## LOVEWE Sus304-meatmax

# LOVEWE Electric Meat Grinder Sus304-meatmax User Manual

Model: Sus304-meatmax

<b>Safety Instructions</b>	<b>Product Components Care and Maintenance</b>	<b>Setup Troubleshooting</b>	<b>Operating Instructions Specifications</b>
--------------------------------	--	----------------------------------	--

### IMPORTANT SAFETY INSTRUCTIONS

Read all instructions carefully before using the appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the appliance is unplugged before assembling, disassembling, or cleaning.
- Do not immerse the motor unit in water or other liquids.
- Keep hands and utensils away from moving blades during operation to prevent injury.
- This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Close supervision is necessary when any appliance is used by or near children.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Use only attachments recommended or sold by the manufacturer.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Always place the appliance on a stable, flat, and dry surface.

- Ensure the lid is securely locked in place before operating.
- Avoid processing excessively hard foods that may damage the blades or motor.

## PRODUCT COMPONENTS

The LOVEWE Electric Meat Grinder Sus304-meatmax consists of the following main parts:

- **Motor Unit:** The top section containing the motor and control buttons.
- **Stainless Steel Bowl:** The main container for processing ingredients.
- **Blade Assembly:** Sharp stainless steel blades for chopping and grinding.
- **Transparent Lid:** Covers the bowl and allows monitoring of the process.
- **Anti-slip Base:** Provides stability during operation.

*Figure 1: Fully assembled LOVEWE Electric Meat Grinder with various ingredients.*

This image displays the LOVEWE Electric Meat Grinder in its assembled state, surrounded by raw meat, garlic, carrots, and other vegetables, illustrating its intended use for food processing.

## SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove all components from the packaging.

2. **Clean:** Before first use, wash the stainless steel bowl, blade assembly, and transparent lid with warm soapy water. Rinse thoroughly and dry completely. The motor unit should be wiped with a damp cloth.
3. **Assemble Bowl:** Place the stainless steel bowl onto a stable, flat surface.
4. **Insert Blade:** Carefully place the blade assembly onto the central shaft inside the bowl. Ensure it sits correctly.
5. **Add Ingredients:** Place your desired ingredients into the bowl. Do not overfill.
6. **Secure Lid:** Place the transparent lid onto the bowl, ensuring it is properly aligned and locked into place.
7. **Attach Motor Unit:** Position the motor unit onto the lid, aligning the drive shaft with the blade assembly. Ensure it is securely seated.
8. **Connect Power:** Plug the power cord into a standard electrical outlet.

## OPERATING INSTRUCTIONS

The LOVEWE Electric Meat Grinder features two speed settings for versatile processing.

1. **Preparation:** Ensure the unit is properly assembled and ingredients are loaded as per the setup instructions.
2. **Select Speed:**
  - Press and hold the **"I"** button for low speed processing, suitable for softer ingredients or coarse chopping.
  - Press and hold the **"II"** button for high speed processing, ideal for harder ingredients or fine grinding.
3. **Process:** Hold down the desired speed button for short pulses or continuous operation, depending on the desired consistency. Monitor the processing through the transparent lid.
4. **Stop:** Release the button to stop the motor.
5. **Unplug:** Always unplug the appliance from the power outlet before disassembling or removing ingredients.
6. **Disassemble:** Carefully remove the motor unit, then the lid, and finally the blade assembly before emptying the processed food.

**Note:** Do not operate the appliance continuously for more than 30 seconds to prevent overheating. Allow a short break between cycles if prolonged processing is required.

# 304 food-grade stainless steel

Anti-stain / anti-shock / abrasion resistant / healthier

This image provides an internal perspective of the LOVEWE Electric Meat Grinder's stainless steel bowl, illustrating the multi-level blade system actively chopping ingredients such as peppers and meat, highlighting the "304 food-grade stainless steel" feature.

## CARE AND MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and optimal performance of your LOVEWE Electric Meat Grinder.

1. **Unplug:** Always unplug the appliance before cleaning.
2. **Disassemble:** Carefully disassemble all removable parts: motor unit, lid, blade assembly, and stainless steel bowl.
3. **Clean Blades and Bowl:** Wash the stainless steel bowl, blade assembly, and transparent lid with warm, soapy water. Use a brush for the blades to ensure thorough cleaning, exercising extreme caution due to their sharpness. Rinse thoroughly. These parts are also dishwasher safe.
4. **Clean Motor Unit:** Wipe the motor unit with a damp cloth. **Do not immerse the motor unit in water or any other liquid.**
5. **Dry:** Dry all parts thoroughly before reassembling or storing. Air drying is recommended for the blade assembly.

6. **Storage:** Store the assembled or disassembled grinder in a dry, safe place, away from direct sunlight and out of reach of children.

**Caution:** The blades are very sharp. Handle with extreme care during cleaning and assembly to avoid injury.

## TROUBLESHOOTING

If you encounter issues with your LOVEWE Electric Meat Grinder, refer to the following table for common problems and solutions.

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in. Lid or motor unit not properly assembled. Power outage.	Ensure the power cord is securely plugged into a working outlet. Check that the lid is securely locked and the motor unit is correctly seated. Verify power supply to the outlet.
Motor runs, but blades do not turn.	Blade assembly not correctly installed. Ingredients are jammed.	Unplug, disassemble, and re-install the blade assembly, ensuring it sits properly on the shaft. Unplug, disassemble, remove ingredients, and cut them into smaller pieces if necessary.
Appliance stops during operation.	Overheating protection activated. Overloaded with ingredients.	Unplug the appliance and let it cool down for at least 15-20 minutes. Unplug, remove some ingredients, and process in smaller batches.

## PRODUCT SPECIFICATIONS
