SETUP

1. Charging the Headphones

Before first use, fully charge your headphones. Connect the USB Type-C charging cable to the charging port on the headphones and the other end to a USB power adapter (not included) or a computer's USB port.

- A full charge typically takes approximately 2-3 hours.
- The LED indicator will show charging status (e.g., red for charging, blue/off for fully charged).

2. Powering On/Off

- **Power On:** Press and hold the Multi-function button (usually the power button) for approximately 3 seconds until the LED indicator flashes and you hear a power-on prompt.

- **Power Off:** Press and hold the Multi-function button for approximately 5 seconds until the LED indicator turns off and you hear a power-off prompt.

3. Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Press and hold the Multi-function button for approximately 5-7 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth.
4. Search for "Haylou S35 ANC" in the list of available devices.
5. Select "Haylou S35 ANC" to connect. Once connected, the LED indicator will flash blue slowly or turn off, and you will hear a connection prompt.

Note: The headphones support multi-point connection, allowing simultaneous connection to two devices. After connecting to the first device, put the headphones back into pairing mode and connect to the second device. The headphones will automatically manage connections.

OPERATING INSTRUCTIONS

Music Playback

- **Play/Pause:** Press the Multi-function button once.
- **Next Track:** Double-press the Multi-function button.
- **Previous Track:** Triple-press the Multi-function button.
- **Volume Up:** Press the Volume + button.
- **Volume Down:** Press the Volume - button.

Call Management

- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.

Active Noise Cancellation (ANC) Modes

The Haylou S35 ANC headphones offer multiple noise cancellation modes. Use the dedicated ANC button to cycle through them.

- **ANC On:** Blocks external noise for immersive listening.
- **Transparency Mode:** Allows ambient sounds to pass through, enabling you to hear your surroundings and engage in conversations without removing the headphones.
- **Standard Mode:** ANC is off, providing a natural listening experience.

Voice Assistant

- **Activate Voice Assistant:** Double-press the Multi-function button.

Low Latency Mode (Gaming Mode)

For an optimized gaming experience, activate low latency mode.

- **Activate/Deactivate:** Refer to the Haylou Sound App for specific controls, or a dedicated button if available.

Wired Connection

You can use the headphones with the included 3.5mm audio cable for a wired connection, which also provides zero-latency audio, ideal for gaming or when battery is low.

- Connect one end of the 3.5mm audio cable to the headphone's audio jack and the other end to your audio source.
- Bluetooth and ANC features may be disabled or limited in wired mode.

Haylou Sound App

Download the official Haylou Sound App from your device's app store to customize settings, manage ANC levels, and access additional features.

MAINTENANCE

- **Cleaning:** Wipe the headphones with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the headphones in a cool, dry place, away from direct sunlight and extreme temperatures. When not in use for extended periods, charge them periodically to maintain battery health.
- **Water Exposure:** These headphones are not waterproof. Avoid exposure to water, moisture, or rain.
- **Avoid Impact:** Do not drop or subject the headphones to strong impacts.

TROUBLESHOOTING

Problem	Solution
Headphones do not power on.	Ensure the headphones are charged. Connect to a power source using the USB Type-C cable.
Cannot pair with device.	• Ensure headphones are in pairing mode (LED flashing red and blue). • Turn off and on Bluetooth on your device. • Forget "Haylou S35 ANC" from your device's Bluetooth list and try pairing again. • Ensure headphones are within range (10 meters) of your device.
No sound or low volume.	• Check volume levels on both headphones and your connected device. • Ensure headphones are properly connected via Bluetooth or 3.5mm cable. • Try playing different audio sources.
ANC not working effectively.	• Ensure ANC mode is activated (not in Transparency or Standard mode). • Check for proper fit of the earcups over your ears to create a good seal. • ANC is most effective against low-frequency, constant noise.
Sound delay during gaming/video.	• Activate Low Latency Mode via the Haylou Sound App. • For zero delay, use the 3.5mm wired connection.
