Nania Lima I-size

Nania Lima I-Size Isofix Car Seat 76-150 cm Instruction Manual

Model: Lima I-size

Safety Information | Product Overview | Setup & Installation | Operating Instructions | Maintenance | Specifications

1. Safety Information

The Nania Lima I-Size car seat is designed and tested to meet the latest R129 i-Size safety standard. This certification ensures high safety performance, including rigorous testing for both frontal and side collisions.

Important Safety Guidelines:

- Always ensure the car seat is correctly installed according to the instructions provided.
- Never leave a child unattended in the car seat.
- Regularly check that the harness is properly adjusted and snug against your child.
- Do not use the car seat if it has been involved in an accident, even if there is no visible damage.
- Refer to your vehicle's owner's manual for specific car seat installation guidelines.

2. Product Overview

The Nania Lima I-Size car seat is an evolutive car seat designed to grow with your child, accommodating heights from 76 to 150 cm (approximately 15 months to 12 years or 9-36 kg).

Key Features:

- **Evolutive Design:** Suitable for children from 76 to 150 cm.
- **Adjustable Headrest:** Features 10 height positions for optimal comfort and safety as your child grows.
- **5-Point Safety Harness:** Used for children up to 105 cm and a maximum weight of 18 kg. The harness automatically adjusts with the headrest.
- **Side Protection System (SPS):** Reinforced side protections safeguard the child's shoulders and hips.
- **Removable Comfort Insert:** Provides additional comfort for younger children and is easily removable and washable.
- **Non-Reclinable:** This model does not feature a recline function.

3. Setup & Installation

The Nania Lima I-Size car seat is installed forward-facing using the ISOFIX system and Top Tether, ensuring a secure and stable fit in your vehicle.

Installation Steps:

1. **Locate ISOFIX Anchors:** Identify the ISOFIX anchor points in your vehicle's back seat.
2. **Extend ISOFIX Connectors:** Extend the ISOFIX connectors from the base of the car seat.
3. **Attach ISOFIX:** Push the ISOFIX connectors onto the vehicle's anchor points until they click securely into place. A green indicator will confirm correct attachment.
4. **Connect Top Tether:** Route the Top Tether strap over the back of the vehicle seat and attach it to the designated Top Tether anchor point in your car.
5. **Tighten Top Tether:** Pull the Top Tether strap firmly to remove any slack, ensuring the car seat is snug against the vehicle seat back.
6. **Verify Installation:** Double-check all connections to ensure the car seat is securely installed and does not move excessively.

4. Operating Instructions

Adjusting the Headrest and Harness:

The headrest and 5-point harness (for children up to 105 cm / 18 kg) can be adjusted simultaneously with one hand. This ensures the harness is always at the correct height for your child's shoulders.

1. To adjust, locate the headrest adjustment lever, typically at the top or back of the headrest.
2. Squeeze the lever and move the headrest up or down to the desired position.
3. Release the lever to lock the headrest in place. Ensure the harness straps are level with or slightly below your child's shoulders.

Transitioning to Booster Mode (100-150 cm):

When your child reaches 100 cm in height (and is over 18 kg), the 5-point harness can be stored within the car seat, and the child can be secured using the vehicle's 3-point seat belt.

1. Unbuckle the 5-point harness.
2. Follow the instructions in the car seat manual to store the harness straps within the seat. This typically involves tucking them into designated compartments.
3. Position the child in the car seat and route the vehicle's 3-point seat belt through the red belt guides on the car seat and across the child's body.
4. Ensure the lap belt is low across the hips and the shoulder belt rests across the center of the child's shoulder and chest.

5. Maintenance

Cleaning the Car Seat:

The comfort insert and cover of the Nania Lima I-Size car seat are removable and washable, making cleaning easy.

- **Removing the Cover:** Carefully detach the fabric cover from the car seat frame. Refer to the specific instructions in your full manual for detailed removal steps.
- **Washing Instructions:** The cover is hand washable. Use mild soap and cold water. Do not bleach, tumble dry, or iron.
- **Drying:** Air dry the cover completely before reattaching it to the car seat.
- **Frame Cleaning:** Wipe the plastic parts of the car seat frame with a damp cloth and mild soap. Do not use abrasive cleaners.

6. Troubleshooting

If you encounter any issues with your Nania Lima I-Size car seat, please refer to the following common solutions:

- **Difficulty with ISOFIX Installation:** Ensure the ISOFIX connectors are fully extended and aligned with the vehicle's anchor points. Push firmly until the green indicators appear.
- **Harness Too Tight/Loose:** Adjust the headrest height to ensure the harness straps are at the correct shoulder level. Use the harness adjuster to tighten or loosen the straps for a snug fit.
- **Car Seat Movement:** Re-check all installation points (ISOFIX and Top Tether). Ensure all straps are tightened correctly and the car seat is firmly secured against the vehicle seat.
- **Missing Parts:** If any parts are missing or damaged upon arrival, contact Nania customer support immediately.

7. Specifications

Feature	Detail
Product Dimensions	42 x 45 x 55 cm
