

## YESIMOM M1

# YESIMOM M1 Universal Flexible Baby Monitor Mount

## Instruction Manual

### 1. INTRODUCTION

Thank you for choosing the YESIMOM M1 Universal Flexible Baby Monitor Mount. This product is designed to provide a secure and versatile mounting solution for your baby monitor, ensuring optimal viewing angles and peace of mind. This manual provides essential information for the proper installation, operation, and maintenance of your mount.

The YESIMOM M1 mount is specifically designed for YESIMOM Baby Monitors 8SM and 8TM. It is also compatible with various other baby cameras that feature a standard 1/4-inch threaded screw hole, including models from Boifun, ieGeek, Arenti, CZEview, Comfer, cococam, momcozy, and Dr. Care. Please verify your camera's compatibility before installation.

### 2. PRODUCT OVERVIEW

#### 2.1 Components

- Flexible Gooseneck Arm
- Adjustable Clamp
- 1/4-inch Screw Connector

#### 2.2 Key Features

- **Universal Compatibility:** Designed for YESIMOM 8SM/8TM and other baby monitors with a 1/4-inch screw hole.
- **Flexible Mounting:** The adjustable clamp can attach to surfaces between 0 to 5 cm thick, such as cribs, beds, shelves, furniture frames, railings, and poles.
- **Optimal Viewing Angle:** The flexible gooseneck arm allows for 360-degree rotation and easy bending to achieve any desired monitoring angle without blind spots.
- **Durable Construction:** Made from aluminum-magnesium alloy and covered with thick, non-toxic ABS silicone for enhanced stability and longevity.
- **Non-Slip Protection:** The clamp features foam padding to prevent damage and scratches to furniture

# Perché Scegliere Noi?

## NOSTRO

-  1. Base solida, resistente e durevole
-  2. Altezza regolabile, installazione flessibile
-  3. Collegamento a vite, fissaggio sicuro

 Facile da cadere e instabile

 Scenari di utilizzo limitati

### 3. SETUP AND INSTALLATION

The YESIMOM M1 mount is designed for quick and easy installation without the need for tools, drilling, or causing damage to your walls or furniture. Installation typically takes less than 3 minutes.

#### Installation Steps:

1. **Secure the Clamp:** Identify a suitable, stable surface such as a crib rail, shelf, or furniture edge. Open the adjustable clamp and firmly attach it to the chosen surface. Ensure the clamp is securely tightened to prevent movement.
2. **Attach the Baby Monitor:** Carefully screw your baby monitor onto the 1/4-inch threaded connector at the end of the flexible gooseneck arm. Turn clockwise until it is snug and stable.
3. **Adjust Viewing Angle:** Bend and position the flexible gooseneck arm to achieve the desired viewing angle of your baby. Ensure the arm is shaped into a stable configuration to maintain its position.

## 5-10s Installazione Rapida

1  
Sostenga la parte inferiormente  
sobre la cunao los muebles

2  
Installare la base del baby monitor  
sulla vite e serrarla saldamente

3  
Regolare la curvatura della staffa per  
ottenere l'angolo di visione ottimale

## 4. OPERATING INSTRUCTIONS

Once installed, the YESIMOM M1 mount offers simple operation to ensure continuous monitoring of your child.

- **Adjusting the View:** Gently bend the flexible gooseneck arm to reposition your baby monitor. The arm can be rotated 360 degrees and bent in any direction to achieve the perfect line of sight.
- **Securing the Position:** After adjusting, ensure the gooseneck arm is bent into a stable shape that will hold the monitor firmly in place. Avoid over-extending the arm in a straight line, as this may reduce stability.
- **Re-positioning the Clamp:** If you need to move the mount to a different location, simply loosen the clamp, remove it, and re-attach it to the new desired surface following the installation steps.

Ottieni la Vista Perfetta,  
Giorno e Notte

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your YESIMOM M1 mount, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the mount with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the silicone coating or metal components.
- **Regular Inspection:** Periodically check the clamp and the 1/4-inch screw connection for tightness. Ensure the flexible arm is free from any visible damage or excessive wear.
- **Storage:** If storing the mount for an extended period, ensure it is clean and dry. Store it in a cool, dry place away from direct sunlight.

## 6. TROUBLESHOOTING

If you encounter any issues with your YESIMOM M1 mount, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Mount is unstable or slips.	Clamp not tightened sufficiently; surface too thin or slippery; arm over-extended.	Ensure the clamp is fully tightened. Add extra padding (e.g., a cloth) if the surface is too thin. Re-position the arm into a more stable, curved shape.
Baby monitor does not attach.	Monitor lacks a 1/4-inch screw hole; screw not aligned.	Verify your baby monitor has a standard 1/4-inch threaded screw hole. Ensure the monitor is aligned correctly before screwing it onto the mount.
Flexible arm does not hold position.	Arm is too straight; monitor is too heavy for the arm's current shape.	Bend the arm into a more curved or coiled shape to increase its rigidity and ability to hold the monitor's weight.

## 7. SPECIFICATIONS

- **Brand:** YESIMOM
- **Model Name:** M1
- **Recommended Uses:** Crib, Bed, Desk, Furniture
- **Indoor/Outdoor Use:** Indoor
- **Compatible Devices:** Baby monitors with 1/4-inch screw hole
- **Mount Type:** Adjustable Clamp Mount
- **Color:** White
- **Material:** Aluminum-Magnesium Alloy, ABS Silicone
