SETUP AND ASSEMBLY

Follow these steps to assemble your Evangelion Proto Type-00 Model Kit. It is recommended to use hobby nippers for cutting parts from the runners and a hobby knife for cleaning nubs, if necessary.

1. **Prepare Components:** Carefully cut all parts from their runners using hobby nippers. Smooth any rough edges or nubs with a hobby knife or file. Organize parts by section (e.g., head, torso, arms, legs, weapons).
2. **Assemble Main EVA-00 Body:** Begin by assembling the core body sections: torso, head, arms, and legs. Follow the numerical order or visual cues on the parts for correct orientation. Ensure all joints are securely connected but allow for articulation.
3. **Attach Replacement Hand Parts:** Select the desired hand parts from the included set. Gently attach them to the wrist joints. These can be swapped out to hold different accessories or for various poses.
4. **Assemble and Attach Pallet Rifle:** Assemble the Pallet Rifle components. Once assembled, the rifle can be held by the EVA-00 figure using the appropriate hand part.
5. **Assemble and Attach Rocket Launcher:** Assemble the Rocket Launcher. This large weapon can be held by the EVA-00 figure, often requiring both hands or a specific pose for balance.

The EVA-00 figure is depicted holding the large rocket launcher accessory, ready for action.

6. **Assemble and Attach Shield:** Assemble the Shield components. The shield can be attached to the EVA-00's arm or held by a hand part, providing defensive posing options.

The fully assembled EVA-00 figure is shown here, posed dynamically while holding its large defensive shield.

- 7. Assemble Restraint Cage and Transport Platform:** Construct the Transport Platform and the Restraint Cage elements. These parts form a display base for the EVA-00 figure.

This image shows the EVA-00 figure positioned on the included transport platform, with the restraint cage elements assembled around it.

8. **Assemble Crash Building Diorama Parts:** Assemble the Crash Building Diorama parts as desired to create a dynamic display environment. These can be arranged around the figure.

The EVA-00 figure is displayed within a diorama setting, featuring crash building parts and holding its shield, suggesting a battle scene.

9. **Attach Effect Parts:** The translucent orange effect parts can be attached to various points on the figure or accessories to simulate energy bursts or impacts.

This image illustrates the EVA-00 figure with the translucent orange effect parts attached, simulating energy or impact.

OPERATING AND POSING

The Evangelion Proto Type-00 Model Kit is designed for high articulation, allowing for a wide range of dynamic poses.

- **Articulation:** Gently manipulate the joints to achieve desired poses. Avoid excessive force to prevent breakage.
- **Accessory Attachment:** Weapons and shields can be securely placed into the designated hand parts or attachment points on the figure.
- **Display:** Utilize the Transport Platform and Diorama parts to create engaging display scenes for your figure.

MAINTENANCE

- **Cleaning:** Dust the model regularly with a soft, dry brush or cloth. For stubborn dirt, lightly dampen a cloth with water and gently wipe. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.
- **Joint Care:** If joints become loose over time, a small amount of clear nail polish or hobby-grade joint tightener can be applied to the ball joints and allowed to dry to restore friction.

TROUBLESHOOTING

- **Missing Parts:** If you find any parts missing upon opening the kit, please contact BLOKEES customer support with your purchase details.
- **Loose Joints:** Refer to the "Joint Care" section under Maintenance for tips on tightening loose joints.
- **Parts Not Fitting:** Ensure you are using the correct parts for each step and that they are oriented correctly. Do not force parts together; check for any excess plastic (nubs) that may be obstructing the fit.
