## Reading Lights

Two adjustable LED reading lights are integrated into the headboard. To turn on/off, locate the switch on the base of each light. The flexible arm allows you to adjust the light direction for focused illumination.

## Storage Drawers

Two hidden drawers are located at the foot of the bed. To open, pull the drawer handles outwards. These drawers provide additional storage for clothing, linens, or other items. Push them back in until they are fully closed and flush with the footboard.

## Side Racks/Shelves

Three side racks are positioned on each side of the headboard, offering convenient open storage for small items like phones, glasses, or a cup of coffee.

## MAINTENANCE

- **Cleaning:** For the linen fabric, use a soft, damp cloth with a mild detergent for spot cleaning. Avoid harsh chemicals or abrasive cleaners. For engineered wood surfaces, wipe with a dry or slightly damp cloth.
- **Hardware:** Periodically check all bolts, screws, and connections to ensure they remain tight. Re-

tighten as necessary to maintain stability.

- **Lights:** If a reading light malfunctions, ensure the power connection is secure. If the LED bulb needs replacement, consult customer support for compatible parts.
- **Moving the Bed:** When moving the bed, lift it rather than dragging to prevent damage to the frame or your flooring. Ensure the trundle and drawers are fully closed and secured before moving.
