CIO SMARTCOBY ULTRA SLIM 3K

CIO SMARTCOBY ULTRA SLIM 3K User Manual

Model: SMARTCOBY ULTRA SLIM 3K | Brand: CIO

INTRODUCTION

Thank you for purchasing the CIO SMARTCOBY ULTRA SLIM 3K MagSafe Compatible Wireless Portable Charger. This manual provides detailed instructions for safe and efficient use of your device. Please read it thoroughly before use and keep it for future reference.

A man in a blue striped shirt is shown from the chest up, holding a thin, white, rectangular mobile battery device. The device is held between his fingers, and its slim profile is emphasized. The background is dark, making the man and the device stand out.

非常用ではない、

新しい日常のかたち

従来のモバイルバッテリーは
「いざという時のため」にバッグの奥に入れておく存在でした。
けれど、SMARTCOBY ULTRA SLIM 3K は違います。
スマートフォンと重ねてポケットや鞆に入れても邪魔にならない
その厚さはわずか 4.98mm。

軽さも相まって持ち運ぶ感覚さえ忘れてしまいます。

「なくても困らないけれど、あると日常が整う」。
そんな存在を目指し Apple の「探す」機能にも対応しました。

置き忘れても安心なパートナーです。

使うために持つのではなく、日々の中で自然と一緒に。

「非常用」ではない、CIO が提供する
新しいモバイルバッテリーのかたちです。

PRODUCT FEATURES

- **Ultra-thin and Lightweight Design:** At just 4.98mm thick and approximately 82g, this portable charger offers a minimalist design that integrates seamlessly with your iPhone. It does not protrude or add bulk, providing a natural, integrated feel whether carried or attached.
- **MagSafe Compatible & Qi Wireless Charging:** The charger magnetically attaches to your iPhone via MagSafe, enabling immediate Qi wireless charging (up to 7.5W). This eliminates the hassle of finding cables and allows for convenient charging anywhere.
- **Optimal 3000mAh Capacity for Daily Use:** With a 3000mAh capacity, this charger is designed to provide a convenient power boost for daily commutes, outings, or cafe visits, without adding significant weight. It serves as an ideal supplementary battery for those who prioritize portability and essential power.
- **Integrated Find My Functionality:** This product includes a built-in anti-loss tag compatible with Apple's Find My network. You can track its location, receive notifications, and play a sound from your iPhone, helping prevent misplacement. The Find My function remains active for approximately 2 months even if the main battery is depleted, and it recharges automatically when the power bank is charged.
- **Durable and Elegant Stainless Steel Body:** Constructed with a 0.3mm thick high-strength stainless steel casing, this slim charger offers robust protection against bending and impacts. The design emphasizes both durability and a premium aesthetic, featuring a matte surface and mirror-finished sides. PVD and anti-fingerprint treatments ensure lasting beauty.
- **Scratch-Resistant and Non-Slip Surface:** The charging surface that contacts your smartphone is overmolded with an ultra-thin liquid silicone on polycarbonate. This design protects your smartphone from scratches and resists dirt accumulation.
- **LED Battery Level Indicator:** A single press of the power button illuminates a multi-color LED light, indicating the remaining battery level in four stages (3 colors + blinking). This minimalist design balances ease of use with aesthetic appeal.
- **Wired Charging via USB-C Port:** The USB-C port allows for wired charging of smartphones and earphones. Wired charging is more efficient than wireless, providing approximately 0.55 charges for iPhone 16, 0.6 charges for iPhone 15, and 0.7 charges for iPhone Air. Maximum output: 10W.
- **Full Pass-Through Charging:** Supports simultaneous charging of the power bank and your device (e.g., iPhone). Once the power bank is fully charged, it automatically switches to directly charge the connected device, bypassing the internal battery. This design reduces stress on the battery cells, promoting longer lifespan and enhanced safety.

MAINTENANCE

- Keep the charger clean and dry. Use a soft, dry cloth to wipe the surface.
- Avoid exposing the charger to extreme temperatures, direct sunlight, or high humidity.
- Do not disassemble, modify, or attempt to repair the device yourself. This will void the warranty and may cause damage or injury.
- Store the charger in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Charger not powering on/charging.	Low battery on the power bank.	Charge the SMARTCOBY ULTRA SLIM 3K fully.
Wireless charging not working.	Incorrect alignment; non-MagSafe case; device not Qi-compatible.	Ensure proper alignment. Use a MagSafe-compatible case. Verify your device supports Qi wireless charging.
Wired charging not working.	Faulty cable; device not compatible; power bank low on charge.	Try a different USB-C cable. Ensure your device is compatible. Charge the power bank.
Find My function not working.	Not paired with iPhone; iPhone/Apple ID issues.	Ensure the device is correctly paired in the Find My app. Check iPhone and Apple ID settings.
Magnets interfering with cards.	Magnetic cards (credit, IC) too close to the charger.	Keep magnetic cards away from the charger to prevent data corruption.
