9. TROUBLESHOOTING

If you encounter any issues with your smartwatch, please try the following common troubleshooting steps:

- **Watch Not Turning On:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on again.
- **Screen Unresponsive:** Try restarting the watch by holding down the side button. If unresponsive, allow the battery to fully drain and then recharge.
- **Incorrect Time/Date:** Access the 'Settings' menu and manually adjust the date and time.
- **Feature Not Working:** Check the watch's settings to ensure the feature is enabled. If the issue persists, a factory reset (if available in settings) might resolve it, but this will erase all data.
