LAMTTO carplay wireless adapter

LAMTTO 2-in-1 Wireless CarPlay and Android Auto Adapter

Model: Wireless CarPlay and Android Auto Adapter

Brand: LAMTTO

1. INTRODUCTION

The LAMTTO 2-in-1 Wireless CarPlay and Android Auto Adapter converts your vehicle's wired CarPlay or Android Auto system into a wireless solution. This device allows for convenient access to navigation, music, phone calls, and voice assistants like Siri or Google Assistant without the need for a physical cable connection to your smartphone.

Package Contents:

- 1 x 2-in-1 Wireless CarPlay and Android Auto Adapter
- 1 x USB-A to USB-C Adapter
- 1 x User Manual

2. SAFETY INFORMATION

Important Safety Instructions:

- When operating this wireless adapter, interference with other nearby wireless devices may occur.
- Ensure compliance with battery handling instructions (if applicable to connected devices).
- Do not expose the device to extreme temperatures or humidity.

3. PRODUCT OVERVIEW

The LAMTTO 2-in-1 adapter features a high-performance 5.8 GHz chip for faster processing and a stable connection. Its compact design allows for discreet installation, maintaining a tidy vehicle interior. The device supports both USB-A and USB-C ports for flexible connectivity.

4. SETUP GUIDE

The adapter offers a simple Plug & Play setup process. No applications or drivers are required.

1. **Connect the Adapter:** Plug the adapter into your car's USB data port (either USB-A or USB-C, using the provided adapter if necessary).
2. **Activate Bluetooth and Wi-Fi:** On your smartphone, enable both Wi-Fi and Bluetooth.
3. **Pair with Bluetooth:** Open your smartphone's Bluetooth interface, search for the adapter's Bluetooth name, and select "Connect."
4. **Automatic Reconnection:** After the initial connection, the device will automatically connect to your vehicle each time you start the car.

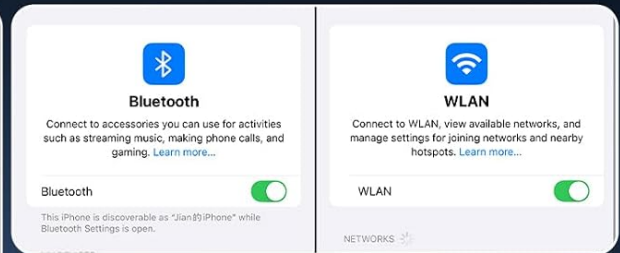

Note: The connection method for both CarPlay and Android Auto is identical.

Easy Setup - Plug and Play

1. Plug in

2. Pair Bluetooth and keep Wi-Fi enabled

3. Use Android Auto or CarPlay

5. OPERATING INSTRUCTIONS

Once connected, the adapter enables wireless access to your smartphone's features through your car's infotainment system. You can control functions using the car's original controls.

- **Voice Control:** Utilize Siri or Google Assistant for hands-free operation.
- **Navigation:** Access map applications like Waze or Apple Maps.
- **Music Playback:** Stream music from apps like Spotify.
- **Phone Calls:** Make and receive calls directly through the car's system.
- **Vehicle Controls:** The adapter integrates seamlessly with your car's steering wheel buttons, touchscreen, and factory knobs.

6. FIRMWARE UPDATE (OTA)

The adapter supports Over-The-Air (OTA) firmware updates to ensure optimal performance and compatibility. To update the firmware:

1. Connect your smartphone to the adapter's Wi-Fi network.
2. Open a mobile browser on your smartphone.
3. Enter the address 192.168.1.101 in the browser's address bar.
4. Follow the on-screen instructions to check for and install any available updates.

OTA Online Upgrade

After connecting to the Wi-Fi card, enter 192.168.1.101
in your mobile browser to update the software.

8. TROUBLESHOOTING

If the device experiences abnormal operation:

- Perform a restart by unplugging the adapter and then reinserting it into the car's USB port.
- Ensure your smartphone's Wi-Fi and Bluetooth are active and properly paired.
- Check for any available firmware updates as described in Section 6.
