4.4 Mobility

The island is equipped with universal wheels for easy movement. Ensure the wheels are unlocked before attempting to move the island. Lock the wheels once the island is in its desired position to prevent accidental movement.

5. MAINTENANCE

5.1 Cleaning

- **Surfaces:** Wipe down all surfaces with a soft, damp cloth. For stubborn stains, use a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the engineered wood finish.
- **Electrical Components:** Before cleaning, always unplug the island from the power source. Use a dry cloth to wipe the power outlets and LED strips. Do not spray liquids directly onto electrical parts.
- **Wheels:** Periodically clean any dust or debris from the wheels to ensure smooth movement.

5.2 General Care

- Avoid placing hot items directly on the countertop without protection.

- Protect the surface from sharp objects to prevent scratches.
- Periodically check all screws and fasteners to ensure they remain tight. Retighten as necessary.
- Keep the island away from direct sunlight and excessive moisture to prevent warping or discoloration.

6. TROUBLESHOOTING

6.1 LED Lights Not Working

- Ensure the island is properly plugged into a working power outlet.
- Check if the LED remote control batteries need replacement.
- Verify that all LED strip connections are secure.

6.2 Power Outlets Not Functioning

- Confirm the island is plugged into a live electrical outlet.
- Check if the circuit breaker for the outlet has tripped.
- Ensure no single appliance is drawing excessive power, potentially overloading the circuit.

6.3 Island Instability

- Verify that the island is placed on a flat, level surface.
- Check all assembly screws and bolts for tightness and retighten if loose.
- Ensure the wheels are locked when the island is stationary.
