## INTRODUCTION

Welcome to the user manual for your SUNKTA TX12-C Smart Watch. This guide provides detailed instructions on how to set up, operate, and maintain your device, ensuring you get the most out of its advanced features. Please read this manual thoroughly before using your smartwatch.

## SETUP GUIDE

### 1. Unboxing and Initial Charge

Upon opening the package, ensure all components are present: SUNKTA TX12-C Smart Watch, two magnetic charging cables (USB and Type-C), and two watch bands (metal and silicone). Before first use, fully charge the smartwatch using one of the provided charging cables. A full charge typically takes approximately 2 hours.

## 2. App Installation and Pairing

To utilize all features of your smartwatch, download the "FitCloudPro" app from the App Store (iOS) or Google Play (Android). Ensure Bluetooth is enabled on your smartphone. Open the app, follow the on-screen instructions to find and connect to your TX12-C smartwatch. Allow necessary permissions for notifications and other functionalities.

## OPERATING INSTRUCTIONS

### Basic Navigation

- **Touchscreen:** Swipe left, right, up, or down to navigate through menus and features. Tap to select.
- **Side Buttons:** Use the physical buttons on the side for quick access to specific functions or to return to the home screen.

### Bluetooth Calling

Once paired with your phone, the TX12-C allows you to make and receive calls directly from your wrist. Ensure Bluetooth calling is enabled in the app settings. Use the integrated speaker and microphone for clear communication.

# How to connect smart watch?

(NOTE: Keep devices within Bluetooth range at all times.)

The image is a grid of eight screenshots illustrating the steps to connect the smartwatch:

1. Download "FitCloudPro" from the App Store (ios) or Google Play (Android).
2. Enable the "Bluetooth" on your phone.
3. Find "TX12" and click on it.
4. Follow the app instructions to pair and enable "connect."
5. Allow the smartwatch to display notifications.
6. Turn on Bluetooth call, Text and APP notification.
7. APP-watch face-choose dial.
8. Bluetooth dial-up calls.

## KEY FEATURES

### Health Tracking

The TX12-C monitors your heart rate, blood oxygen, and blood pressure 24/7. It also provides automatic sleep tracking, offering insights into your sleep patterns (awake, light, and deep sleep). All data syncs to the FitCloudPro app for comprehensive health overview. **Note: Measurements are for reference only and are not medical data.**

## Smart Notifications On Your Wrist

Keep you know the everything you care about most

## MAINTENANCE

### Cleaning

Regularly clean your smartwatch with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used. Avoid harsh chemicals or abrasive materials.

### Water Resistance

The TX12-C is 5ATM water-resistant, protecting it from splashes, rain, and sweat. It is suitable for swimming in shallow water but not for diving or high-pressure water activities. Do not operate buttons underwater.

## 3-Proof Military Smartwatch

The rugged smart watch is made of a titanium alloy housing that is wear-resistant, shock-resistant, water-resistant and sand-resistant and built to Withstand the Wild.

## TROUBLESHOOTING

Problem	Solution
Smartwatch not turning on	Ensure the device is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with phone	Check if Bluetooth is enabled on your phone. Restart both the phone and the smartwatch. Ensure the FitCloudPro app is updated.
Notifications not appearing	Verify notification permissions are granted to the FitCloudPro app in your phone's settings. Check app settings for specific notification toggles.

Problem	Solution
Inaccurate health data	Ensure the watch is worn snugly on your wrist. Clean the sensor on the back of the watch. Remember, data is for reference, not medical diagnosis.
