iHome 3-in-1 Magnetic Wireless Charging Mount

Model: 2IHCM1008-BLK-G7

PRODUCT OVERVIEW

The iHome 3-in-1 Magnetic Wireless Charging Mount provides a versatile solution for securing and charging your smartphone in your vehicle. This device offers multiple mounting options for your dashboard, windshield, or air vent, ensuring your phone remains accessible and powered during your travels. It features MagSafe-compatible magnetic attachment and delivers 15W fast wireless charging for compatible devices.

WHAT'S IN THE BOX

- iHome Magnetic Wireless Charging Base
- Extendable Arm with Lockable Suction Cup Base
- Vent Clip Attachment
- USB-C Charging Cable (Power adapter not included)

SETUP AND INSTALLATION

This mount offers three primary installation methods: vent, dashboard, and windshield. Choose the method that best suits your vehicle and preference.

1. Vent Mount Installation

1. Attach the vent clip to the back of the magnetic wireless charging base. Ensure it clicks securely into place.
2. Locate a suitable air vent in your vehicle. The vent clip features silicone padding for a secure grip.
3. Gently push the vent clip onto one of the vent slats until it is firmly attached.
4. Adjust the angle of the magnetic charging base for optimal viewing.

2. Dashboard/Windshield Mount Installation

1. Attach the extendable arm with the lockable suction cup base to the back of the magnetic wireless

charging base. Ensure it clicks securely into place.

2. Clean the desired mounting surface on your dashboard or windshield thoroughly. Ensure it is free of dust and grease.
3. Press the suction cup firmly onto the clean surface.
4. Engage the lock lever on the suction cup base to create a strong vacuum seal.
5. Adjust the extendable arm (from 3.5" to 5.5") and pivot the magnetic base (240°) to achieve your preferred viewing angle.

OPERATION

1. Attaching Your Phone

- Ensure your smartphone is MagSafe-compatible (iPhone 12 or newer) or has a MagSafe-compatible case.
- Simply bring your phone close to the magnetic charging base. The powerful magnets will automatically align and secure your phone in place.

2. Wireless Charging

- Connect the provided USB-C cable to the charging base and plug the other end into a compatible car charger (not included).
- Once your phone is magnetically attached, wireless charging will begin automatically, indicated by a charging icon on your phone screen. The mount delivers up to 15W fast wireless charging.

3. Adjusting the Mount

- The magnetic base allows for easy rotation of your phone between portrait and landscape orientations.
- If using the extendable arm, loosen the adjustment knobs to extend or retract the arm and pivot the head to find your ideal viewing angle. Tighten the knobs to secure the position.

FIND YOUR PERFECT ANGLE EVERY TIME YOU USE IT

Extend the arm to find the ideal angle for navigation, making calls, or accessing media, giving you full control over your device's position.

CARE AND MAINTENANCE

- Keep the magnetic charging surface clean and free of debris to ensure optimal magnetic connection and charging efficiency.
- Wipe the mount with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- For the suction cup base, if it loses stickiness, rinse it with warm water and let it air dry. This can help restore its adhesive properties.
- Avoid exposing the mount to extreme temperatures for prolonged periods, as this may affect its materials and performance.

TROUBLESHOOTING

Phone Not Charging

- Ensure the USB-C cable is securely connected to both the mount and a functioning car charger.
- Verify that your car charger is providing sufficient power (a 15W or higher output car charger is recommended for fast charging).

- Check if your phone is MagSafe-compatible or if your phone case is MagSafe-compatible. Thick or non-magnetic cases may interfere with charging.
- Ensure there are no foreign objects (e.g., metal plates, credit cards) between your phone and the charging surface.

Mount Not Holding Securely

- **Vent Mount:** Ensure the vent clip is fully inserted and tightened onto a vent slat.
- **Suction Cup Mount:** Clean the dashboard/windshield surface thoroughly before application. Ensure the lock lever is fully engaged after pressing the suction cup down. If the suction cup is dirty, clean it with water and let it air dry.

Phone Not Attaching Magnetically

- Confirm your phone model is iPhone 12 or newer, or that you are using a MagSafe-compatible case.
- Remove any non-MagSafe cases or accessories that might block the magnetic connection.

SPECIFICATIONS

Model Number	2IHCM1008-BLK-G7
Brand	iHome
Color	Black
Compatible Devices	Smartphones (MagSafe-compatible, iPhone 12 or newer)
Mounting Type	Vent, Dashboard, Windshield
Wireless Charging Output	Up to 15W Fast Charge
Extendable Arm Length	3.5" to 5.5"
Item Weight	10.6 ounces
Package Dimensions	9.06 x 5.16 x 2.68 inches
Manufacturer	Lifeworks Technology Group, LLC.
