& Support

## 1. INTRODUCTION

The Arregui SPIN UP + BRIDGE is an advanced invisible security lock designed to enhance the protection of your home or office. This electronic lock offers discreet installation, remaining unseen from the exterior, thereby increasing security against forced entry and manipulation. It integrates seamlessly with mobile applications for smart control and includes a powerful 120 dB alarm system. The included Arregui Bridge enables remote management and compatibility with smart home assistants.

## 2. SAFETY INFORMATION

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- Ensure the lock is installed on a clean, dry surface.
- Do not expose the device to extreme temperatures or humidity.
- Use only specified AA 1.5V alkaline batteries.
- Keep the device out of reach of children.
- Do not attempt to disassemble or repair the lock yourself. Contact qualified service personnel.

## 3. PACKAGE CONTENTS

Verify that all components are present in the package:

- Arregui SPIN UP Lock Unit
- Mounting Plate
- Rubber Shims
- Double-sided Adhesive Strips
- Reset Tool
- Allen Key
- Fixing Screws
- Instruction Manual
- Arregui Bridge Device for Remote Connection

## 4. SETUP AND INSTALLATION

The Arregui SPIN UP lock is designed for quick and wireless installation, requiring no complex wiring or construction work. It is installed on the interior side of your door, making it invisible from the outside.

### 4.1. Lock Installation

1. **Prepare the Door:** Ensure the interior surface of your door is clean and dry where the lock will be mounted.
2. **Position the Mounting Plate:** Determine the optimal position for the lock on the interior side of your door. The lock can be placed in various positions to suit your door type. Use the double-sided adhesive strips or screws to secure the mounting plate.
3. **Attach the Lock Unit:** Align the SPIN UP lock unit with the mounting plate and secure it firmly.
4. **Install Batteries:** Open the battery compartment and insert 4 AA 1.5V alkaline batteries, ensuring correct polarity.

## 4.2. Arregui Bridge Setup

The Arregui Bridge enables remote control of your lock via Wi-Fi.

1. **Power On:** Plug the Arregui Bridge into a power outlet near your lock and Wi-Fi router.
2. **Pair with App:** Follow the instructions in the Arregui Security app to pair the Bridge with your lock and connect it to your home Wi-Fi network.

## 5. OPERATING INSTRUCTIONS

### 5.1. App Control (Arregui Security App)

The Arregui Security app provides comprehensive control over your lock.

1. **Download App:** Download the "Arregui Security" app from Google Play Store or Apple App Store.
2. **Pairing:** Enable Bluetooth on your smartphone and follow the in-app instructions to pair with your SPIN UP lock.

3. **Opening/Closing:** Use the app interface to lock or unlock your door.
4. **User Management:** Grant or revoke access permissions for other users.
5. **Access History:** View a detailed log of all lock activities.
6. **Remote Control (with Bridge):** If the Arregui Bridge is installed and configured, you can control your lock from anywhere with an internet connection.
7. **Voice Control:** The lock is compatible with Google Assistant and Amazon Alexa for voice commands (requires Arregui Bridge).

## 5.2. Manual Opening

From the interior side of the door, the lock can be manually operated using the integrated knob.

## 5.3. Optional Opening Methods (Accessories)

The Arregui SPIN UP lock supports additional opening methods with optional accessories:

- **Smart Key Remote:** A dedicated remote control (not included) can be paired for convenient opening and closing.
- **Keypad:** An external keypad (not included) allows access via a numerical code.

## 6. ALARM SYSTEM

The Arregui SPIN UP features an integrated 120 dB alarm to deter intruders.

- **Trigger Conditions:** The alarm activates upon detection of vibration or attempts of forced entry.
- **Alerts:** In addition to the audible alarm, you may receive notifications via the Arregui Security app.

## 7. MAINTENANCE

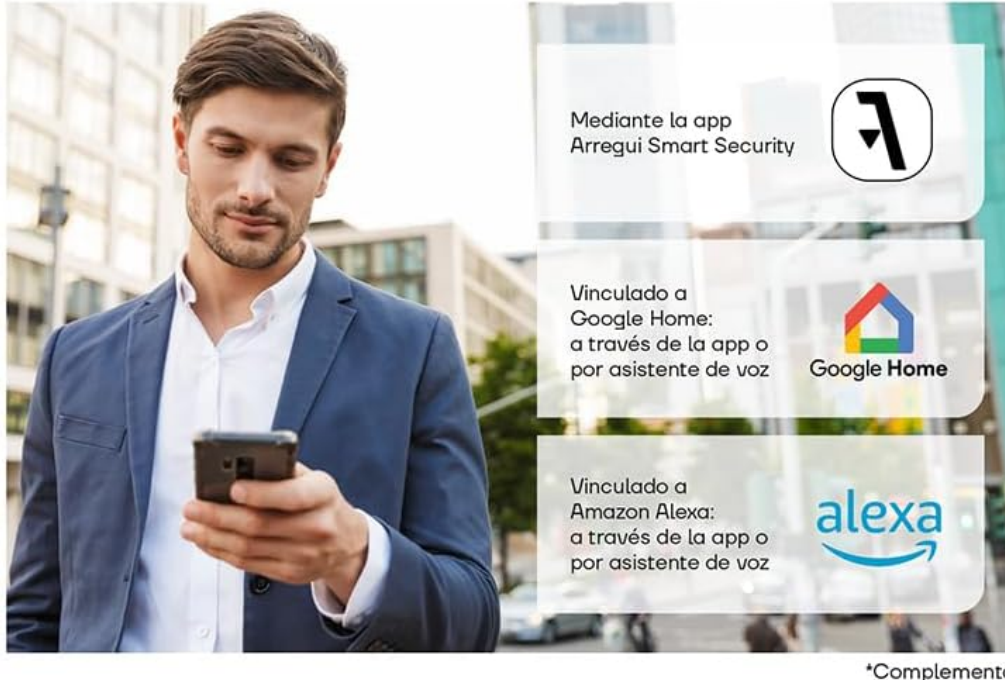

### 7.1. Battery Replacement

The lock is powered by 4 AA 1.5V alkaline batteries. It is recommended to replace them when the low battery alert is triggered.

- **Low Battery Alert:** The Arregui Security app will notify you when the battery level falls below 10%.
- **Emergency Auto-Opening:** For your safety, the lock will automatically open if the battery level drops below 10% to prevent you from being locked out.
- **Accessing Battery Compartment:** The battery compartment is easily accessible for replacement.

\*Complemento

Image: The Arregui SPIN UP lock highlighting its power source (4 AA batteries), over 5,000 openings per set of batteries, easy battery access, low battery warning via app, and emergency auto-opening feature.

## 7.2. Cleaning

Clean the lock unit with a soft, dry cloth. Do not use abrasive cleaners or solvents.

## 8. TROUBLESHOOTING

- **Lock Not Responding:** Check battery levels. If low, replace batteries. Ensure Bluetooth is enabled on your smartphone and you are within range.
- **App Connectivity Issues:** Ensure your smartphone has a stable internet connection. For remote control, verify the Arregui Bridge is powered on and connected to Wi-Fi. Restart the app or your smartphone if issues persist.
- **Alarm False Triggers:** Review the sensitivity settings for the vibration sensor in the Arregui Security app. Adjust as needed.
- **Lock Does Not Open/Close Smoothly:** Check for any obstructions around the door frame or the lock mechanism. Ensure the lock is securely mounted.
- **Resetting the Lock:** If experiencing persistent issues, use the provided reset tool to perform a factory reset. Refer to the app for specific instructions on re-pairing after a reset.
