

Casfuy PWL-003

Casfuy PWL-003 Pet Water Fountain Replacement Filters & Pre-Filter Sponges User Manual

INTRODUCTION

This manual provides instructions for the proper use and maintenance of Casfuy PWL-003 replacement filters and pre-filter sponges for your pet water fountain. Adhering to these guidelines will ensure optimal performance and longevity of the filtration system, providing clean and fresh water for your pet.

PRODUCT OVERVIEW

The Casfuy PWL-003 replacement filter set includes multi-layer filters and pre-filter sponges designed to work with the Casfuy PWL-003 pet water fountain. These components are crucial for maintaining water quality.

- **Multi-layer Filter:** Contains ion exchange resin, activated carbon, and non-woven fabric to remove impurities, soften water, and improve taste.
- **Pre-filter Sponge:** Captures larger particles like hair and debris, protecting the pump and extending the life of the main filter.

FRESH, CIRCULATING WATER INCREASES YOUR PET'S DRIVE FOR HYDRATION

SETUP AND INSTALLATION

Follow these steps to install the replacement filters and sponges into your Casfuy PWL-003 pet water fountain:

1. **Disassemble the Fountain:** Unplug the fountain and disassemble the top tray and filter housing according to your fountain's specific instructions.
2. **Remove Old Components:** Discard the used multi-layer filter and pre-filter sponge.
3. **Rinse New Filter:** Rinse the new multi-layer filter thoroughly under running water for several minutes to remove any loose carbon dust.
4. **Install Pre-filter Sponge:** Place the new pre-filter sponge into its designated slot, typically around the pump.
5. **Install Multi-layer Filter:** Insert the rinsed multi-layer filter into the filter tray. Ensure it sits securely in the fixed position design.
6. **Reassemble and Fill:** Reassemble the fountain components and fill the reservoir with fresh water.
7. **Power On:** Plug in the fountain.

Fixed Position Design

OPERATING GUIDELINES

Once installed, the filters and sponges work continuously to purify the water. Ensure the water level in the fountain is always sufficient for proper operation of the pump and filtration system. Regular use of the fountain with these filters encourages pets to drink more water, promoting better hydration.

HYDRATION WITH PLEASED

Battery-Operated, flexible to set up wherever they like

MAINTENANCE

Consistent maintenance is essential for the health of your pet and the efficiency of the fountain. The replacement frequency depends on your pet's usage and water quality.

- **Filter Replacement:** It is recommended to replace the multi-layer filter every 2 to 4 weeks.
- **Sponge Replacement:** The pre-filter sponge should also be replaced every 2 to 4 weeks, or more frequently if it appears heavily soiled.
- **Fountain Cleaning:** Clean the entire fountain, including the pump, at least once a week to prevent mineral buildup and bacterial growth.

Replace Filters

For your pet's health, we recommend replacing the filter every 2-4 weeks based on usage
