Garvee 16-inch Tall Self-Watering Planters (Set of 4) Instruction Manual

Model: u8KDhhrRFeueoX15PTPbOwDSheO

Product Overview

The Garvee 16-inch Tall Self-Watering Planters are designed for both indoor and outdoor use, providing an efficient and low-maintenance solution for plant care. Each planter features an integrated self-watering system, a water level monitor, and an inner bucket for easy planting and maintenance.

Key Features:

- **Water Level Monitor:** Allows easy checking of remaining water, preventing over or under-watering.
- **Automatic Watering System:** Built-in drainage holes and gutters ensure smooth water delivery and minimize root rot.
- **Easy to Water:** Separate water inlet for convenient and effortless refilling.
- **Durable Design:** Made from high-quality, weather-resistant plastic, maintaining color and structural integrity.
- **Inner Bucket:** Detachable for easier planting and cleaning.

Setup and Installation

Follow these steps to assemble your Garvee self-watering planter:

1. **Assemble Water Level Gauge:** Connect the components of the water level gauge as shown in the diagram. Ensure the foam ball is correctly placed for accurate readings.
2. **Insert Water Level Gauge:** Place the assembled water level gauge into the designated slot within the inner bucket.
3. **Place Inner Bucket:** Carefully lower the inner bucket into the main planter shell. Ensure it sits securely on the internal support structure.
4. **Add Soil and Plant:** Fill the inner bucket with your desired soil and plant your chosen flora.
5. **Fill Water Reservoir:** Use the separate water inlet to fill the reservoir at the bottom of the planter. Monitor the water level gauge to avoid overfilling.

Operation

The Garvee self-watering planter simplifies plant care by providing a consistent water supply.

Watering:

- Check the water level monitor regularly.
- When the gauge indicates a low water level (near 'min'), refill the reservoir through the dedicated inlet until it reaches the 'max' or 'opt' line.
- For most plants, watering once every 10-15 days is sufficient, but this may vary based on plant type, size, and environmental conditions.

Image: Illustration of the water level gauge and the process of filling the water tank.

Benefits of Self-Watering:

- Ensures plants receive consistent moisture, promoting healthier growth.
- Reduces the frequency of manual watering, saving time and effort.
- Prevents common issues like root rot due to overwatering or plant depletion from underwatering.

Image: Diagram illustrating how the self-watering system provides moisture to plant roots.

Maintenance

Proper maintenance will extend the life of your Garvee planters and keep your plants thriving.

Cleaning:

- The inner bucket is detachable, making it easy to remove for cleaning or replanting.
- Clean the inner bucket and the main planter shell with mild soap and water as needed. Rinse thoroughly.
- Periodically check the drainage holes for any blockages and clear them to ensure proper water flow.

Image: The detachable inner pot allows for easy planting and cleaning.

Durability:

- The planters are constructed from high-quality, weather-resistant plastic, designed to withstand various outdoor conditions without cracking or fading.
- The material is also made from premium recycled content, contributing to environmental sustainability.

Troubleshooting

If you encounter any issues with your Garvee planters, consider the following common solutions:

- **Water Level Gauge Not Moving:** Ensure the foam ball inside the gauge is not stuck and moves freely. Check for any debris obstructing its path.
- **Plant Appears Dry Despite Water in Reservoir:** Verify that the wicking system (if applicable) is properly installed and in contact with the soil. Ensure the soil itself is not hydrophobic.
- **Excess Water Accumulation:** Check that the drainage holes in the inner bucket are clear and not blocked by soil or roots.
- **Planter Stability:** Ensure the planter is placed on a flat, stable surface. The design includes features for stability, but uneven ground can affect it.

Specifications

Feature	Detail
Brand	Garvee
Model Number	u8KDhhrRFeueoX15PTPbOwDSheO
Material	Plastic

Color	White
Special Feature	Self Watering
Style	Modern
Shape	Rectangular
Indoor/Outdoor Usage	Outdoor
Mounting Type	Floor Standing
Product Dimensions	8.5"D x 8.5"W x 15.7"H
Capacity	14.5 Pounds
Item Weight	14.5 Pounds
Set Name	Set of 4
UPC	199809473938

Warranty and Support

For warranty information, product support, or to inquire about replacement parts, please visit the official Garvee website or contact customer service through your retailer.

Keep your purchase receipt for warranty claims.
