

Baotree KD8001111

Baotree 2-Tier Electric Hot Dog Steamer with Bun Warmer (Model KD8001111) Instruction Manual

Model: KD8001111 | Brand: Baotree

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Baotree 2-Tier Electric Hot Dog Steamer with Bun Warmer. This appliance features a 31.7QT/30L capacity, capable of holding up to 175 hot dogs and 40 buns. It is constructed from high-quality stainless steel with a visible glass sliding door and adjustable temperature control for optimal food warming.

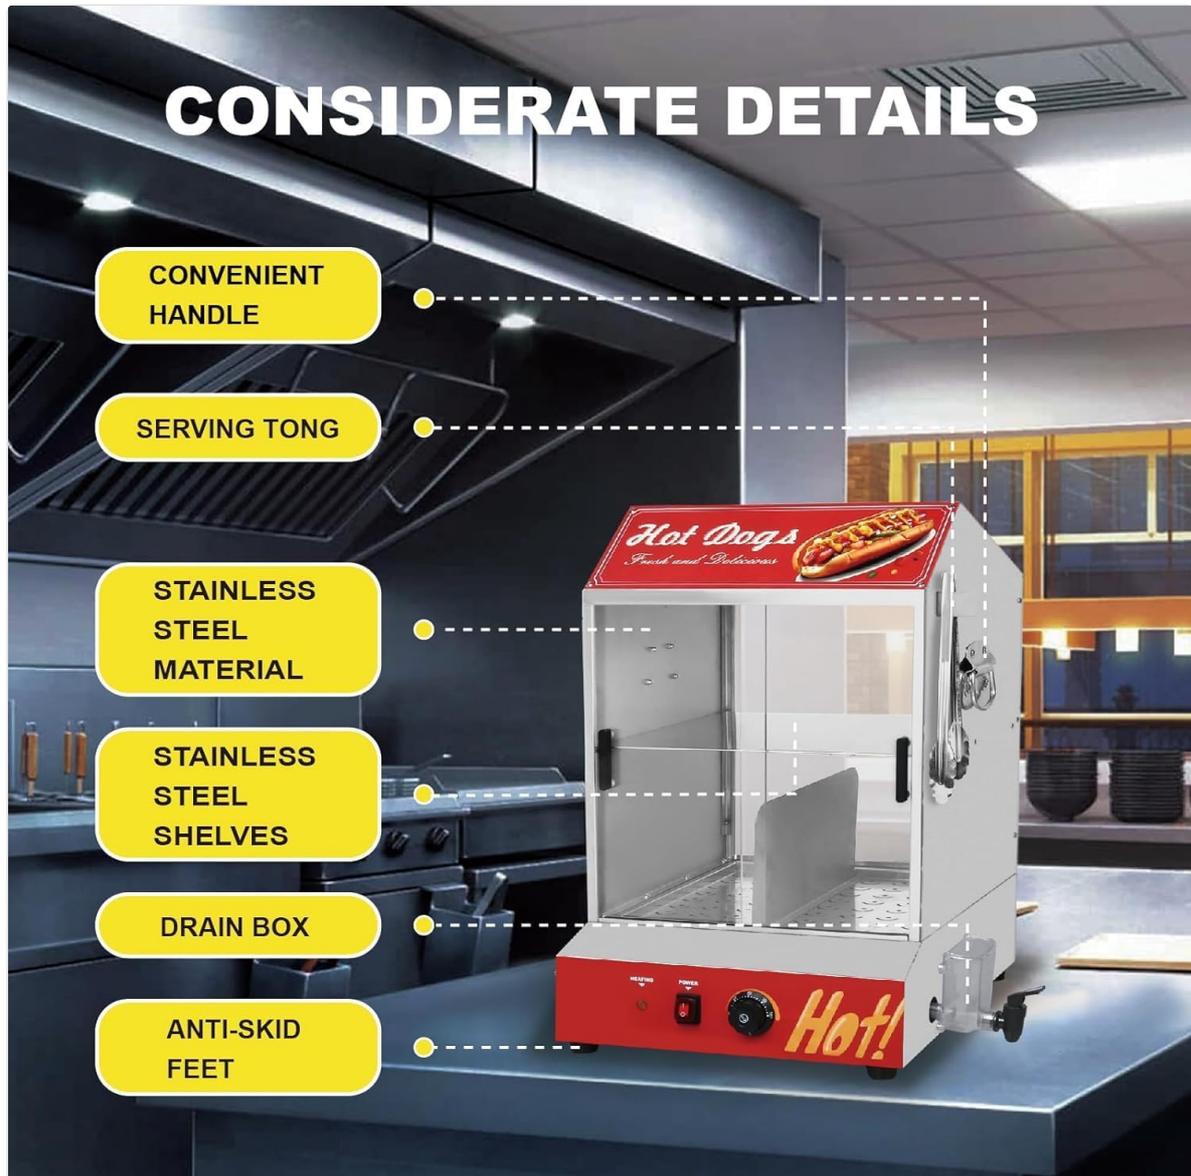

2. SAFETY INSTRUCTIONS

- Always ensure the machine is unplugged before cleaning or performing any maintenance.
- **WARNING:** Do not turn on the machine before filling water into the tank. Otherwise, the heating tube may burn out.
- Ensure the appliance is placed on a stable, level surface.
- Keep hands and face away from steam vents during operation to avoid burns.
- Do not immerse the electrical unit in water or other liquids.
- Use only the provided accessories or manufacturer-approved replacements.
- Regularly inspect the power cord for damage. If damaged, contact qualified personnel for replacement.
- This appliance is intended for commercial use.

3. PRODUCT OVERVIEW

The Baotree Hot Dog Steamer is designed for efficiency and durability, featuring a two-tier system for

hot dogs and buns.

- **Stainless Steel Construction:** Ensures durability and easy cleaning.
- **Tempered Glass Sliding Door:** Provides clear visibility of contents and easy access.
- **Two-Tier Design:** The lower tier is for hot dogs, and the upper rack is for buns, keeping them warm and soft.
- **Drain Valve:** Located at the bottom for easy water drainage after use.
- **Adjustable Temperature Control:** A knob allows setting the temperature between 86 - 185°F (30-85°C).
- **Heating Element:** A U-shaped heating tube ensures fast and even heating of water for steam.

4. SETUP

Follow these steps to set up your hot dog steamer before first use:

1. **Unpacking:** Carefully remove all packaging materials and protective films from the unit. Ensure all components are present and undamaged.
2. **Install Drain Valve:** Take out the drain valve and PTFE tape. Wrap PTFE tape around the threads of the drain valve and screw it into the equipment fitting. Configure the drainage valve for easy water drainage.
3. **Install Glass Panels:** The tempered glass panels slide into designated grooves. Ensure they are securely in place.
4. **Place Shelves:** Insert the stainless steel shelves into the unit. The lower shelf is for hot dogs, and the upper shelf is for buns.
5. **Fill Water Tank:** Open the sliding door and fill the water tank with clean water up to the recommended level (approximately 3/4 full). Do not overfill.

5. OPERATING INSTRUCTIONS

Operate your hot dog steamer efficiently with these guidelines:

1. **Power On:** Plug the power cord into a suitable electrical outlet. Turn the power switch to the "ON" position.
2. **Set Temperature:** Use the temperature control knob to select your desired temperature. The range is 86 - 185°F (30-85°C). Allow a few minutes for the unit to reach the set temperature.
3. **Load Food:** Place hot dogs on the lower perforated shelf and buns on the upper rack. The unit can hold up to 175 hot dogs and 40 buns.
4. **Serve:** Use the provided tongs to retrieve hot dogs and buns from the unit. The visible glass sliding door allows for easy access and display.

6. MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and hygiene of your steamer:

1. **Drain Water:** After each use, turn off and unplug the unit. Open the drain valve to empty the water tank.
2. **Clean Interior:** Remove the shelves and glass panels. Wash them with warm, soapy water. The stainless steel components are dishwasher safe.
3. **Wipe Exterior:** Wipe down the exterior of the unit with a damp cloth. Avoid abrasive cleaners that could damage the finish.
4. **Descaling:** Periodically descaling the water tank to prevent mineral buildup. Use a commercial descaling solution or a mixture of vinegar and water.

7. TROUBLESHOOTING

Address common issues with your hot dog steamer:

Problem	Possible Cause	Solution
Unit does not power on.	No power supply; Blown fuse.	Check power connection and outlet. Replace fuse if necessary.
No steam or insufficient heat.	Insufficient water in tank; Temperature set too low; Heating element malfunction.	Add water to the tank. Increase temperature setting. Contact support if heating element is faulty.
Buns are dry.	Not enough steam; Buns left too long.	Ensure adequate water level. Adjust temperature or reduce warming time.
