1. PRODUCT OVERVIEW

The Garvee 40 Inch Bird Cage is designed to provide a spacious and comfortable living environment for small to mid-sized birds such as parrots, parakeets, cockatiels, and lovebirds. Constructed from durable alloy steel with an oxidant-resistant powder coating, this cage offers enhanced safety and longevity. Key features include an open-top design for interactive play, multiple access doors, a convenient slide-out tray for easy cleaning, and 360-degree swivel wheels for effortless mobility.

- Open Top Design:** Allows for interaction and stimulation outside the cage.
- Pet-Parent Friendly Features:** Includes handles for easy lifting, small entrances on front doors, and feeding doors on side panels for convenient refilling.
- Hassle-Free Maneuverability:** Equipped with four 360-degree swivel wheels (two with locks) for easy relocation and secure placement.
- Easy Cleaning:** Features a water-resistant slide-out tray and metal grate to simplify waste removal and maintain hygiene.
- Solid Metal Construction:** Made from powder-coated alloy steel for high strength, improved safety, and durability.

2. SETUP & ASSEMBLY

Your Garvee 40 Inch Bird Cage comes with all necessary parts, hardware, and tools for assembly. Follow the illustrated instructions provided in the package for a smooth setup process. Below are general steps and visual aids to guide you.

2.1 Unpacking and Part Identification

Carefully unpack all components and verify against the parts list in your manual. Ensure all pieces are present and undamaged before proceeding.

2.4 Installing Trays and Grates

Slide the metal grate and the water-resistant plastic tray into their designated slots at the bottom of the cage. Ensure they are properly seated for easy removal during cleaning.

SPACIOUS & COMFORTABLE

Provide Large Space for Activities

Parrot **Canary**
Crow **Dove**

Suitable for medium and small sized birds **Open and close top at any time**

3. OPERATING INSTRUCTIONS

3.1 Accessing the Cage

The cage features multiple access points for convenience:

- **Front Doors:** Each front door has small entrances that can be opened for bird access or interaction.
- **Side Feeding Doors:** Located on the side panels, these doors allow for easy refilling of food and water without disturbing your birds.
- **Open-Top Design:** The top of the cage can be opened to provide an additional perch and a convenient way to interact with your birds outside the main enclosure.

2

FEEDING CUPS

More convenient to open doors and feed food

Your birds will always have something to snack on.

4. MAINTENANCE

4.1 Cleaning the Tray and Grate

The water-resistant plastic tray and metal grate are designed to slide out easily for cleaning. Regularly remove and clean these components to maintain a hygienic environment for your birds. Use mild soap and water, and ensure they are completely dry before returning them to the cage.

EASY CLEANING

Slide out the bottom tray and wash it off

Easy To Clean

4.2 General Cage Cleaning

Periodically wipe down the cage bars and surfaces with a bird-safe cleaner. Inspect perches and toys for wear and tear, replacing them as needed to ensure your bird's safety and comfort.

5. TROUBLESHOOTING

- **Difficulty Assembling:** Refer to the detailed illustrated instructions provided with your product. Ensure all parts are correctly oriented before tightening screws.
- **Wobbly Cage:** Check that all screws are securely tightened. Ensure the wheels are properly installed and, if applicable, the locking mechanisms are engaged when stationary.
- **Stuck Tray:** Verify that the tray and grate are aligned correctly in their tracks. Clean any debris that might be

obstructing their movement.
