5. Setup

Before initial use, it is recommended to fully charge your power bank.

1. **Initial Charge:** Connect the provided USB-C cable to the Type-C port on the power bank and to a suitable power adapter (not included). The digital display will show the charging progress.

2. **Power On/Off:** Press the power button once to turn on the power bank and activate the display. Press and hold the power button for 3-5 seconds to turn it off.

6. Operating Instructions

6.1 Charging the Power Bank

To recharge the power bank, use either the Type-C Input/Output Port or the Lighting Input Port. Connect the appropriate cable to a power source. The digital display will indicate the current charge level.

6.2 Charging Devices

The AOGUERBE power bank offers multiple ways to charge your devices:

6.2.1 Wireless (MagSafe) Charging

This feature is compatible with iPhone 12 series and newer models. For optimal magnetic attachment and charging efficiency, use a MagSafe-compatible phone case or no case at all.

1. Ensure the power bank is turned on.
2. Align your MagSafe-compatible iPhone with the magnetic charging area on the power bank. The phone will snap into place magnetically.
3. Charging will begin automatically. A charging animation may appear on your iPhone screen.

6.2.2 Wired Charging

Use the USB-A Output Port or the Type-C Output/Input Port to charge devices via cable.

1. Connect your device's charging cable to the appropriate output port on the power bank.
2. Connect the other end of the cable to your device.
3. Charging will commence automatically.

6.2.3 Charging Multiple Devices Simultaneously

The power bank can charge up to three devices at once: one wirelessly via MagSafe, and two via the USB-A and USB-C ports.
