2. SAFETY INFORMATION

Please read all safety instructions before using the device. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure the power supply meets the camera's requirements.
- Do not expose the camera to extreme temperatures, humidity, or direct sunlight for prolonged periods.
- Install the camera securely to prevent it from falling.
- Keep the camera away from children and pets.

- Do not attempt to disassemble or repair the camera yourself. Contact qualified service personnel.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- OSRAM SMART+ WIFI OUTD CAMERA
- Mounting Kit (screws, wall plugs)
- Power Adapter
- Quick Start Guide

4. PRODUCT OVERVIEW AND FEATURES

The OSRAM SMART+ WIFI OUTD CAMERA is designed for comprehensive outdoor surveillance, offering a range of features for enhanced security.

- **Motion Detection:** Receive real-time alerts upon detecting movement.
- **Night Vision:** Infrared night vision up to 10 meters for clear monitoring in low light.
- **Two-Way Audio:** Built-in microphone and speaker for communication.
- **IP65 Weather Protection:** Durable design suitable for outdoor conditions.
- **Encrypted Storage:** Secure storage for your recordings.
- **Privacy Mode:** Temporarily disable recording for privacy.
- **WiFi Connectivity:** Direct connection to your existing Wi-Fi network, no additional hub required.
- **Smart Home Integration:** Compatible with the SMART+ app, Google Home, and Alexa.

Protezione completa con le telecamere SMART+
SICUREZZA A COLPO D'OCCHIO.

Le telecamere smart monitorano ogni ambiente senza interruzioni. Grazie a grandangolo, visione notturna e registrazione automatica, creano una rete di sicurezza completa per spazi privati e professionali.

Sicurezza totale – giorno e notte.
Trigger di allarme intelligente e visione notturna a infrarossi fino a 10 m garantiscono sicurezza intorno alla casa. Che si tratti di porta d'ingresso, terrazza o giardino – grazie alla protezione IP65 e all'audio bidirezionale puoi ascoltare e parlare in qualsiasi momento.

- 10m Visione a infrarossi
- Rilevamento del movimento
- Definizione delle aree

- Modalità privacy
- Crittografia end-to-end
- SMART WIFI
- Controllo vocale
- Microfono e altoparlante

5. SETUP

5.1 Physical Installation

1. **Choose a Location:** Select an outdoor location with a clear view of the area you wish to monitor and within range of your Wi-Fi network. Consider power source accessibility.
2. **Mount the Camera:** Use the provided mounting kit to securely attach the camera to a wall or desired surface. Ensure it is positioned to capture the optimal viewing angle.

3. **Connect Power:** Plug the power adapter into the camera and then into a suitable outdoor power outlet.

La telecamera giusta per ogni ambiente – interni, esterni e campanello

5.2 App Download and Pairing

1. **Download the SMART+ App:** Search for "OSRAM SMART+" in your smartphone's app store (iOS or Android) and download the application.
2. **Create an Account:** Open the app and follow the on-screen instructions to create a new user account or log in if you already have one.
3. **Add Device:** Tap the "+" icon or "Add Device" option in the app. Select your camera model from the list.
4. **Connect to Wi-Fi:** Follow the app's instructions to connect your camera to your 2.4 GHz Wi-Fi network. This usually involves scanning a QR code displayed on your phone with the camera or entering Wi-Fi credentials.
5. **Complete Setup:** Once connected, name your camera and adjust initial settings as prompted by the app.

6. OPERATING INSTRUCTIONS

6.1 Live View and Recording

- Open the SMART+ app and select your camera to view the live feed.

- Tap the record button to manually start/stop video recording.
- Recorded videos are stored in the cloud or on a local SD card (if installed).

6.2 Motion Detection and Alerts

- Navigate to the camera settings in the app to enable motion detection.
- Adjust sensitivity levels and define specific detection zones to minimize false alarms.
- Enable push notifications to receive instant alerts on your smartphone when motion is detected.

6.3 Two-Way Audio

- While in live view, tap the microphone icon to speak through the camera's speaker.
- Tap the speaker icon to listen to audio from the camera's surroundings.

6.4 Privacy Mode

- Activate privacy mode in the app settings to temporarily disable video and audio recording when privacy is desired.

6.5 Smart Home Integration

- Integrate your camera with Google Home or Amazon Alexa by following the instructions in their respective apps.
- Use voice commands to view live feeds on compatible smart displays.

**CONNESSIONE STABILE
– CON IL WIFI.**

Tecnologia consolidata per una Smart Home affidabile e flessibile.

Il WiFi permette un collegamento veloce e sicuro tra dispositivi smart. Le telecamere funzionano direttamente sulla rete esistente – senza hub aggiuntivi o installazioni complesse. Flessibili, estendibili e subito pronte all'uso.

The diagram features a central house icon with a Wi-Fi signal, connected to various smart home icons: a smartphone, a lock, an envelope, a lightbulb, a camera, a power button, a game controller, and headphones. Below the diagram are four compatibility logos: 'works with SMART+ app', 'works with Google Home', 'Wi Fi', and 'works with alexa'.

Image: Diagram illustrating the stable Wi-Fi connection and compatibility with the SMART+ app, Google Home, and Alexa for a flexible smart home.

7. MAINTENANCE

7.1 Cleaning the Camera

- Gently wipe the camera lens and body with a soft, damp cloth.
- Do not use harsh chemicals or abrasive cleaners.

7.2 Firmware Updates

- Regularly check the SMART+ app for available firmware updates.
- Install updates to ensure optimal performance and security.

7.3 Storage Management

- If using an SD card, periodically check its status and format it through the app if necessary.
- Manage cloud storage subscriptions and delete old recordings as needed.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera offline	No power; Wi-Fi disconnected; Router issue	Check power connection; Verify Wi-Fi signal strength; Restart router; Re-pair camera with app
Poor video quality	Weak Wi-Fi signal; Dirty lens; Insufficient bandwidth	Move camera closer to router; Clean lens; Check internet speed; Reduce video quality settings in app
No motion alerts	Motion detection disabled; Incorrect sensitivity; App notifications off	Enable motion detection in app; Adjust sensitivity; Check app notification settings on phone
Two-way audio not working	Microphone/speaker blocked; App permissions; Volume settings	Ensure clear path for mic/speaker; Check app permissions for microphone; Adjust volume in app/phone

9. SPECIFICATIONS
