

## TORRAS WX3A

# TORRAS Ostand PolarCircle Wireless Charger User Manual

Model: WX3A

## 1. INTRODUCTION

Thank you for purchasing the TORRAS Ostand PolarCircle Wireless Charger. This device combines Qi2.2 25W fast wireless charging with advanced smartphone cooling technology, featuring a Peltier element and a silent fan. Its 360-degree rotating stand offers versatile viewing angles, making it ideal for various uses. This manual provides essential information for safe and efficient operation.

## 2. PRODUCT FEATURES

- **Next-Generation Cooling Experience:** Utilizes proprietary "PolarCircle" technology with a Peltier element to directly cool your smartphone, ensuring stable charging speeds without slowdowns due to heat. This prevents overheating, especially in warm environments, allowing for stress-free video viewing and gaming.
- **Qi2.2 Certified, 25W Fast Charging:** Achieves high-speed wireless charging performance. For example, an iPhone 17 can charge approximately 60% in just 30 minutes. This overcomes the traditional perception of slow wireless charging, efficiently restoring battery power at speeds comparable to wired charging.
- **360° Rotating Stand for Flexible Angles:** The Ostand PolarCircle features a 360-degree rotating stand, supporting both vertical and horizontal orientations. This allows for comfortable use during calls, web browsing (vertical), or video watching and gaming (horizontal). It is also suitable for daily desk work or bedside use.
- **Effortless "Just Place" Charging:** Eliminates the hassle of cables. Simply place your smartphone on the charger, and it automatically attaches magnetically, initiating smooth charging at the optimal position. This not only frees you from repeated plugging/unplugging and alignment efforts but also prevents terminal degradation caused by cable insertion/removal.
- **Compact and Portable Design:** Weighing only 94g with a small design, it fits easily into bags, pockets, or carry-on luggage. Convenient for travel or outings, ensuring your iPhone or AirPods are always fully charged.

### 3. PACKAGE CONTENTS

Please ensure all items are present in the package:

- TORRAS Ostand PolarCircle Wireless Charger Unit
- 1.5m Type-C Cable
- 45W Charger
- User Manual

## 4. SETUP GUIDE

---

1. **Connect the Charger:** Insert the provided 1.5m Type-C cable into the wireless charger unit and connect the other end to the 45W charger.
2. **Power On:** Plug the 45W charger into a power outlet. The indicator light on the wireless charger will illuminate, indicating it is ready for use.
3. **Placement:** Place the wireless charger on a stable, flat surface. Ensure there is adequate ventilation around the device.
4. **Device Compatibility:** This charger is compatible with Qi2.2 enabled devices, including iPhone 17/16 series and Galaxy S26 Ultra for 25W fast charging. It also supports 15W charging for iPhone 15/14/13/12 series and 5W charging for AirPods 4/3/Pro/Pro 2.

## 5. OPERATING INSTRUCTIONS

- Initiating Charging:** Place your compatible smartphone or AirPods directly onto the charging surface of the TORRAS Ostand PolarCircle. The device will magnetically align and charging will begin automatically.
- Monitoring Charging:** Your device's screen will indicate that charging has started. The integrated cooling fan will activate to manage heat during charging.
- Using the Stand:** The built-in stand can be rotated 360 degrees. Adjust it to your desired vertical or horizontal viewing angle for optimal comfort while charging.

4. **Ending Charging:** Simply lift your device from the charger to stop charging.

## 6. MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the surface of the charger. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Obstructions:** Ensure the fan vents are not blocked during operation to maintain optimal cooling performance.

- **Handle with Care:** Avoid dropping or subjecting the charger to strong impacts, as this may damage internal components.

## 7. TROUBLESHOOTING
