4.1 Assembly Steps

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the labels and the assembly guide.
2. **Assemble Tabletop:** Connect the two oval tabletop sections using the provided hardware (dowels and connectors). Ensure they are aligned perfectly to form a seamless oval surface. Secure them with the metal plates and screws as shown in the assembly video.
3. **Attach Support Beams:** Fasten the support beams to the underside of the assembled tabletop. These beams provide additional stability and connection points for the legs.
4. **Attach Table Legs:** Secure the two sturdy table base legs to the support beams and tabletop using the designated screws. Ensure the legs are oriented correctly and firmly attached.
5. **Install Adjustable Foot Pads:** Screw the adjustable foot pads into the bottom of each table leg. These pads help level the table on uneven floors and protect your flooring.
