HIRREO TX12-D-CA

HIRREO TX12 Military Smart Watch User Manual

MODEL: TX12-D-CA

Brand: HIRREO

1. SETUP AND INITIAL USE

This section guides you through the initial setup of your HIRREO TX12 Military Smart Watch, including unboxing, charging, and connecting to your smartphone.

1.1 Package Contents

Upon opening the package, ensure all components are present:

- HIRREO TX12 Smart Watch
- Charging Cable (Magnetic)
- User Manual
- Stainless Steel Strap (pre-installed or separate)
- Silicone Strap (additional)
- Strap Accessories (e.g., tool for strap adjustment)

1.2 Charging the Device

Before first use, fully charge your smartwatch. The device features a 900mAh battery, providing extended usage.

1. Connect the magnetic charging cable to the charging points on the back of the watch.
2. Plug the USB end of the cable into a standard USB power adapter (not included) or a computer's USB port.
3. The watch display will indicate charging status. A full charge typically takes approximately 3 hours.

1.3 App Installation and Device Pairing

To unlock the full potential of your smartwatch, install the companion app and pair it with your smartphone.

1. Scan the QR code displayed on the watch screen or in the user manual to download the FitCloudPro app from your smartphone's app store (iOS or Android).
2. Enable Bluetooth on your smartphone.
3. Open the FitCloudPro app, create an account if prompted, and follow the on-screen instructions to add your device. Select 'TX12' from the list of available devices.
4. Confirm the pairing request on both your smartphone and the smartwatch.
5. Grant necessary permissions within the app for notifications, contacts, and other features to function correctly.

3. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your smartwatch.

3.1 Cleaning

- Regularly wipe the screen and watch body with a soft, lint-free cloth.
- For stubborn dirt, use a slightly damp cloth. Avoid harsh chemicals or abrasive materials.
- Clean the charging contacts periodically to ensure efficient charging.

3.2 Water Resistance (IP68)

The TX12 Smart Watch is IP68 waterproof, meaning it can withstand dust, dirt, and sand, and is resistant to submersion up to a maximum depth of 1.5m for up to 30 minutes. It is suitable for daily use, hand washing, and light rain.

- Avoid prolonged submersion or use in hot water, saunas, or steam rooms.
- Do not press buttons underwater.
- After exposure to water, dry the watch thoroughly before charging.

Image: The HIRREO TX12 Smart Watch partially submerged in water, illustrating its waterproof capability.

3.3 Battery Care

- Avoid completely draining the battery frequently.
- Store the watch in a cool, dry place when not in use for extended periods.

4. TROUBLESHOOTING

If you encounter issues with your smartwatch, refer to the following common solutions.

4.1 Connectivity Issues

- **Watch not connecting to app:** Ensure Bluetooth is enabled on your phone and the watch is within range. Restart both the watch and the app.
- **Notifications not appearing:** Check app permissions on your phone and ensure notification access is granted to FitCloudPro. Verify that notifications are enabled within the app settings.

4.2 Battery and Charging

- **Watch not charging:** Ensure the magnetic charging cable is correctly aligned with the watch's charging pins. Try a different USB power source.
- **Short battery life:** Reduce screen brightness, shorten screen-on time, and disable

unnecessary features or continuous monitoring if not required.

4.3 Display and Performance

- **Screen unresponsive:** Restart the watch by pressing and holding the power button.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch.
