

Unicliffe 32-Key Combo Lock

Unicliffe 32-Key Combination Lock Key Box Instruction Manual

Model: 32-Key Combo Lock

INTRODUCTION

The Unicliffe 32-Key Combination Lock Key Box is designed to provide secure and organized storage for a large collection of keys. This wall-mountable key cabinet features a robust steel construction and a customizable 3-digit combination lock, making it suitable for various environments such as offices, hotels, car dealerships, and service teams. This manual outlines the product's features, installation steps, operating instructions, and specifications to ensure proper use and maintenance.

PRODUCT FEATURES

- **High-Capacity Key Storage:** Spacious design (9.8" L x 2.3" W x 15.7" H) engineered to organize up to 32 key sets, keeping large collections tidy.
- **Enhanced Security:** Features a secure 3-digit combination lock offering 1,000 possible combinations. The tough 1 mm steel body resists tampering and forced entry, preventing unauthorized access.
- **Optimized for Larger Keys:** Wider hook spacing comfortably holds up to 8 bulky car keys in a row without crowding, overlapping, or tangling. A built-in magnet keeps the door securely shut after unlocking.
- **Quick Key Identification:** Equipped with 4 fixed plastic racks, each with pre-installed number stickers and 32 hooks to keep keys clearly arranged in numerical order.
- **32 Key Tags in 4 Colors:** Includes 8 key tags in each of 4 vibrant colors (blue, green, orange, red). Each tag has a writable insert for effortless labeling and clear windows for easy readability.

High-Capacity Key Storage

PACKAGE CONTENTS

Please check the package to ensure all items are present:

- 1 x Unicliffe 32-Key Combination Lock Key Box

- 32 x Writable Key Tags (8 each of blue, green, orange, red)
- 4 x Mounting Screws
- 4 x Wall Anchors
- 1 x Code Reset Tool

SETUP AND INSTALLATION

Wall Mounting

The Uniclife Key Box is designed for easy wall mounting. Ensure you select a sturdy location for installation.

1. Choose a suitable wall location for the key box.
2. Hold the key box against the wall at the desired height and mark the positions for the pre-drilled mounting holes.
3. Drill pilot holes at the marked positions. If mounting into drywall, insert the provided wall anchors.
4. Align the key box with the drilled holes and secure it to the wall using the provided screws.

OPERATING INSTRUCTIONS

Setting or Resetting the Combination Code

The default code for the lock box is 000. Follow these steps to set your personal 3-digit combination code:

1. Open the key box using the current combination (default is 000).
2. Inside the door, locate the small lever near the combination lock mechanism. Remove the protective paper covering it and take out the white reset tool.
3. Use the reset tool to move the lever from position 'A' to position 'B'.
4. With the lever in position 'B', rotate the dials on the front of the lock to set your desired 3-digit code. Choose a memorable code.
5. Once your new code is set, use the tool to move the lever back from position 'B' to position 'A' to lock in the new code.
6. Return the reset tool to its storage slot and slide the protective paper back.
7. Test your new code by scrambling the dials and then entering your new code to open the box.

Quick & Easy Code Setup

Set or reset your desired code in just one minute

Default Code: 000

Organizing Keys with Key Tags

The included key tags and numbered racks help maintain an organized system for your keys.

1. Attach each key or set of keys to a colored key tag.

2. Open the writable insert on each tag and label it with the key's purpose, location, or owner.
3. Hang the key tags on the corresponding numbered hooks within the key box. The pre-installed number stickers on the racks assist with systematic organization.
4. Utilize the wider hook spacing for larger or bulkier car keys to prevent overcrowding.

MAINTENANCE

To ensure the longevity and proper functioning of your Unicliffe Key Box:

- Regularly wipe the exterior with a soft, dry cloth to remove dust and dirt.
- Avoid using abrasive cleaners or solvents, as these can damage the finish.
- Periodically check the combination lock mechanism to ensure it operates smoothly.
- Ensure the key box is securely mounted to the wall.
