## EDJO LPK368

# EDJO LPK368 Wired Backlit Large Print Keyboard User Manual

Model: LPK368 | Brand: EDJO

## INTRODUCTION

Thank you for choosing the EDJO LPK368 Wired Backlit Large Print Keyboard. This manual provides essential information for setting up, operating, and maintaining your new keyboard. Designed for enhanced visibility and ease of use, this keyboard features oversized, illuminated keys and a plug-and-play USB connection, making it ideal for users who benefit from larger fonts, such as seniors, individuals with visual impairments, students, and those working in low-light conditions.

## SETUP INSTRUCTIONS

The EDJO LPK368 keyboard is designed for simple plug-and-play functionality, requiring no additional drivers or software installation.

- Connect the USB Cable:** Locate an available USB Type-A port on your computer (desktop PC, laptop, or compatible device). Insert the keyboard's USB cable firmly into the port.
- System Recognition:** Your operating system (Windows, Mac, Chrome OS) should automatically detect and configure the keyboard within a few seconds.
- Ready for Use:** Once recognized, the keyboard is ready for immediate use. No battery charging or replacement is required as it is powered directly via the USB connection.

**Note on Mac Compatibility:** While the keyboard is compatible with Mac operating systems, some multimedia keys may not function identically or may require specific software settings on Mac.

## OPERATING INSTRUCTIONS

### Basic Typing

The keyboard features a standard QWERTY layout with large, easy-to-read characters. Simply begin typing as you would with any standard keyboard.

### Backlight Control

The keyboard offers 7 different backlight colors and 4 brightness levels to enhance visibility in various lighting conditions. There are two backlight modes: a static color mode and a 7-color cycle mode.

- **Adjust Brightness:** Press **Fn + ↑** (Up Arrow) to increase backlight brightness. Press **Fn + ↓** (Down Arrow) to

decrease backlight brightness. There are 4 levels of brightness.

- **Change Backlight Color/Mode:** Press **Fn + PgUp** to cycle through the 7 static backlight colors. Press **Fn + PgDn** to activate the 7-color cycle mode.
- **Turn Backlight On/Off:** Press **Fn + Scroll Lock** to toggle the backlight on or off.

**7 Color Options**

Lightbulb icon: 7-Color Cycle Backlight

Circular arrow icon: Switching Backlight

**Fn** + [Up Arrow] + [Down Arrow] icon: Turn Off/Adjust Light Brightness

## Multimedia and Shortcut Keys

The keyboard includes 12 multimedia keys (F1-F12) and 10 shortcut keys for quick access to frequently used applications and functions. These keys are activated by pressing the **Fn** key simultaneously with the desired function key.

Key Combination	Function
Fn + F1	Media Player
Fn + F2	Volume Down

Key Combination	Function
Fn + F3	Volume Up
Fn + F4	Mute
Fn + F5	Previous Track
Fn + F6	Next Track
Fn + F7	Play/Pause
Fn + F8	Stop
Fn + F9	Web Browser
Fn + F10	Email
Fn + F11	My Computer
Fn + F12	Calculator

## MAINTENANCE

---

Proper care will ensure the longevity and optimal performance of your keyboard.

- **Cleaning:** To clean the keyboard, disconnect it from your computer. Use a soft, damp cloth to wipe the surface. For stubborn dirt between keys, use compressed air or a soft brush. Avoid using harsh chemicals or abrasive materials.
- **Spill Resistance:** The keyboard features a spill-resistant design, meaning it can withstand minor liquid spills. However, it is not waterproof. In case of a spill, immediately disconnect the keyboard, wipe off the liquid, and allow it to dry completely before reconnecting.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.

## TROUBLESHOOTING

---

If you encounter any issues with your EDJO LPK368 keyboard, please refer to the following common solutions:

- **Keyboard Not Responding:**
  - Ensure the USB cable is securely connected to your computer's USB port.
  - Try connecting the keyboard to a different USB port on your computer.
  - Restart your computer to refresh the USB device detection.
- **Backlight Not Working or Dim:**
  - Press **Fn + ↑** (Up Arrow) to increase brightness.
  - Press **Fn + Scroll Lock** to ensure the backlight is not turned off.
  - Ensure the keyboard is receiving power from the USB port.
- **Specific Keys Not Working:**
  - Check for any debris or obstructions under the affected keycaps.
  - If the issue persists, contact customer support for further assistance.
- **Multimedia Keys Not Functioning (Mac OS):**

- Some multimedia keys may have limited or no functionality on Mac operating systems without specific software or system preferences adjustments. This is a known compatibility aspect and not a defect.

## SPECIFICATIONS

Feature	Detail
