SETUP

1. Unboxing

Verify the package contents. You should find one Lgnitek Aegis S1 Smartwatch.

2. Charging the Device

Before first use, fully charge your smartwatch. Connect the provided charging cable to the smartwatch's charging port and a standard USB power adapter (not included). The watch display will indicate charging status.

3. App Installation

Download the official companion application to your smartphone. Search for the app in your device's app store (compatible with both **iOS** and **Android** devices).

4. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the companion app on your phone.
3. Follow the on-screen instructions within the app to search for and connect to your Lgnitek Aegis S1 Smartwatch.
4. Confirm the pairing request on both your phone and the smartwatch when prompted.

OPERATING INSTRUCTIONS

1. Basic Navigation

- **Touchscreen**: Swipe up, down, left, or right to navigate through menus and access various features. Tap to select an item or confirm an action.
- **Buttons**: Use the physical buttons on the side of the watch for functions such as power on/off, returning to the home screen, or quick access to specific applications.

2. Bluetooth Calls

Once successfully paired with your smartphone, the Aegis S1 Smartwatch allows you to answer, make, and reject calls directly from your wrist. Access the call function through the watch interface.

3. Health Monitoring

The smartwatch offers comprehensive health tracking features:

- **ECG Measurement:** Initiate an ECG measurement from the watch or app. Results are typically available in approximately 30 seconds. Analysis reports can be generated and shared.
- **HRV Monitoring:** Continuously monitors Heart Rate Variability.
- **SpO2 Monitoring:** Measures blood oxygen saturation levels 24/7.
- **Heart Rate Monitoring:** Provides 24-hour heart rate tracking and includes a heart rate alert system.
- **Body Temperature Monitoring:** Tracks body temperature throughout the day.
- **Stress Level Monitoring:** Monitors stress levels.
- **Sleep Analysis:** Tracks sleep patterns and quality.
- **Uric Acid Monitoring:** Supports uric acid level monitoring.
- **Body Composition Analysis:** Performs smart micro-body checks in 30 seconds.
- **Emotion and Fatigue Detection:** Detects emotional state and fatigue.

Note: Health monitoring features are for informational purposes only and should not replace professional medical advice or equipment. Consult a healthcare professional for any health concerns.

Image: A cyclist on a road bike, illustrating the smartwatch's application for outdoor sports tracking.

5. Smart Notifications

Receive timely notifications for incoming calls, messages, and app alerts directly on your smartwatch when it is connected to your phone.

6. AI Voice Assistant

Activate the integrated AI voice assistant for convenient, hands-free control and quick access to information.

7. Emergency SOS Calls

The smartwatch includes an emergency SOS call feature for critical situations, allowing you to quickly contact designated

emergency contacts.

8. Customization

- **Watch Faces:** Personalize your smartwatch by choosing from over 200 available watch faces. You can also create your own custom (DIY) watch faces.
- **Always-On Display (AOD):** Select between digital or analog Always-On Display options to suit your preference.

MAINTENANCE

1. Cleaning

- Wipe the watch screen and body with a soft, dry, lint-free cloth.
- Clean the watch band regularly, especially after exercise, to prevent skin irritation and maintain hygiene.
- Avoid using harsh chemicals, abrasive materials, or solvents, as these can damage the watch's finish and components.

2. Water Resistance

The Lgnitek Aegis S1 Smartwatch has an **IP68 rating**, which means it is resistant to dust and can withstand immersion in fresh water up to 1 meter for 30 minutes.

Important Note: The IP68 rating does not make the watch suitable for swimming, showering, or sauna use. Exposure to hot water, steam, or high-pressure water jets may compromise the water resistance and damage the device. Avoid pressing buttons underwater.

3. Battery Care

- To maximize the average battery life of 11 days, avoid exposing the device to extreme temperatures (very hot or very cold).
- Always use the provided charging cable to charge your smartwatch.

TROUBLESHOOTING

- **Device not turning on:** Ensure the battery is charged. Connect the smartwatch to its charger for at least 30 minutes.
- **Cannot pair with phone:**

- Verify that Bluetooth is enabled on both your phone and the smartwatch.
 - Ensure the smartwatch is within Bluetooth range of your phone.
 - Restart both the smartwatch and your phone.
 - Try unpairing the device from your phone's Bluetooth settings and then re-pairing through the companion app.
- **Inaccurate health readings:**
 - Ensure the watch is worn snugly on your wrist, neither too tight nor too loose.
 - Clean the sensors on the back of the watch regularly.
 - Remember that readings are for reference and not medical diagnostics.
 - **Notifications not received:**
 - Check app permissions on your phone to ensure the companion app has access to notifications.
 - Verify that the Bluetooth connection is stable.
 - Ensure "Do Not Disturb" mode is off on both your phone and the smartwatch.
