SETUP INSTRUCTIONS

1. Setting up the 3-in-1 Charging Station:

1. Connect the provided USB-C cable to the input port on the Baseus Qi2.2 3-in-1 Charging Station.
2. Plug the other end of the USB-C cable into the included 45W Power Adapter.
3. Insert the 45W Power Adapter into a wall outlet. The indicator light on the charging station will

illuminate, indicating it is ready for use.

2. Initial Charging of the Picogo Power Bank:

- For optimal performance, fully charge the Picogo Power Bank before its first use.
 - Connect the power bank to the 3-in-1 charging station's magnetic pad or use the USB-C cable with a compatible power source.
 - The LED indicators on the power bank will show the charging status.
-

OPERATING INSTRUCTIONS

Using the Baseus Picogo Power Bank:

1. **Magnetic Wireless Charging (15W Qi2):** Align the power bank with the magnetic charging area on the back of your compatible iPhone (iPhone 12 and newer). The magnets will secure it in place, and charging will begin automatically.
2. **USB-C Wired Charging (20W):** Connect your device to the power bank's USB-C port using a compatible cable. Charging will commence.
3. **Using the Kickstand:** Extend the integrated kickstand from the back of the power bank to prop up your phone for hands-free viewing while charging.
4. **Checking Battery Level:** Press the power button once to view the current battery level indicated by the LED lights on the power bank.

Using the Baseus Picogo Qi2.2 3-in-1 Charging Station:

- Charging iPhone (25W Qi2.2):** Place your compatible iPhone (iPhone 12 and newer) onto the main magnetic charging pad. Ensure proper alignment for optimal 25W wireless charging. *Note: To achieve the full 25W peak power, ensure your iPhone is updated to iOS 16 or later.*
- Charging Apple Watch:** Place your Apple Watch onto the dedicated magnetic charging module.
- Charging AirPods:** Place your Qi-enabled AirPods case onto the designated charging area at the base of the station.
- Charging Multiple Devices:** The station supports simultaneous charging of an iPhone, Apple Watch, and AirPods.

MAINTENANCE

- **Cleaning:** Disconnect the devices from power before cleaning. Use a soft, dry, lint-free cloth to wipe the surfaces. Do not use abrasive cleaners, solvents, or aerosol sprays.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures.
- **Safety:** Avoid dropping or subjecting the devices to strong impacts. Do not disassemble or attempt to repair the devices yourself. Keep away from water and high humidity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging wirelessly.	Misalignment, thick phone case, device not Qi-compatible.	Ensure device is centered on the charging pad. Remove thick cases. Verify device supports wireless charging.
Slow charging.	Using a non-45W power adapter (for station), background apps, device temperature.	Ensure the 45W power adapter is used for the charging station. Close unnecessary apps. Allow device to cool if overheating. Update iPhone to iOS 26 or later for 25W charging.
Magnetic attachment is weak.	Non-MagSafe compatible phone case, foreign objects.	Use a MagSafe-compatible case or no case. Ensure no objects are between the charger and device.
Power bank not charging.	Cable issue, power source issue.	Check USB-C cable connection. Try a different USB-C cable or power source.
