K&F CONCEPT TF08

K&F CONCEPT TF08 180cm 3-in-1 Magnetic Selfie Stick Tripod User Manual

Model: TF08 | Brand: K&F CONCEPT

1. Introduction

The K&F CONCEPT TF08 is a versatile 3-in-1 device designed for mobile photography and videography. It functions as a selfie stick, a tripod, and offers multiple mounting options for various accessories. This manual provides detailed instructions for its setup, operation, and maintenance to ensure optimal performance and longevity.

- **3-in-1 Functionality:** Features a magnetic system, a phone clip, and a standard 1/4" screw mount.
- **Quick Deployment:** Easy to open and close for convenient use.
- **Adjustable Design:** 4-axis adjustable head for capturing diverse angles.
- **Remote Control:** Includes a rechargeable Bluetooth remote for hands-free operation.
- **Universal Compatibility:** Supports iPhone 12-17 series, Android phones, and various accessories.

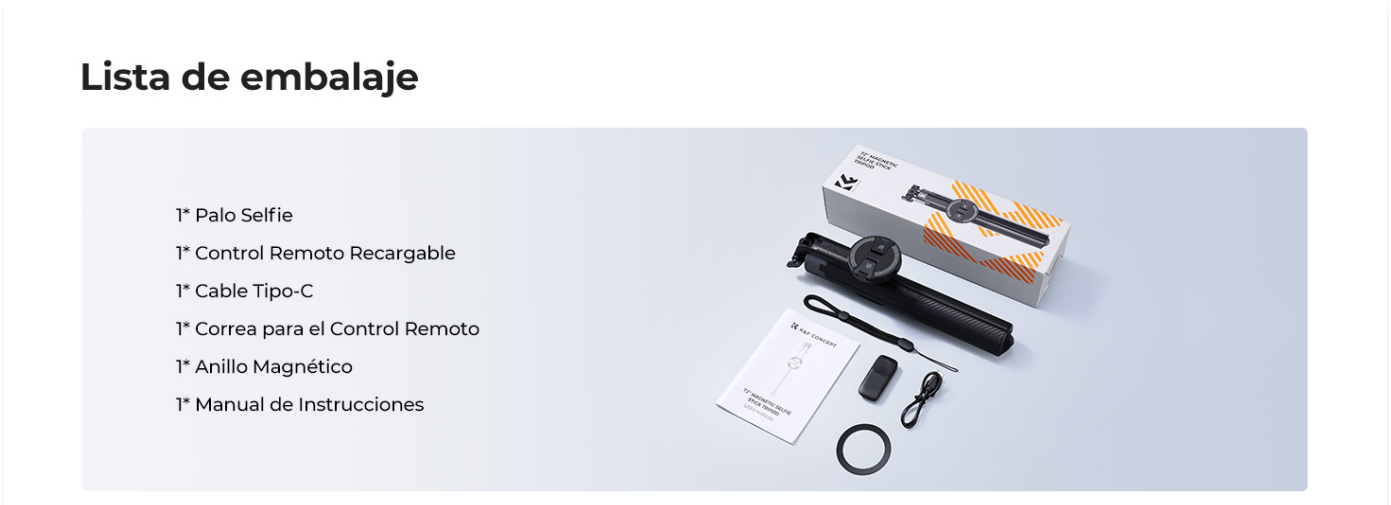

Figure 1: Package Contents. The package includes: 1* Selfie Stick, 1* Rechargeable Remote Control, 1* Type-C Cable, 1* Remote Control Strap, 1* Magnetic Ring, and 1* Instruction Manual.

2. Setup

2.1 Unpacking and Initial Inspection

Carefully remove all components from the packaging. Verify that all items listed in the 'Package Contents' (Figure 1) are present and undamaged. If any items are missing or damaged, please contact customer support.

2.2 Attaching Your Phone

Figure 2: One-Hand Phone Installation. This image shows how to easily attach a smartphone to the tripod using either the magnetic mount (compatible with iPhone 12-17 series or MagSafe cases) or the included metallic ring for other phones and cases. The N52 magnet provides a strong 3000gf attraction force.

1. **Magnetic Mount:** If your phone (iPhone 12-17 series) or phone case supports MagSafe, simply align your phone with the magnetic head of the tripod. The strong N52 magnet will secure it in place.
2. **Magnetic Ring:** For other smartphones or cases, attach the provided metallic magnetic ring to the back of your phone or case. Ensure it is centered for optimal magnetic connection. Then, attach your phone to the magnetic head.
3. **Phone Clip:** Alternatively, use the integrated spring-loaded phone clip. Pull the top jaw of the clip upwards, insert your phone, and release to secure it. Ensure the phone is firmly held.

2.3 Deploying the Tripod Legs

Figure 3: Automatic Tripod Deployment. To open the tripod, simply drop it vertically from 10 cm (3.94 inches) onto the ground, and the legs will deploy automatically. To close, gently lift the tripod, and the legs will retract automatically.

To deploy the tripod legs, hold the stick vertically and gently drop it from a height of approximately 10 cm (3.94 inches) onto a flat surface. The legs will automatically extend and lock into position. To retract the legs, simply lift the tripod, and they will fold back automatically.

2.4 Pairing the Bluetooth Remote Control

Figure 4: Bluetooth Remote Control. The tripod includes an integrated rechargeable Bluetooth remote control. It features an anti-loss strap and a single button for photo capture, offering an effective range of 10 meters for convenient remote operation.

1. Ensure the remote control is charged using the provided Type-C cable.
2. Turn on the remote control (usually by pressing and holding a button until an indicator light flashes).
3. On your smartphone, go to Bluetooth settings and search for available devices.
4. Select the device named "K&F CONCEPT" or similar from the list to pair.
5. Once paired, the indicator light on the remote will stop flashing, and you can use it to trigger your phone's camera shutter.

3. Operating Instructions

3.1 Adjusting Height and Angle

Figure 5: Maximum Height. The tripod extends to a maximum height of 180cm (72 inches), providing ample reach for various shooting scenarios, including group photos and vlogging.

Figure 6: Adjustable Angle. The tripod features a 4-axis adjustable design, allowing for flexible positioning. The phone mount can rotate 360 degrees horizontally, 180 degrees vertically, and tilt 135 degrees, enabling you to capture shots from virtually any angle.

- **Height Adjustment:** Extend the telescopic pole to your desired height, up to 180cm (72 inches). Ensure all sections are securely locked before use.
- **Angle Adjustment:** The head features a 4-axis adjustable design. Loosen the locking knob(s) to adjust the phone mount's horizontal (360°), vertical (180°), and tilt (135°) angles. Tighten the knob(s) once the desired angle is achieved.

3.2 Using the 1/4" Screw Mount

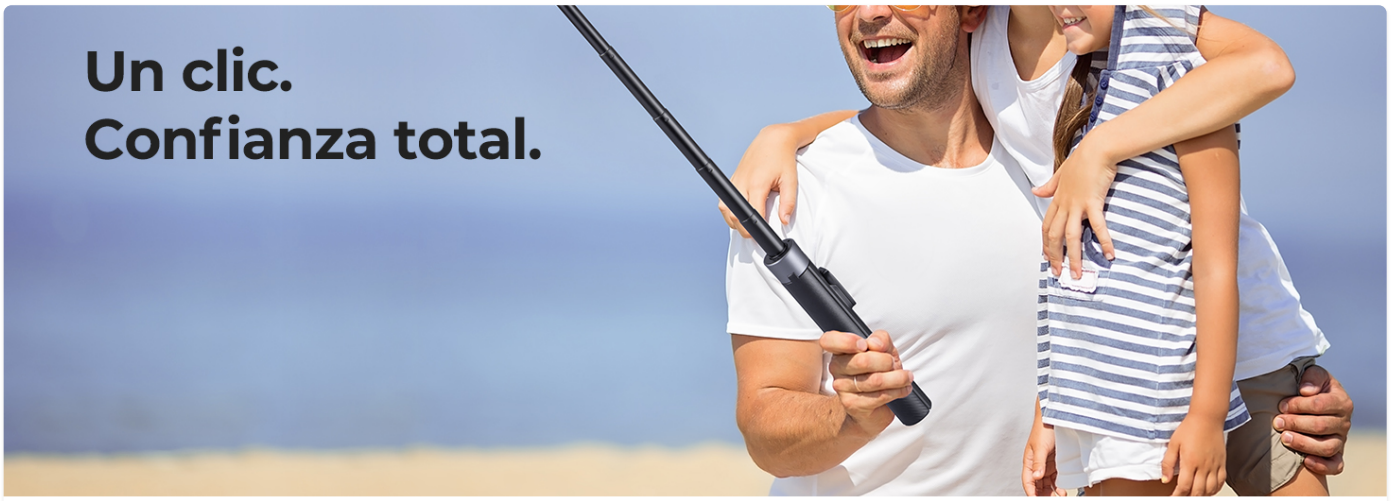

Figure 7: 3-in-1 Design with 1/4" Screw. The tripod offers a versatile 3-in-1 design. It includes a magnetic mount for quick attachment, a traditional phone clip for secure holding, and a 1/4-inch standard screw for connecting action cameras, fill lights, or microphones.

The tripod includes a standard 1/4" screw mount. This allows you to attach various accessories such as action cameras (e.g., GoPro Hero, AKASO), external lights, or microphones directly to the tripod for enhanced content creation.

3.3 Remote Control Operation

Once the Bluetooth remote is paired with your phone, open your phone's camera application. Press the button on the remote control to trigger the shutter and capture photos or start/stop video recording (functionality may vary slightly depending on your phone's camera app).

4. Maintenance

To ensure the longevity and proper functioning of your K&F CONCEPT TF08 tripod, follow these maintenance guidelines:

- **Cleaning:** Wipe the tripod with a soft, dry cloth after each use to remove dust and dirt. For stubborn stains, use a slightly damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is fully collapsed before storage.
- **Battery Care:** Recharge the Bluetooth remote control regularly, even if not in frequent use, to maintain battery health. Avoid overcharging or completely draining the battery.
- **Water Exposure:** This product is not water-resistant. Avoid exposure to rain, splashes, or submersion in water to prevent damage to electronic components and mechanical parts.

5. Troubleshooting

If you encounter any issues with your K&F CONCEPT TF08 tripod, refer to the following common troubleshooting steps:

- **Remote Control Not Pairing:**
    - Ensure the remote control is charged.
    - Make sure Bluetooth is enabled on your phone.
    - Try unpairing and re-pairing the remote control in your phone's Bluetooth settings.
    - Restart both your phone and the remote control.
- **Phone Not Securely Held:**
    - If using the magnetic mount, ensure your phone/case is MagSafe compatible or that the metallic ring is properly attached and centered.
    - If using the clip, ensure the phone is fully inserted and the clip jaws are firmly gripping it.
    - Avoid using overly thick phone cases that might interfere with the magnetic connection or clip grip.
- **Tripod Stability Issues:**
    - Ensure the tripod legs are fully deployed and locked on a flat, stable surface.
    - Avoid extending the pole to its maximum height in windy conditions or on uneven terrain.
    - Distribute the weight of your phone and accessories evenly.

If these steps do not resolve the issue, please contact K&F CONCEPT customer support for further assistance.

6. Specifications

Figure 8: Compact and Lightweight Design. Designed for portability, the tripod folds down to a compact length of 11 inches (29 cm) and weighs only 0.88 lbs (400 g), making it easy to store and carry in a backpack or by hand.

Feature	Specification
Model Name	Popod 72 (X97C6)
Brand	K&F CONCEPT
Product Dimensions	33.02 x 40.64 x 180.34 cm
Product Weight	400 Grams (0.88 lbs)
Maximum Height	1.8 Meters (72 inches)
Minimum Height	29 Centimeters (11 inches)
Folded Size	29 cm (11 inches)
