WAVEL PocketQuiet X10 Pro

WAVEL Adjustable Noise Cancelling Ear Plugs PocketQuiet X10 Pro

User Manual

INTRODUCTION

The WAVEL Adjustable Noise Cancelling Ear Plugs are designed to provide a quiet environment by reducing unwanted noise. Featuring three precise adjustable noise cancellation levels, these ear plugs are suitable for various scenarios, from light noise to high-frequency sounds, helping to protect your hearing and improve concentration.

Figure 2: Contents of the WAVEL ear plugs package.

- Earplug Storage Case (x1)
- Noise-Cancelling Earplugs (x2)
- Silicone Ear Caps (x14, 7 pairs)
- Packaging Box (x1)
- User Manual (x1)

SETUP

1. Selecting Ear Tips

The WAVEL ear plugs come with 7 pairs of silicone ear tips in various sizes to ensure optimal comfort and noise reduction for different ear canal shapes and noise requirements. Choose the tip that provides the best seal and comfort for your ears.

SELECT THE RIGHT EAR TIPS FOR YOU

Comes with 7 pairs of earplugs of different sizes for you to choose from

XS S M L

4 Pairs Single-Layer Tips:
For users with shallow ear canals or want light-weight experience

S M L

3 Pairs Double-Layer Tips:
For users with deep ear canals or high noise-requirements

Figure 3: Available ear tip sizes and types.

- **Single-layer tips (XS/S/M/L):** Suitable for users with shallow ear canals or those preferring a lighter experience.
- **Double-layer tips (S/M/L):** Recommended for users with deeper ear canals or higher noise reduction requirements.

2. Adjusting Noise Cancellation Modes

The ear plugs feature an adjustable mechanism to select one of three noise cancellation levels. Gently twist the earplug to cycle through the modes:

3 LEVEL NOISE REDUCTION

3 levels of precise adjustable noise cancellation suits for different occasions

17dB 
LEISURE MODE

Suitable for light noise scenarios such as daily conversations and cafes

21dB 

ENTERTAINMENT MODE

Deals with medium and high frequency noise in concert, parties

35dB 
FOCUS MODE

Ideal for office work, study, and long-distance travel

Figure 4: Three adjustable noise cancellation modes.

- **Leisure Mode (17dB):** Ideal for light noise scenarios such as daily conversations and cafes, balancing quietness with environmental awareness.
- **Entertainment Mode (21dB):** Designed for medium to high-frequency noise in concerts or parties, protecting hearing while allowing enjoyment of the atmosphere.
- **Focus Mode (35dB):** Provides deep noise isolation, perfect for office work, studying, or long-distance travel to enhance concentration.

OPERATING INSTRUCTIONS

Wearing the Ear Plugs

To ensure effective noise cancellation and comfort, proper insertion of the ear plugs is crucial:

1. Select the appropriate silicone ear tip size for your ear canal.

2. Gently insert the earplug into your ear canal.
3. Adjust the earplug until it feels secure and comfortable, forming a good seal to block external noise.

Recommended Usage Scenarios

WAVEL ear plugs are versatile and can be used in various situations:

Figure 6: Ear plugs in various usage scenarios.

- **Sleeping:** Block out snoring or environmental noise for undisturbed rest.
- **Travel:** Reduce engine noise and chatter on planes, trains, or buses.
- **Work/Study:** Minimize distractions in noisy offices, libraries, or cafes.
- **Concerts/Events:** Protect hearing from loud music while retaining sound clarity.
- **Industrial Settings:** Provide hearing protection in environments with moderate noise levels.

MAINTENANCE

Cleaning and Care

To maintain hygiene and performance, regularly clean your WAVEL ear plugs:

WHY CHOOSE WAVEL EAR PLUGS

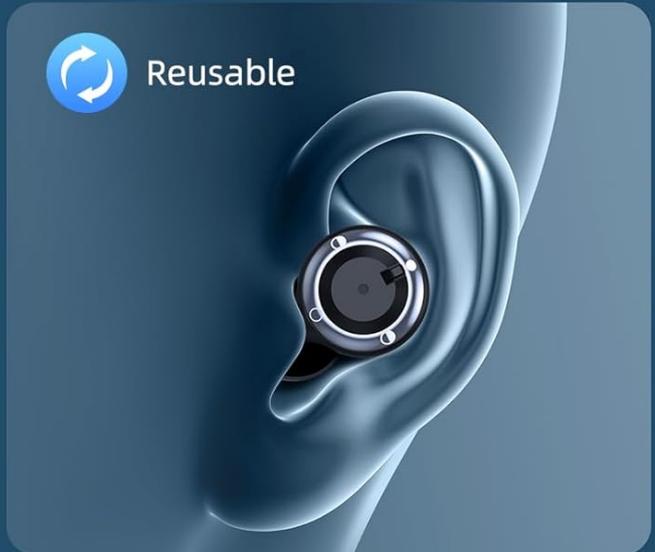

Get rid of noise interference, Immerse Yourself In a Quiet World

Washable

Reusable

Eco-friendly
Silicone

Lightweight

Figure 7: Key features including washable design.

- The earplugs and silicone tips are made from durable, waterproof ABS plastic and food-grade soft silicone.
- After daily use, rinse the earplugs and tips with water.
- Allow them to air-dry completely before storing or reusing.
- Proper cleaning ensures hygiene and preserves noise-reduction performance.

TROUBLESHOOTING

If you encounter issues with your WAVEL ear plugs, consider the following:

- **Earplugs do not stay in / Discomfort:** Ensure you have selected the correct ear tip size. Experiment with different single-layer and double-layer tips to find the best fit for your ear canal. Improper fit can lead to discomfort or the earplugs falling out.
- **Insufficient Noise Cancellation:** Verify that the earplugs are inserted correctly and form a tight seal. Check if the noise cancellation mode is set to the desired level (e.g., Focus Mode for maximum reduction). If using single-layer

tips, try double-layer tips for enhanced noise blocking.

- **Sound is completely blocked / Muffled:** If you need to hear some environmental sounds, ensure the earplugs are not set to Focus Mode (35dB). Adjust to Leisure Mode (17dB) or Entertainment Mode (21dB) for a balance between noise reduction and sound perception.

SPECIFICATIONS

Feature	Detail
Brand Name	WAVEL
Model	PocketQuiet X10 Pro
Noise Attenuation	17dB - 35dB (Adjustable)
Number of Items	1 (Pair of earplugs)
Number of Pieces	14 (Earplugs + 7 pairs of tips)
