4. SETUP AND ASSEMBLY

The HIFIT Modular Sectional Sofa is designed for tool-free assembly. It is recommended that two people assemble the sofa to ensure ease and safety.

1. **Unpack all components:** Carefully remove all parts from their packaging. Due to vacuum compression, the cushions may take approximately 72 hours to fully regain their fluffy shape.
2. **Arrange modules:** Position the individual seat modules, corner module, and armrest modules in your desired configuration. The modular design allows for various layouts (L-shaped, U-shaped, etc.).
3. **Connect modules:** Each seating module features a built-in buckle system. Align the buckles on adjacent modules and push them together until they securely snap into place. This prevents sliding and enhances stability.
4. **Attach armrests:** Secure the armrest modules to the desired seat modules using the provided hardware and built-in

connectors.

5. **Place ottoman:** The ottoman can be placed independently or connected to extend a seating section.

7. TROUBLESHOOTING

If you encounter any issues with your HIFIT Modular Sectional Sofa, please refer to the following common solutions:

- **Sofa modules are not connecting securely:** Ensure the built-in buckles are properly aligned and pushed firmly until they click into place. Check for any obstructions.
- **Cushions appear flat:** Due to vacuum compression during shipping, cushions require up to 72 hours to fully expand and regain their intended fluffy shape. Fluff them manually to aid the process.
- **Charging ports not working:** Verify that the sofa is properly connected to a power source. Check the USB/Type-C cables and devices for functionality.
- **Squeaking noises:** Check all assembly hardware and module connections to ensure they are tight. Retighten if necessary.
