SETUP AND ASSEMBLY

Assembly of the Fluest Queen Bed Frame typically takes approximately 1 hour for an adult. It is recommended to assemble the bed frame in the room where it will be used. Please follow the step-by-step instructions provided in the separate **Installation Manual** included in your package.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all parts and hardware using the provided list in the Installation Manual.
3. Begin by assembling the main bed frame structure, ensuring all bolts are tightened securely.
4. Attach the upholstered headboard to the main frame.
5. Install the wooden or metal slats onto the frame.
6. Insert the fabric storage drawers into their designated spaces under the bed.
7. Connect the LED light strip and charging station according to the electrical connection diagrams.

MAINTENANCE

- **Cleaning the Frame:** Wipe metal and wooden parts with a damp cloth. Avoid harsh chemicals.
- **Cleaning the Upholstery:** Spot clean the fabric headboard with a mild fabric cleaner as needed. Test on an inconspicuous area first.
- **Drawer Maintenance:** Periodically check drawer wheels for debris and clean if necessary to ensure smooth operation.
- **Electrical Components:** Ensure all power cords are free from damage and securely plugged in. Do not attempt to repair electrical components yourself.
- **Tightening Connections:** Periodically check and retighten all bolts and screws to maintain the bed frame's stability and prevent squeaks.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame squeaks	Loose bolts or connections.	Check and tighten all assembly bolts and screws. Ensure slats are properly seated.
LED lights not working	Power cable disconnected; remote battery dead; LED strip damaged.	Ensure power cable is securely plugged in. Replace remote battery. Check LED strip for visible damage.
Charging station not working	Bed frame not plugged in; device cable faulty; charging station unit malfunction.	Verify the bed frame's main power cord is plugged into a live outlet. Try a different charging cable.
Drawers are difficult to pull out/push in	Obstruction under the bed; wheels are dirty or damaged; drawer overloaded.	Clear any obstructions. Clean or inspect drawer wheels. Reduce drawer contents.
