

QPLAY Sema EVO

QPlay Sema EVO 5-in-1 Toddler Scooter Instruction Manual

1. INTRODUCTION

Thank you for choosing the QPlay Sema EVO 5-in-1 Toddler Scooter. This versatile scooter is designed to grow with your child, offering multiple modes of use from 1 to 6 years of age. It transforms from a parent-guided push scooter to a balance bike, and finally to an independent kick scooter, all with tool-free adjustments. Please read this manual carefully before assembly and use to ensure safe operation and proper maintenance.

2. SAFETY INFORMATION

WARNING: Adult assembly required. Adult supervision is required at all times. Always wear a helmet and protective gear (knee pads, elbow pads) when riding. Do not use in traffic. Maximum weight limit: 110 lbs (50 kg).

- Ensure all locking mechanisms are securely fastened before each use.
- Regularly inspect the scooter for loose parts, damage, or wear.
- Teach your child proper riding techniques and safety rules.

- The scooter meets US CPSC and ASTM safety standards.
- Do not modify the scooter in any way.

3. PACKAGE CONTENTS

Verify that all components are present in the package:

- Toddler 3-Wheel Kick Scooter Base
- Adjustable Handlebar
- Kick Scooter with Seat attachment
- LED Wheels (pre-installed)

4. ASSEMBLY

The QPlay Sema EVO scooter features a tool-free, one-click assembly design. Follow these general steps:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Attach Handlebar:** Insert the adjustable handlebar into the designated slot on the scooter base until it clicks securely into place.
3. **Attach Seat (if applicable):** For parent-push or balance bike modes, attach the seat by aligning it with the handlebar post and pressing down until it locks.
4. **Verify Connections:** Ensure all connections are firm and secure before allowing a child to use the scooter.

5.1. Parent-Guided Push Scooter Mode (12-36 Months)

Ideal for toddlers learning to ride. The seat provides stability, and the adjustable push handle allows parents to guide and assist their child.

5.2. Balance Bike Mode (15-36 Months)

Remove the push handle, and the scooter transforms into a balance bike. This mode helps children develop balance and coordination before transitioning to a kick scooter.

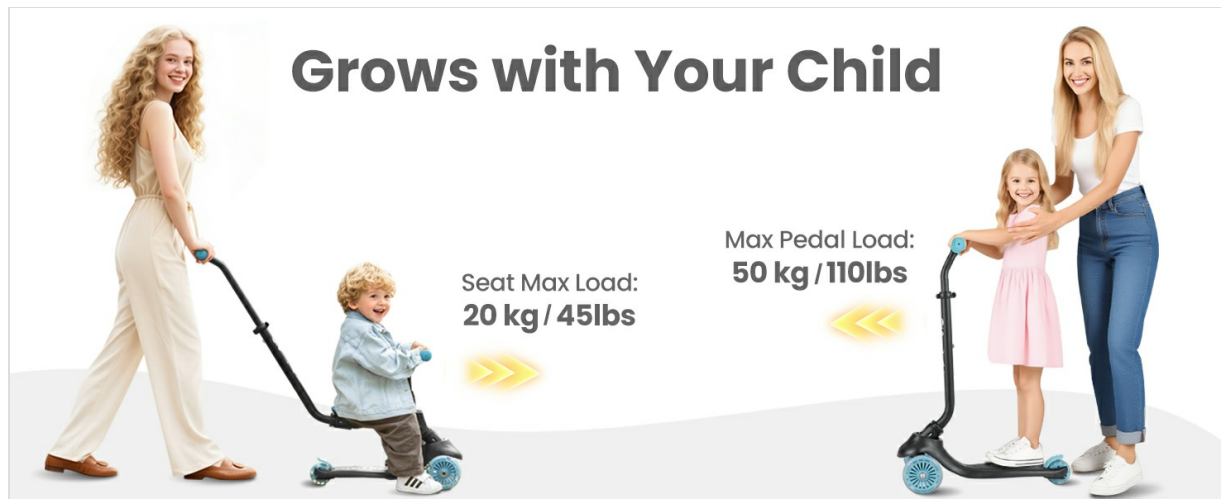

Image: A child riding the scooter in balance bike mode, developing balance skills.

5.3. Kick Scooter Mode (36 Months+)

Remove the seat and adjust the handlebar height for an independent kick scooter experience. The stable 3-wheel design and non-slip deck provide a secure ride.

This video demonstrates the various stages and transformations of the QPlay Sema EVO 5-in-1 Toddler Scooter, showing how it adapts from a parent-push mode to a balance bike and then to a kick scooter for different age groups.

6. ADJUSTABLE FEATURES

The scooter is designed to grow with your child, featuring adjustable components for comfort and safety.

6.1. Adjustable Parent Push Handle

The parent push handle can be adjusted to three different heights: 27 inches (69 cm), 30.7 inches (78 cm),

and 35 inches (88.5 cm).

7. SPECIAL FEATURES

7.1. LED Light-Up Wheels and Deck

The scooter features flashing wheels and deck lights that illuminate when in motion. These lights are powered by kinetic energy, requiring no batteries, and enhance visibility and fun.

8. MAINTENANCE

- **Cleaning:** Wipe the scooter with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners.
- **Inspection:** Regularly check all screws, bolts, and locking mechanisms to ensure they are tight and secure.
- **Wheels:** Inspect wheels for wear and tear. Replace if necessary. Ensure wheels spin freely.
- **Storage:** Store the scooter in a dry place away from direct sunlight and extreme temperatures.

9. TROUBLESHOOTING

Problem	Possible Cause	Solution
Handlebar/Seat is loose	Not fully engaged or locked.	Ensure the component is pushed in until it clicks securely. Check locking pins.
Wheels not lighting up	Insufficient speed or movement.	The lights are kinetic; ensure the wheels are spinning with enough force.
Difficulty steering	Steering lock engaged (for younger riders).	Check the steering lock mechanism (if applicable) and ensure it's disengaged for active steering.

10. SPECIFICATIONS
