Touri TR5094

Touri Upgraded RV Sewer Hose Storage Tube Instruction Manual

Model: TR5094

Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Touri Upgraded RV Sewer Hose Storage Tube. Designed for RVs, trailers, trucks, and vans, this adjustable storage solution helps keep your sewer hoses organized and protected during travel.

Package Contents

Verify that all components are present before beginning installation.

- 1 x RV Adjustable EZ Hose Carrier
- Mounting Screws (quantity 10)
- Mounting Tabs (quantity 3)

Setup and Installation

The Touri RV Sewer Hose Storage Tube is designed for easy installation. Mounting hardware is included to facilitate a hassle-free setup on your RV, trailer, truck, or van.

Installation Steps:

1. **Select Mounting Location:** Choose a suitable location on your vehicle's frame or bumper. Ensure the area is clear of obstructions and provides adequate clearance for the tube's length and diameter. The tube can be mounted to accommodate various vehicle types.
2. **Adjust Tube Length:** The storage tube is adjustable from 50 to 94 inches. Extend or retract the tube to your desired length by sliding the two sections.

Operation

The Touri RV Sewer Hose Storage Tube provides a convenient and secure way to store your RV sewer hoses and other accessories.

Storing Hoses and Accessories:

1. **Open End Cap:** The tube features an easy-open end cap. Unlatch and open the cap to access the storage compartment.
2. **Insert Items:** The tube has a 4.5-inch inner diameter, suitable for various hose sizes and accessories. Carefully insert your sewer hose, fishing poles, or small tools into the tube.

3. **Close and Secure:** Close the end cap firmly. Ensure it is fully latched to prevent items from falling out during travel. The end caps provide extra security.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your Touri RV Sewer Hose Storage Tube.

- **Cleaning:** Periodically clean the exterior of the tube with mild soap and water. Rinse thoroughly and dry. Avoid abrasive cleaners that may damage the plastic.
- **Inspection:** Regularly inspect the tube, mounting tabs, and end caps for any signs of wear, damage, or loose connections. The heavy-duty polymer plastic is designed to resist impacts, scratches, and weather damage, but regular checks are recommended.
- **Lubrication:** If the adjustable sections become stiff, a silicone-based lubricant can be applied sparingly to the sliding surfaces to ensure smooth operation.

Troubleshooting

This section addresses common issues you might encounter with your storage tube.

Problem	Possible Cause	Solution
Tube difficult to extend or retract.	Dirt or debris in sliding mechanism; lack of lubrication.	Clean the sliding surfaces and apply a silicone-based lubricant.
End cap does not stay securely closed.	Latch mechanism is worn or obstructed; cap not fully engaged.	Ensure the cap is fully pushed in and the latch is engaged. Inspect the latch for damage. Consider using a small carabiner for added security if needed.
Mounting tabs feel loose after installation.	Screws are not tightened sufficiently; mounting surface is unstable.	Retighten all mounting screws. If the mounting surface is compromised, relocate the tube or reinforce the mounting area.

Specifications

- **Model:** TR5094
- **Adjustable Length:** 50 to 94 inches
- **Inner Diameter:** 4.5 inches
- **Material:** Heavy-Duty Polymer Plastic
- **Color:** Black
- **Mounting Type:** Hitch (Universal Fit)
- **Compatible Vehicle Types:** Car, Trailer, Truck, Van
- **Included Components:** RV Adjustable EZ Hose Carrier, Mounting Screws, Mounting Tabs
