INNOD SZSJ-01

INNOD SZSJ-01 Triple 4-Tier Book Shelf Instruction Manual

Model: SZSJ-01 | Brand: INNOD

1. Introduction

Thank you for choosing the INNOD SZSJ-01 Triple 4-Tier Book Shelf. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read these instructions carefully before beginning assembly and retain them for future reference.

Safety Information

- Always assemble according to the included instructions.
- Do not exceed the weight limit of 40 pounds per shelf.
- Ensure all screws are tightened securely before use.
- Utilize the anti-tipping kit to secure the bookshelf to the wall, preventing accidental tipping and potential injury.
- Keep small parts away from children during assembly.

2. Package Contents

Before assembly, verify that all components are present and undamaged. Each component is labeled with a number for easy identification. Refer to the detailed parts list in the separate printed instruction manual included in your package for a complete overview.
The package includes:

- Wooden panels (shelves)
- Metal frame components
- X-shaped brackets
- Adjustable foot pads

- Anti-tipping kit
- All necessary screws and installation tools (e.g., Allen wrench)
- Printed instruction manual

3. Setup and Assembly Instructions

Follow these steps to assemble your INNOD SZSJ-01 Triple 4-Tier Book Shelf. It is recommended to have two people for certain steps to ensure stability and ease of assembly.

Step-by-Step Assembly

1. **Prepare Components:** Unpack all parts and lay them out on a clean, soft surface to prevent scratches. Identify each part using the labels.
2. **Assemble the Center Shelves:** Begin by attaching the smaller wooden panels to form the zigzag pattern for the center section. Use the provided screws (D x8) to secure these panels together.
3. **Attach Horizontal Metal Bars:** Secure the horizontal metal bars to the assembled center wooden panels using screws (D x5). Ensure they are aligned correctly.
4. **Assemble Side Frames:** Connect the metal frame components for the left and right sections. Use screws (B x4) to join the frame pieces.
5. **Integrate Side Shelves:** Attach the wooden shelves to the side metal frames. For the middle section, attach the top and bottom wooden shelves to the metal frame using screws (D x3).
6. **Connect Sections:** Carefully align and attach the side shelf units to the center unit using the appropriate screws (D x2 for top/bottom connections, C x2 for side connections).
7. **Install X-shaped Brackets:** Attach the X-shaped crossbars to the back of the side sections using screws (C x6, D x4). These provide additional stability.
8. **Install Adjustable Foot Pads:** Screw the adjustable foot pads into the bottom of each metal leg. Adjust them as needed to ensure the bookshelf is level on uneven floors.
9. **Secure with Anti-Tipping Kit:** For safety, attach the anti-tipping kit to the top rear of the bookshelf and secure it to a wall stud. This is a crucial step to prevent accidental tipping.

4. Operating Instructions

The INNOD SZSJ-01 Book Shelf is designed for displaying books, decorative items, plants, and other personal belongings. Its versatile design allows it to function as a display shelf, office shelf, or general storage unit.

Usage Guidelines

- Distribute weight evenly across the shelves to maintain stability.
- Do not place excessively heavy items on the top shelves.
- Ensure the anti-tipping kit is properly installed, especially in households with children or pets.
- Avoid climbing or standing on the bookshelf.

Weight Capacity

Each individual shelf has a maximum weight capacity of 40 pounds (approximately 18 kg). Exceeding this limit may compromise the structural integrity of the unit and pose a safety risk.

5. Maintenance

Regular maintenance will help preserve the appearance and longevity of your book shelf.

Cleaning

- Wipe the wooden panels and metal frame with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the finish.
- Dry immediately with a clean, dry cloth to prevent water spots.

General Care

- Periodically check all screws and connections to ensure they remain tight. Tighten if necessary.
- Keep the bookshelf away from direct sunlight and extreme temperature changes to prevent warping or fading of the wood.
- If moving the bookshelf, lift it rather than dragging to prevent damage to the legs and floor.

6. Troubleshooting

Stability Issues

- **Wobbling:** Ensure all screws are fully tightened. Adjust the foot pads on the bottom of the legs to level the unit on uneven surfaces.
- **Tipping Hazard:** Confirm the anti-tipping kit is securely installed to the wall. If not, install it immediately.

Missing or Damaged Parts

- If you find any parts missing or damaged upon opening the package, please contact customer service immediately for assistance.

7. Specifications

Feature	Detail
