VGR V-886C

VGR Professional Hair Clipper V-886C User Manual

Brand: VGR | Model: V-886C

Introduction

The VGR Professional Hair Clipper V-886C is designed to provide a smooth and precise trimming experience. Featuring a powerful 9000 RPM motor, a long-lasting 3200mAh lithium-ion battery, and durable ceramic and DLC coated blades, this clipper is suitable for various hair cutting and styling needs. This manual provides essential information for safe operation, setup, maintenance, and troubleshooting to ensure optimal performance and longevity of your device.

Safety Information

Please read all safety instructions carefully before using the appliance.

- Always check the trimmer before use to ensure it is in proper working condition.
- Keep out of reach of children under 8 years of age.
- Always supervise use and avoid contact with water or other liquids.
- Do not immerse the appliance in water.
- Do not use if the appliance or charging cable is damaged.
- Only use the provided charging cable and adapter.

Package Contents

Your VGR Professional Hair Clipper V-886C package includes the following items:

- 1 × Professional Hair Trimmer
- 6 × Magnetic Guide Combs (1.5/3/4.5/6/9/12 mm)
- 1 × USB Type-C Charging Cable
- 1 × Cleaning Brush
- 1 × Lubricating Oil Bottle

- 1 × User Manual

Product Overview

The VGR V-886C is engineered for precision and durability, featuring advanced motor technology and high-quality blades.

The VGR V-886C features an innovative Vector Motor, designed for heavy use and longer lifespan, providing consistent power for smooth cuts. It also incorporates noise reduction technology for a quieter operation.

Equipped with Diamond-Like Carbon (DLC) coated ceramic blades, the clipper offers superior sharpness and corrosion resistance. These blades are designed to stay sharp up to 5 times longer than regular steel blades.

The ceramic and DLC coated blades ensure cool-running operation, preventing heat buildup and reducing the risk of skin irritation or burns during extended use.

Setup

1. **Initial Charge:** Before first use, fully charge the clipper. Connect the USB Type-C charging cable to the clipper and a compatible 5V-1A adapter or power source. The LED display will indicate charging status. A full charge takes approximately 3.96 hours and provides up to 200 minutes of cordless runtime.
2. **Attaching Guide Combs:** Select the desired magnetic guide comb (1.5mm, 3mm, 4.5mm, 6mm, 9mm, or 12mm) for your preferred hair length. Align the comb with the clipper blades and gently push until it clicks securely into place.
3. **Blade Adjustment:** The clipper features a lever for fine-tuning the cutting length of the blades without a comb. Adjust the lever to achieve lengths between 0.8mm and 2.0mm.

The clipper features a 3200mAh Lithium Battery, offering up to 3.5 hours of cordless runtime. It supports Type-C fast charging and includes an LED display for battery status and oil reminders.

Achieve precise cutting lengths with the adjustable blade lever, offering settings from 0.8mm to 2.0mm for fades and blends.

Operating Instructions

1. **Power On/Off:** Slide the power switch to turn the trimmer on or off.
2. **Select Speed Mode:** The clipper offers standard speed modes (7000 RPM, 8000 RPM) and a Turbo Boost mode (9000 RPM). Press the speed button to cycle through the available speeds.
3. **Trimming:** Move the clipper slowly and evenly against the direction of hair growth. Adjust the speed as needed for different hair types and densities.
4. **Changing Guide Combs:** Always turn off the trimmer before attaching or removing guide combs.
5. **Detailing:** For precise detailing or shaping, remove the guide comb and use the adjustable blade lever to achieve the desired close cut.

The clipper provides sharp control with standard speed modes (7000/8000 RPM) and a Turbo Boost mode at 9000 RPM, ensuring no snags or pulling during use.

The VGR V-886C is versatile for various grooming tasks, including beard trimming and hair cutting, providing a professional finish.

Maintenance

1. **Cleaning After Each Use:** After each use, turn off the clipper and remove any attached guide combs. Use the provided cleaning brush to remove loose hairs from the blades and the clipper body.
2. **Oiling Blades:** Apply a few drops of the lubricating oil (provided) to the blades after every few uses or when the oil reminder appears on the LED display. Turn the clipper on for a few seconds to distribute the oil evenly. This helps maintain blade sharpness and smooth operation.
3. **Storage:** Store the clipper in a dry place, away from direct sunlight and moisture. Ensure it is turned off and fully charged before storing for extended periods.

Troubleshooting

- **Clipper not turning on:** Ensure the clipper is fully charged. Check the power switch is in the 'ON' position.

- **Poor cutting performance:** Clean the blades thoroughly to remove any hair buildup. Apply lubricating oil to the blades. Ensure the guide comb is correctly attached. The blades may need replacement if they are dull (contact customer support).
- **Battery not charging:** Verify the USB Type-C cable and adapter are working correctly. Ensure the cable is securely connected to both the clipper and the power source.
- **Excessive noise or vibration:** Clean and oil the blades. If the issue persists, contact customer support.

Specifications

Feature	Detail
Model Number	V-886C Professional
Power Source	Battery Powered
Battery Type	Lithium Ion (1 required, included)
Battery Capacity	3200mAh (as per product title, description mentions 2000mAh, using 3200mAh from title for consistency)
Run Time	Up to 200 minutes (as per product title, description mentions 150 minutes, using 200 minutes from title for consistency)
Charge Time	3.96 hours
Motor Speed	Up to 9000 RPM (Turbo Mode)
Blade Material	Ceramic and Stainless Steel (DLC Coated)
Guide Combs	6 Magnetic Guide Combs (1.5/3/4.5/6/9/12 mm)
Adjustable Cutting Length	0.8mm - 2.0mm (without comb)
Charging Type	USB Type-C
Product Dimensions	16 x 6 x 4.7 cm
Item Weight	296 grams
Special Features	USB Charging, Fast Charging, Rechargeable, BLDC Outer Rotor Motor
