

POPCHOSE steamer cleaner

POPCHOSE Steam Cleaner with Detergent Dispenser

MODEL: STEAMER CLEANER

Brand: POPCHOSE

1. IMPORTANT SAFETY INSTRUCTIONS

Please read this entire manual carefully before operating your POPCHOSE Steam Cleaner. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always unplug the appliance from the electrical outlet when not in use and before servicing.
- Do not leave the appliance unattended when plugged in.
- Do not use the appliance if the cord or plug is damaged.
- Keep the steam cleaner away from children and pets.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not direct steam at people, animals, or electrical appliances. Steam is hot and can cause burns.
- Do not immerse the appliance in water or other liquids.
- Always ensure the water tank is securely closed before operation.
- Use only tap water or distilled water. Do not add corrosive chemicals or aromatic oils directly into the water tank.

3.2 Filling the Water Tank

1. Ensure the steam cleaner is unplugged.
2. Press the release buttons on each side of the water tank simultaneously to detach it from the main unit.
3. Open the water tank cap.
4. Fill the tank with up to 500ml of tap water or distilled water using the provided measuring cup. Do not overfill.
5. Close the water tank cap securely and reattach the tank to the main unit until it clicks into place.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Heat-Up

1. Plug the power cord into a grounded electrical outlet.
2. Press the power button. The indicator light will illuminate.
3. The unit will heat up in approximately 15 seconds, indicated by a change in the indicator light or a ready signal.

Video: Shows the 15-second heat-up process and initial steam output of the handheld steam cleaner.

4.2 Selecting Steam Mode

The steam cleaner offers two power levels:

- **Low Mode:** Ideal for delicate surfaces like upholstery (e.g., couch steam cleaning) or light stains.
- **High Mode:** Suitable for heavy-duty cleaning tasks such as shower grout, hard water buildup, and stubborn dirt.

Press the steam mode selection button to toggle between low and high steam output.

4.3 Using the Detergent Spray

If detergent has been added, press the Detergent Spray Button to mix steam with the cleaning solution for enhanced cleaning power, particularly effective on grease and stubborn residue.

4.4 Self-Clean Mode

After cleaning, activate Self-Clean Mode to flush any remaining residue from the internal pipes. This process takes approximately 1-2 minutes and helps maintain the appliance's performance and longevity.

5. USING ATTACHMENTS

The POPCHOSE Steam Cleaner comes with a variety of attachments to tackle different cleaning challenges:

- **Accessory Nozzle:** For general steam application.
- **Scouring Pad Brushes (2):** For scrubbing tough grime on surfaces like stoves and kitchen sinks.
- **Steel Brush (1):** For extremely stubborn, baked-on residue on durable surfaces.
- **Plastic Brushes (2):** For general scrubbing on various surfaces without scratching.
- **Grout Brush (1):** Specifically designed to clean narrow grout lines.
- **Squeegee (1):** For streak-free cleaning of windows, mirrors, and other smooth surfaces.
- **Flat Scraping Tool (1):** For removing stuck-on debris.
- **Extension Hose and Nozzle (1):** Provides extended reach for hard-to-access areas.
- **Cleaning Clothes (2):** For wiping surfaces after steaming or for use with the squeegee.

6. MAINTENANCE AND CARE

6.1 After Each Use

- Unplug the steam cleaner and allow it to cool completely.
- Empty any remaining water from the tank.
- If detergent was used, run the Self-Clean Mode to clear the internal system.
- Clean any used attachments with water and mild soap, then allow them to air dry.
- Wipe the exterior of the main unit with a damp cloth.

6.2 Storage

Store the steam cleaner and its accessories in a cool, dry place, out of reach of children.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No steam or low steam output	Water tank empty; Unit not heated sufficiently; Nozzle clogged.	Refill water tank; Allow 15 seconds for heat-up; Clean nozzle.
Detergent not dispensing	Detergent tank empty; Detergent spray button not pressed.	Refill detergent tank; Press the detergent spray button during operation.
Unit automatically shuts off	Water tank empty (overheat protection).	Refill water tank.
