Setup Instructions

1. Initial Connection (Plug & Play)

1. Ensure your vehicle has factory-wired CarPlay.
2. Plug the OTTOCAST Play2Video Ultra into your car's USB port. Use the provided USB-A to USB-C adapter if your car has a USB-C port.
3. The device will boot up and display its interface on your car's screen within 10-15 seconds.

2. Connecting to Wireless CarPlay

Image: A visual guide showing the steps to connect an iPhone to Wireless CarPlay using the OTTOCAST device, from plugging in to pairing via Bluetooth and Wi-Fi.

1. Once the main screen appears on your car display, tap the CarPlay icon.
2. On your iPhone, ensure Bluetooth and Wi-Fi are enabled.
3. Find "Play2Video-Ultra-XXXX" in your iPhone's Bluetooth list and pair with it.
4. Allow contacts and favorites to sync if prompted.
5. The screen will automatically switch to the Apple CarPlay interface.

3. Connecting to Wireless Android Auto

Image: A visual guide illustrating the process of connecting an Android phone to Wireless Android Auto via the OTTOCAST device, including Bluetooth pairing and confirmation.

1. Once the main screen appears on your car display, tap the Android Auto icon.
2. On your Android phone, ensure Bluetooth and Wi-Fi are enabled.

3. Find "Play2Video-Ultra-XXXX" in your phone's Bluetooth list and pair with it.
4. The screen will automatically switch to the Android Auto interface.

4. Connecting to Wi-Fi/Hotspot for Streaming

To use streaming apps like Netflix or YouTube, the device requires an internet connection. You can connect it to your car's built-in Wi-Fi hotspot (if available) or your smartphone's personal hotspot.

1. From the device's main interface, navigate to**Settings** > **Network & Internet**.
2. Select **Wi-Fi** and choose your desired network (car hotspot or phone hotspot).
3. Enter the password if prompted.
4. For optimal performance with CarPlay/Android Auto, connect to a 5G Wi-Fi/hotspot.

Your browser does not support the video tag.

Operating Instructions

1. Using Streaming Applications

The OTTOCAST Play2Video Ultra comes with pre-installed apps like Netflix, YouTube, and Amazon Video. You can access these directly from the device's main interface after connecting to the internet.

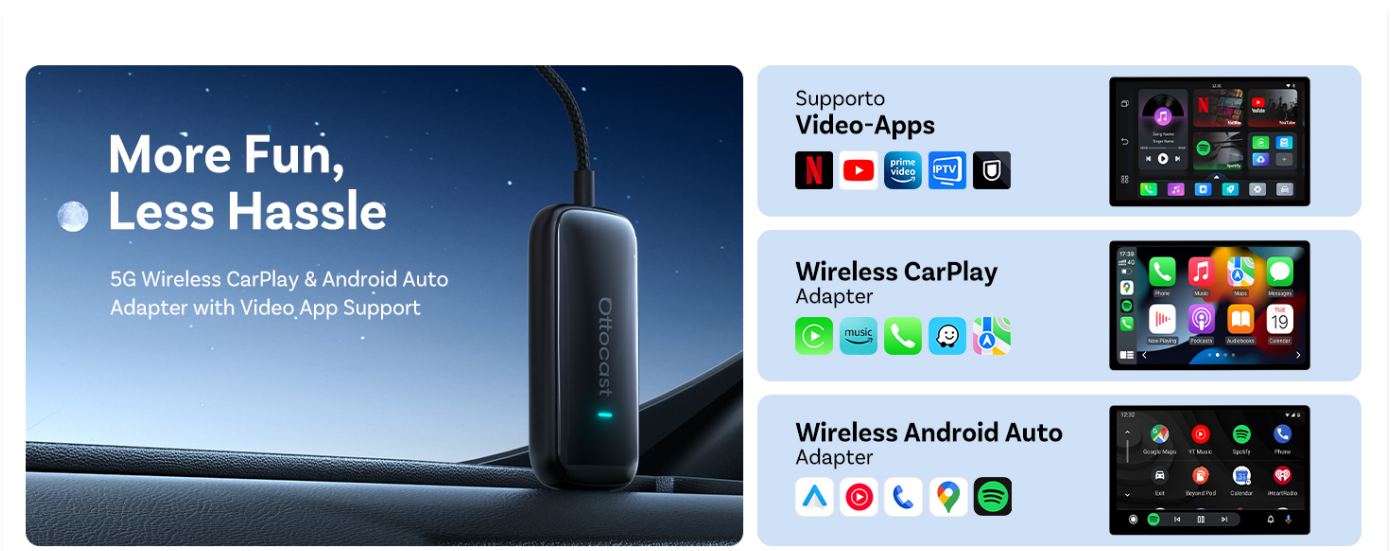

Image: A car's infotainment screen displaying the OTTOCAST interface with icons for Netflix, YouTube, and Amazon Prime Video, indicating entertainment options for passengers.

- Ensure the device is connected to Wi-Fi/hotspot.
- Tap on the desired streaming app icon (e.g., Netflix, YouTube).
- Log in with your account credentials if required.
- Browse and play content directly on your car's display.

2. Media Playback via USB Drive

The device supports offline media playback from a USB drive (up to 128GB), allowing you to enjoy videos without an internet connection.

Image: The OTTOCAST Play2Video Ultra device with a USB drive inserted, demonstrating its capability for offline media playback on the car's display. A note indicates the USB drive is not included.

1. Insert a USB drive containing your media files into the device's USB port.
2. Navigate to the 'Files' or 'Videos' app on the device's interface.
3. Select your desired media file for playback.

3. App Hub and Customization

The App Hub allows you to manage and potentially add more applications to your device.

- Access the App Hub from the main interface to explore available applications.
- The minimalist Android UI is designed for ease of use and safe driving.

4. Control Methods

The device supports various control methods for convenience and safety:

Image: A collage illustrating the various ways to control the OTTOCAST Play2Video Ultra, including voice commands, touch screen interaction, steering wheel buttons, and the car's original control knobs.

- **Steering Wheel Controls:** Use your car's existing steering wheel buttons for navigation and media control.
- **Knob Controls:** Utilize the car's original control knobs for interface interaction.
- **Voice Commands:** Use voice assistants for hands-free operation.

- **Touchscreen:** Directly interact with the car's touchscreen display.

Your browser does not support the video tag.

Maintenance

1. System Updates (OTA Function)

The OTTOCAST Play2Video Ultra supports Over-The-Air (OTA) updates to ensure you always have the latest features and improvements.

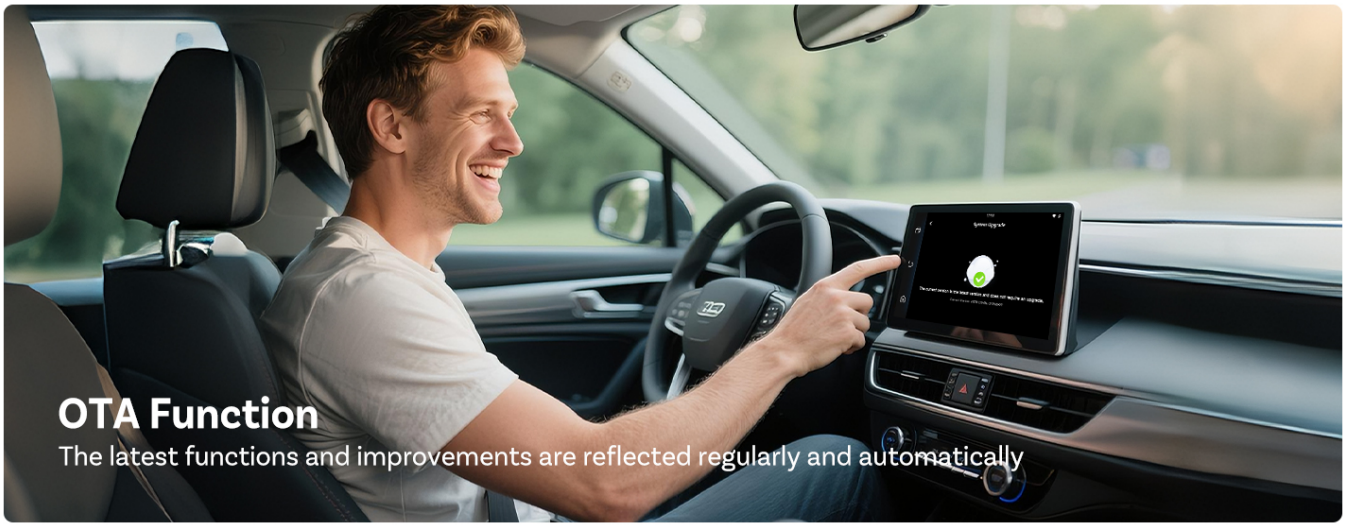

Image: A user interacting with the car's display, which shows a notification for 'OTA Function', indicating that the device regularly receives automatic updates for new functions and improvements.

- Connect the device to a stable internet connection.
- Navigate to **Settings** > **System Update** to check for and install available updates.

2. Cleaning

To maintain optimal performance and appearance, gently wipe the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

Troubleshooting

- **Product does not boot up:** Ensure the device is fully plugged into a functional USB communication port (not just a charging port).
- **Wireless CarPlay/Android Auto not connecting:** Verify Bluetooth and Wi-Fi are enabled on your smartphone and that the device is correctly paired. Try restarting both your phone and the car's infotainment system.
- **Streaming apps show 'No Internet':** Confirm the device is connected to a stable Wi-Fi network or personal hotspot with active internet access.
- **Lag or slow performance:** Ensure you are connected to a 5G Wi-Fi/hotspot for optimal speed. Check for and install any available system updates.
- **Compatibility issues:** The device is compatible with all factory-wired CarPlay cars (not compatible with Tesla or BMW). Check the official compatibility list via the provided QR code in the packaging or online.
