any metallic objects or foreign materials between the charger and your device.
- **Slow Charging:**
 - Ensure you are using the included 25W PPS USB-C power adapter. Using a lower wattage adapter may result in slower charging speeds.
 - Close unnecessary background applications on your device.
 - Avoid using your device extensively while charging, as this can slow down the charging process.
 - Environmental factors and device battery health can affect charging speed.
- **Charger or Device Gets Warm:**
 - It is normal for wireless chargers and devices to become slightly warm during charging.
 - If the device or charger becomes excessively hot, disconnect it immediately and allow it to cool down. Ensure proper ventilation around the charger and device.
 - Overheating can be caused by using the device heavily while charging, or by obstructions preventing heat dissipation.

SPECIFICATIONS

| | |
|---------------------------|--|
| Model Number | MSCP10PPS |
| Input Voltage | 5 Volts |
| Wattage | 25 Watts (Adapter), 15 Watts (Wireless Charging Output) |
| Cable Length | 10 Feet (approx. 3 meters) |
| Connector Type | USB Type C |
| Compatible Devices | Samsung Galaxy Phones (e.g., S25, S25 Plus, S25 Ultra) |
| Special Features | Fast Charging, MagSafe Compatible Magnetic Connection, Braided Cable, Smart Protection |
| Product Dimensions | 6 x 5 x 1 inches |
| Item Weight | 8.1 ounces |

WARRANTY INFORMATION

GALVANOX products are designed for durability and performance. For specific warranty details and terms, please refer to the warranty card included with your product or visit the official GALVANOX website. Keep your proof of purchase for warranty claims.
