## 5. SETUP AND INSTALLATION

---

### 5.1 Wall Mounting

The YOURLITE medicine cabinet is designed for wall-mounted installation. Ensure you have appropriate tools and that the wall can support the weight of the cabinet and its contents.

- 1. Prepare the Wall:** Choose a suitable location on your bathroom wall. Use a level to mark the desired height and width for the cabinet. Ensure there are no electrical wires or pipes behind the drilling points.
- 2. Drill Pilot Holes:** Based on the mounting points on the cabinet, drill pilot holes into the wall. Insert wall anchors if necessary (e.g., for drywall).
- 3. Mount the Cabinet:** Secure the cabinet to the wall using the provided screws. Ensure it is level and firmly attached.
- 4. Connect Power:** Connect the cabinet's power cord to a suitable electrical outlet.

## 6. OPERATING INSTRUCTIONS

---

### 6.1 LED Lighting Control

The mirror features integrated LED lighting with three color modes and adjustable brightness.

- **Change Light Color:** Short press the touch sensor button on the mirror to cycle through White, Natural, and Warm Yellow light modes.
- **Adjust Brightness:** Long press the touch sensor button to smoothly adjust the brightness level. Release when the desired brightness is reached.
- **Memory Function:** The mirror remembers your last light color and brightness settings, so you don't need to reset them each time.
