Swarovski SK6040

Swarovski SK6040 Square Sunglasses User Manual

Model: SK6040

INTRODUCTION

Welcome to your Swarovski SK6040 Square Sunglasses user manual. These sunglasses feature a stylish square frame with black and dark grey lenses, designed for comfortable everyday wear while providing essential eye protection. This guide provides important information on how to properly use, care for, and maintain your new eyewear.

SETUP

Upon receiving your Swarovski SK6040 sunglasses, perform the following initial steps:

1. **Unboxing:** Carefully remove the sunglasses from their packaging and the protective case.
2. **Initial Inspection:** Inspect the sunglasses for any visible damage, scratches, or loose components. If any issues are found, contact your retailer.
3. **Fit Check:** Gently place the sunglasses on your face. Ensure they sit comfortably on your nose and behind your ears without causing pressure points.
4. **Professional Adjustment:** If the fit is not ideal or if you experience discomfort, it is recommended to visit a qualified optician for professional frame adjustments. Avoid attempting to bend the frame yourself, as this may cause damage.

OPERATING INSTRUCTIONS

Your Swarovski SK6040 sunglasses are designed for daily use to protect your eyes from the sun.

- **Wearing:** Always hold the sunglasses by the frame when putting them on or taking them off. This prevents bending the temples and reduces the risk of scratching the lenses.
- **UV Protection:** The lenses are coated with 100% UV protection, shielding your eyes from harmful UVA and UVB rays. Wear them outdoors in bright conditions for optimal eye health.
- **Handling:** Avoid placing sunglasses face down on hard surfaces to prevent lens scratches.

MAINTENANCE AND CARE

Proper care will extend the life and maintain the clarity of your Swarovski SK6040 sunglasses.

- **Cleaning Lenses:** Use the provided soft cleaning cloth to gently wipe away dust and smudges. For more thorough cleaning, rinse the lenses with lukewarm water and a small drop of mild, non-abrasive soap. Gently rub with your fingertips, then rinse thoroughly and dry with the cleaning cloth.
- **Cleaning Frames:** Wipe the frames with the cleaning cloth. For stubborn dirt, a damp cloth can be used, followed by drying with the cleaning cloth.
- **Storage:** Always store your sunglasses in the original protective case when not in use. This prevents scratches, dust accumulation, and accidental damage.
- **Avoid Harsh Chemicals:** Do not use paper towels, clothing, or harsh cleaning agents (e.g., window cleaner, acetone) on your lenses or frames, as these can scratch the lenses or damage coatings and frame materials.
- **Temperature Extremes:** Avoid exposing your sunglasses to extreme heat (e.g., leaving them on a car dashboard in direct sunlight) or extreme cold, as this can warp the frame or damage lens coatings.

TROUBLESHOOTING

Refer to the following common issues and solutions:

Problem	Solution
Loose Screws	Gently tighten screws at the hinges with a small eyewear screwdriver. Avoid overtightening. If unsure, consult an optician.
Smudged Lenses	Clean lenses using the provided cleaning cloth or a mild soap solution as described in the Maintenance section.
Discomfort or Poor Fit	Visit a qualified optician for professional frame adjustments to ensure a comfortable and secure fit.
Scratched Lenses	Minor scratches may be unavoidable over time. For significant scratches affecting vision, lens replacement may be necessary. Consult an optician.
