VEVOR 18W x 23.23H x 23.23D Inch Vertical

VEVOR Outdoor Kitchen Drawers Instruction Manual

Model: 18W x 23.23H x 23.23D Inch Vertical

1. INTRODUCTION

Thank you for choosing the VEVOR Outdoor Kitchen Drawers. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new stainless steel modular drawer cabinet. Designed for outdoor kitchens and BBQ islands, this unit offers convenient storage and durability in various weather conditions.

2. SAFETY INFORMATION

- Always wear appropriate personal protective equipment (PPE) such as gloves and eye protection during installation.
- Ensure the installation area is stable and level to prevent tipping or instability.
- Keep children and pets away from the installation area.
- Do not overload the drawers. Each drawer has a maximum capacity of 44 lb (20 kg).
- Avoid placing flammable materials inside or near the drawers, especially if installed near heat sources.
- Regularly inspect the unit for any signs of damage or wear. Do not use if damaged.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly.

5. SETUP AND INSTALLATION

This modular drawer cabinet is designed for easy installation into your outdoor kitchen island. No drilling is required for the main unit installation, as it is designed to fit into a pre-existing cutout.

5.1 Preparing the Cutout

Ensure your outdoor kitchen island has a cutout with the following dimensions:

- **Width:** 17.1 inches (435 mm)
- **Depth:** 23.4 inches (595 mm)
- **Height:** 21.6 inches (550 mm)

Refresh Your Kitchen in Minutes

5.2 Installing the Drawer Unit

1. Carefully slide the drawer unit into the prepared cutout in your outdoor kitchen island.
2. Ensure the unit is flush with the surface of the island.

3. Secure the unit using the provided screws and washers through the pre-drilled holes in the frame.
4. Attach the zinc alloy handles to each drawer using the countersunk and round head screws.

6. OPERATION

The VEVOR Outdoor Kitchen Drawers are designed for smooth and quiet operation, providing convenient storage for your outdoor cooking essentials.

6.1 Opening and Closing Drawers

- Grasp the 5-inch zinc alloy handle firmly.
- Pull the drawer outwards to open. The 3-section ball-bearing slides ensure a smooth and quiet motion.
- Push the drawer inwards until it is fully closed and flush with the cabinet frame.

6.2 Storage Capacity

Each drawer can hold up to 44 lb (20 kg). Utilize the three drawers to organize various items such as:

- BBQ tools and utensils
- Seasoning bottles and spices
- Plates, cups, and other tableware
- Small kitchen appliances or accessories

Store All Your BBQ Essentials

Keep everything neatly within reach

Spatulas & Grilling tools

Seasoning Boxes

Kitchenware / Tableware

7. MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your VEVOR Outdoor Kitchen Drawers.

7.1 Cleaning

- The stainless steel surface is designed for easy cleaning. Wipe down regularly with a soft cloth and mild soap and water.
- For stubborn stains, use a stainless steel cleaner according to the product instructions.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can scratch or damage the finish.
- Dry the surface thoroughly after cleaning to prevent water spots.

Simple Wipe, Stay Spotless

With a simple wipe, your drawer stays spotless

7.2 Weather Resistance

The drawers are constructed from waterproof stainless steel to withstand various weather conditions, including wind and rain. While designed for outdoor use, regular cleaning and inspection are recommended to maintain optimal condition.

8. TROUBLESHOOTING

If you encounter any issues with your VEVOR Outdoor Kitchen Drawers, refer to the following common troubleshooting

steps:

8.1 Drawers Not Sliding Smoothly

- **Check for Obstructions:** Ensure there are no items blocking the drawer slides or caught within the mechanism.
- **Clean Slides:** Dust or debris can accumulate on the ball-bearing slides. Clean them with a damp cloth and dry thoroughly.
- **Lubricate Slides:** Apply a small amount of silicone-based lubricant to the ball-bearing slides if they remain stiff. Avoid oil-based lubricants that can attract dirt.
- **Verify Level Installation:** An uneven installation can cause drawers to bind. Check if the entire unit is level.

8.2 Drawers Not Closing Completely

- **Check for Overload:** Ensure the drawer is not overloaded beyond its 44 lb capacity. Remove some items and try again.
- **Internal Obstructions:** Check if items inside the drawer are preventing it from closing fully.
- **Slide Alignment:** Inspect the drawer slides for any misalignment or damage. If damaged, contact customer support.

8.3 Rust Spots on Stainless Steel

- **Clean Immediately:** While stainless steel is rust-resistant, it is not rust-proof. Rust spots can occur from exposure to harsh chemicals, salt, or prolonged moisture. Clean any spots immediately with a non-abrasive stainless steel cleaner.
- **Avoid Corrosive Materials:** Do not allow corrosive materials (e.g., certain cleaning agents, acids) to remain on the surface.

9. WARRANTY AND SUPPORT

For warranty information or technical support, please contact VEVOR customer service. Keep your purchase receipt and model number handy for faster service.

You can typically find support contact details on the VEVOR official website or through your retailer.
