Harpaq BS07

Harpaq Fluted Dresser (Model BS07) Instruction Manual

Model: BS07 | Brand: Harpaq

INTRODUCTION

Thank you for choosing the Harpaq Fluted Dresser. This modern 6-drawer dresser, featuring a curved profile design and solid wood handles, is crafted from FSC-certified engineered wood. This manual provides essential information for safe assembly, proper use, and maintenance to ensure the longevity of your furniture. Please read these instructions carefully before beginning assembly or use.

SAFETY INFORMATION

Your safety is paramount. This dresser is designed to meet ASTM F2057-2023 safety standards, featuring a wide 47.2-inch thickened base, 1.8-inch thickened panels, and a reinforced structure to help reduce tip-over risks.

Adhere to the following guidelines:

- **Tip-Over Prevention:** Always use the included anti-tip kit to secure the dresser to a wall. This is crucial, especially in homes with children or pets.
- **Weight Capacity:** Each drawer supports up to 30 lbs. Do not exceed this limit to prevent damage or instability. The top surface has a maximum load capacity of 130 lbs.
- **Even Weight Distribution:** Distribute weight evenly across drawers and the top surface to maintain stability.
- **Supervision:** Never allow children to climb on or play with the dresser. Keep heavy items in lower drawers.
- **Placement:** Place the dresser on a level, stable surface. Avoid placing it near heat sources or in direct sunlight to prevent material degradation.

SETUP AND ASSEMBLY

Assembly is required for this dresser. Clear, step-by-step instructions are provided with the product to ensure a smooth setup. We recommend the following:

- **Preparation:** Unpack all components and verify against the parts list. Assemble the dresser on a soft, clean surface (e.g., a carpet or blanket) to prevent scratches.

- **Tools:** Gather necessary tools, typically a screwdriver. An electric drill with appropriate bits may expedite the process, but use with caution to avoid overtightening.
- **Teamwork:** Assembly may be easier with two people.
- **Secure Fasteners:** Ensure all screws and fasteners are tightened securely, but do not overtighten. Periodically check and retighten fasteners as needed.

Product Dimensions

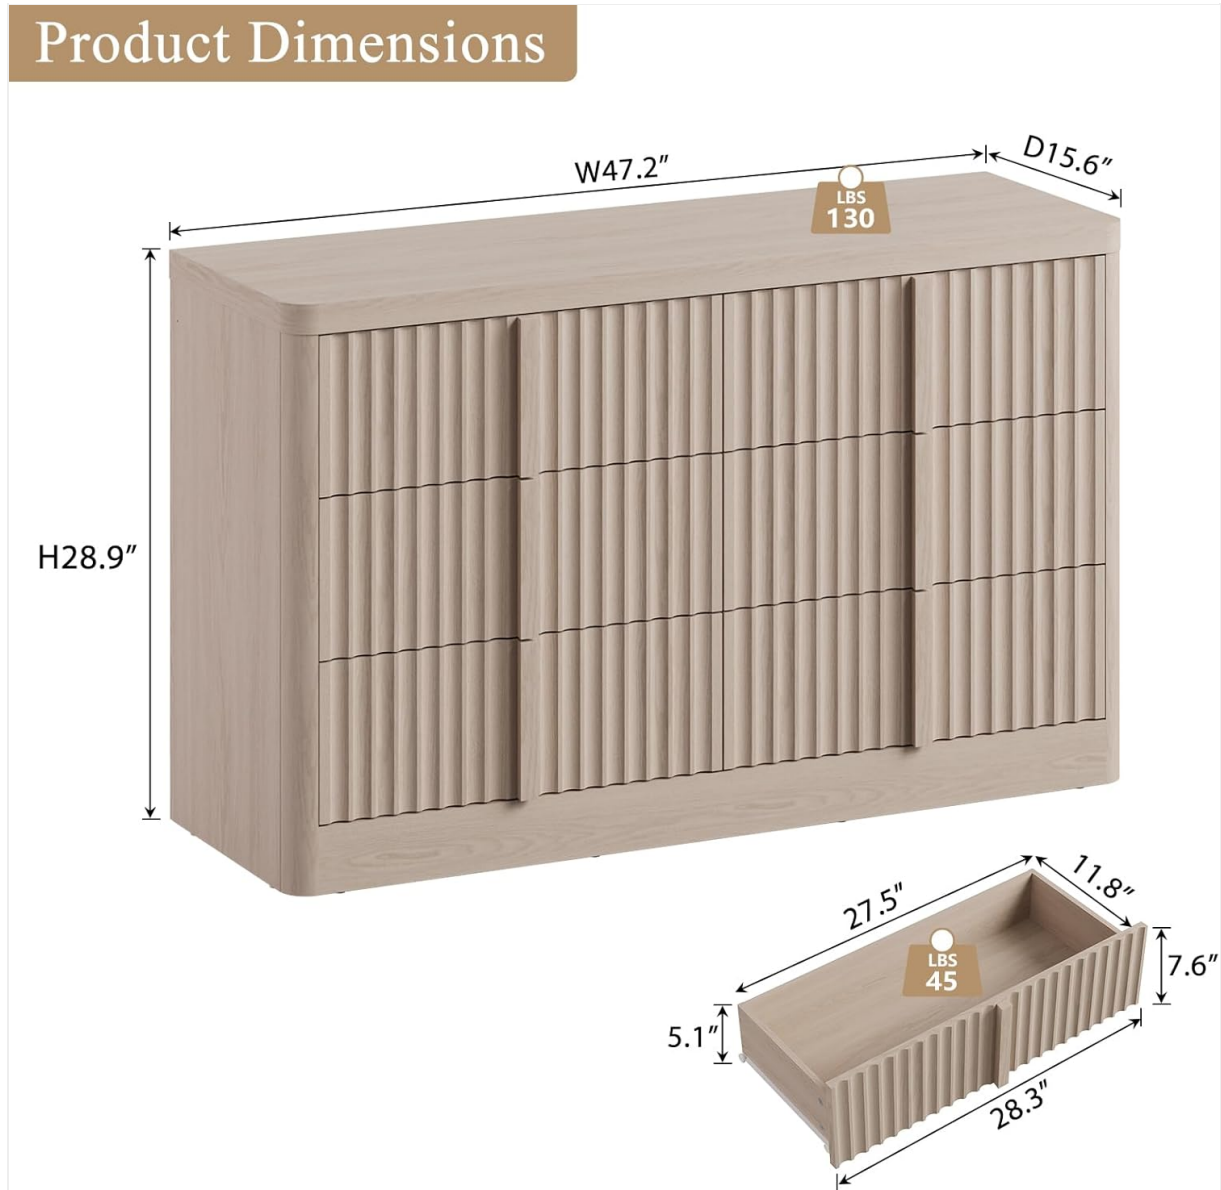

Figure 1: Product Dimensions and Drawer Capacity. The dresser measures 47.2"W x 15.6"D x 28.9"H. Each drawer can hold up to 30 lbs, and the top surface up to 130 lbs.

OPERATING AND USAGE

The Harpaq Fluted Dresser is designed for organized storage in various rooms. Its six drawers provide ample space for clothing and other items.

- **Drawer Functionality:** The drawers feature smooth-glide rails for quiet and effortless opening and closing. To open, gently pull the solid wood handle. To close, push firmly until the drawer is fully seated.
- **Storage:** Each drawer is designed to hold items such as jeans, sweaters, or bedding, with a maximum weight of 30 lbs per drawer.
- **Top Surface:** The 1.8-inch thickened tabletop provides a spacious and stable surface for decorative items, lamps, or other personal belongings, with a maximum load capacity of 130 lbs.

MAINTENANCE

Proper care will help maintain the appearance and functionality of your dresser.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.

- **Spills:** Clean spills immediately with a dry cloth to prevent staining or water damage.
- **Environmental Factors:** Protect the dresser from extreme temperature changes and direct sunlight, which can cause fading or warping of the engineered wood.
- **Color Variation:** Due to material batches, manufacturing processes, and environmental factors, slight variations in product color may occur. These are normal and do not impact quality.

TROUBLESHOOTING

If you encounter any issues with your Harpaq Fluted Dresser, refer to the following common solutions:

- **Drawers Not Sliding Smoothly:** Check that the drawer slides are properly aligned and free of obstructions. Ensure all screws securing the slides are tight. Avoid overloading drawers.
- **Dresser Instability:** Verify that the dresser is placed on a level surface. Re-check all assembly fasteners to ensure they are securely tightened. Confirm the anti-tip kit is correctly installed and engaged with the wall.
- **Missing Parts:** If any parts are missing or damaged upon arrival, please contact customer support immediately.

SPECIFICATIONS

Feature	Detail
Brand	Harpaq
Model Name	04N
Item Model Number	BS07
