AIRIVO BL-3D02

AIRIVO 3D Galaxy Projector (Model BL-3D02) Instruction Manual

Your guide to setting up and operating your new 3D Galaxy Projector.

Introduction

The AIRIVO 3D Galaxy Projector is a versatile device designed to transform any room into a captivating visual experience. It combines 3D dynamic scenes, a Bluetooth speaker, and a star projection feature into one unit. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and enjoyment of your projector.

Key features include 60 dynamic 3D scenes, adjustable focus and projection angle, a built-in Bluetooth speaker, and an auto-off timer for convenience.

What's in the Box

- 3D Galaxy Projector
- Remote Control
- User Manual
- Power Cable

Setup

1. **Unpack the Projector:** Carefully remove all components from the packaging.
2. **Connect Power:** Plug the provided power cable into the projector's power input, then connect the other end to a standard electrical outlet.
3. **Placement:** Place the projector on a stable, flat surface. For optimal projection, position it at a suitable distance from the wall or ceiling. The projection area can range from 161 to 538 sq ft.
4. **Adjust Projection Angle:** The projector features a 135° adjustable angle and a 180° adjustable base. Adjust the projector's position and angle to achieve the desired projection on your surface.

Operating Instructions

1. Power On/Off

Press the power button on the projector or the remote control to turn the device on or off.

2. Adjusting Projection Focus

Rotate the focus wheel located on the projector lens to achieve a clear and sharp image. Adjust until the projection is crisp at your desired distance.

4. Bluetooth Speaker Function

To use the built-in Bluetooth speaker:

a. Ensure the projector is powered on.
b. Activate Bluetooth on your smartphone or other audio device.
c. Search for available devices and select "AIRIVO Projector" (or similar name) to pair.
d. Once connected, you can play audio through the projector's speaker.

5. Auto-Off Timer

The projector features 1-hour, 2-hour, and 4-hour auto-off timer options. Use the remote control to set the desired timer. The projector will automatically shut down after the selected duration, or after 4 hours if no timer is set, for energy saving and safety.

6. Brightness Adjustment

Adjust the projection brightness using the remote control to suit your environment and preference. Multiple brightness levels are available.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the projector. For the lens, use a specialized lens cleaning cloth to avoid scratches. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the projector in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the projector with care to prevent damage to the lens or internal components.

Troubleshooting

Problem	Possible Cause / Solution
Projector does not power on.	Ensure the power cable is securely connected to both the projector and a working electrical outlet. Check if the power button on the projector or remote is pressed.
Projection is blurry.	Rotate the focus wheel on the projector lens until the image becomes clear. Ensure the projection surface is flat and the projector is within an optimal distance.
Bluetooth speaker not connecting.	Ensure Bluetooth is enabled on your audio device and the projector. Try restarting both devices and re-attempt pairing. Make sure no other device is currently connected to the projector's Bluetooth.
No projection or only startup screen.	If the device displays a startup screen but no scenes, try restarting the projector. If the issue persists, contact customer support.

Problem	Possible Cause / Solution
Speaker volume is too low.	Adjust the volume on both the projector and your connected Bluetooth device. For louder audio, an external Bluetooth speaker may be connected to your audio source instead of the projector.

Specifications

Feature	Detail
Brand	AIRIVO
Model Name	BL-3D02
Recommended Uses	Home Cinema
Special Feature	Bluetooth
Connectivity Technology	Bluetooth
Display Resolution	8608 x 4842
Native Resolution	8608 x 4842
Display Resolution Maximum	3840 x 2160
