Maintenance and Care

- **Spills:** Immediately wipe up any spills to prevent staining or damage to the MDP material.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.
- **Humidity:** Maintain a stable room temperature and humidity level to prevent warping or swelling of the wood-based panels.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary, but do not overtighten.

Troubleshooting

If you encounter any issues with your wardrobe, refer to the following common solutions:

- **Doors not closing properly:** Check hinge alignment. Adjust hinges as per the installation manual. Ensure the wardrobe is on a level surface.
- **Drawers sticking or not sliding smoothly:** Verify that the telescopic slides are correctly installed and free of obstructions. Ensure the drawer is not overloaded.
- **Wobbling:** Ensure all assembly screws are fully tightened. Check that the wardrobe is placed on a flat, level floor.
