MAINTENANCE

To ensure the longevity and optimal performance of your SIXWIN Car Stereo, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **General Cleaning:** Keep the unit free from dust and debris. Use a soft brush or compressed air to clean vents and ports.
- **Temperature Range:** The unit is designed to operate within a temperature range of -20°C to 70°C. Avoid exposing it to extreme temperatures outside this range for extended periods.
- **Software Updates:** Periodically check the manufacturer's website for any available software or firmware updates to ensure the best performance and compatibility.

TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Power	Loose power connection, blown fuse, vehicle battery issue.	Check power cables and connections. Inspect vehicle fuses. Ensure vehicle battery is charged.
No Sound	Speaker wires disconnected, volume too low, incorrect audio source selected.	Verify speaker wire connections. Increase volume. Select the correct audio input source.
CarPlay/Android Auto Not Connecting	Incorrect USB cable, phone settings, wireless interference.	Use a high-quality USB cable. Ensure CarPlay/Android Auto is enabled on your phone. Check wireless settings and try restarting both devices.
Screen Not Responding	Temporary software glitch, dirty screen.	Restart the unit. Clean the screen with a soft cloth. If issue persists, perform a factory reset (refer to advanced settings).
Poor Radio Reception	Antenna not connected, weak signal area.	Ensure the antenna is securely connected. Try scanning for stations again.

If the problem persists after attempting these solutions, please contact customer support.
