JeeBer VB619 1080P No WiFi Video Baby Monitor User Manual

Model: VB619

1. INTRODUCTION

Thank you for choosing the JeeBer VB619 1080P No WiFi Video Baby Monitor. This manual provides detailed instructions for the safe and effective use of your new baby monitor. Please read this manual thoroughly before operation and retain it for future reference. This monitor is designed to provide clear video and audio surveillance of your baby, ensuring peace of mind with its secure, non-Wi-Fi connection.

2. PACKAGE CONTENTS

Ensure all items are present in the package. If any items are missing or damaged, please contact customer support.

- Baby Monitor Unit (Parent Unit)
- Baby Camera Unit (Baby Unit)
- Charging Cable (x2, one for each unit)
- Instruction Manual (This document)

3. PRODUCT OVERVIEW

The JeeBer VB619 baby monitor system consists of a parent unit with a 5-inch 1080P IPS display and a baby unit (camera). It features a secure FHSS wireless connection, eliminating the need for Wi-Fi.

Image 3.1: Overview of the JeeBer VB619 Baby Monitor system, showing the parent unit (monitor) and the baby unit (camera) with a baby in the background. Key features like 5-inch IPS screen, VOX mode, 1080P HD clarity, FHSS encrypted transmission, no WiFi, 4 camera support, two-way audio, 3x zoom, fixed view with digital pan, 8-meter HD night vision, temperature monitoring, feeding reminder, and lullabies are highlighted.

Precise Temp Monitoring

Scientific Care, Powered by Accurate Temperature

Image 3.2: The JeeBer baby monitor highlighting its "No WiFi Required" feature, emphasizing privacy protection through FHSS technology.

3.1 Parent Unit (Monitor) Features:

- **5-inch 1080P IPS Display:** Provides a clear, wide-angle view of your baby.
- **Two-Way Talk:** Communicate with your baby remotely.
- **VOX Mode:** Voice-activated screen for power saving.
- **Temperature Monitoring:** Displays real-time room temperature.
- **Lullabies:** Built-in soothing melodies.
- **3X Digital Zoom:** Magnify the view for closer inspection.
- **Expandable:** Supports up to four cameras (sold separately).
- **3050mAh Battery:** Long-lasting power for continuous monitoring.

3.2 Baby Unit (Camera) Features:

- **1080P HD Video:** High-definition video capture.
- **Clear Night Vision:** 10 invisible infrared LEDs for clear images in darkness.
- **Temperature Sensor:** Detects room temperature.

- **Microphone & Speaker:** For two-way audio communication.

4. SETUP

Follow these steps for initial setup of your baby monitor system.

1. **Charge the Parent Unit:** Connect the charging cable to the parent unit and a power outlet. Charge fully before first use.
2. **Power the Baby Unit:** Connect the charging cable to the baby unit and a power outlet. The camera requires continuous power to operate.
3. **Position the Baby Unit:** Place the baby unit (camera) in a secure location in your baby's room, ensuring a clear view of the crib. Keep it at least 3 feet (1 meter) away from the crib to prevent entanglement hazards.
4. **Power On:** Turn on both the parent unit and the baby unit. The units are pre-paired at the factory and should automatically connect.
5. **Test Connection:** Verify that you can see and hear your baby through the parent unit. Adjust the camera angle as needed.

Image 4.1: A woman in a kitchen observing her baby on the 5-inch 1080P IPS Eye-Care Display of the JeeBer baby monitor. The

image emphasizes the clear view from any angle.

5. OPERATING INSTRUCTIONS

5.1 Basic Operation

- **Power On/Off:** Press and hold the power button on the parent unit.
- **Volume Control:** Use the dedicated volume buttons on the parent unit to adjust audio levels.
- **Brightness Control:** Adjust screen brightness via the menu settings.

5.2 VOX Mode (Voice-Activated Screen)

VOX mode conserves battery life by turning off the screen when no sound is detected from the baby unit. The screen automatically reactivates when sound is detected.

- **Activate/Deactivate VOX:** Access the menu on the parent unit and select the VOX option to turn it on or off.
- **VOX Sensitivity:** Adjust the sensitivity level in the menu to determine how loud a sound needs to be to activate the screen.

Upgrade 10 infrared LED bulbs

Clearer Night Vision, Perfectly Balanced Light

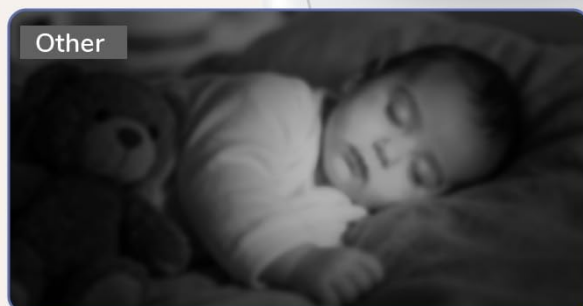

Image 5.1: A visual comparison demonstrating the enhanced clarity of JeeBer's night vision, powered by 10 infrared LED bulbs, compared to another brand's night vision.

8 Soothing Lullabies

Help your baby develop healthy sleep habits

Image 5.2: An image depicting a baby sleeping peacefully, with musical notes floating around, symbolizing the 8 soothing lullabies feature designed to aid healthy sleep habits.

Smart Vox Mode

Voice-Activated Screen With Extended Battery Life

Image 5.3: This image illustrates the Smart VOX Mode, showing the monitor screen off when the baby is sleeping (VOX ON, 20H battery life) and the screen on when the baby is crying (VOX OFF, 10H battery life), highlighting its voice-activated screen and extended battery life.

5.3 Two-Way Talk

To speak to your baby, press and hold the "Talk" button on the parent unit. Release the button to hear your baby.

Two Way Noise-Canceling Call

Hear What Matters. Powered by Advanced Noise Cancellation

Image 5.4: A woman in a kitchen using the two-way noise-canceling call feature of the JeeBer baby monitor to communicate with her baby in the crib, with speech bubbles indicating "I hear you, my love." and "Ah-goo... ba-ba...".

5.4 Lullabies

Access the lullaby menu on the parent unit to select and play soothing melodies for your baby. You can choose from 8 built-in lullabies.

5.5 Digital Zoom

Press the zoom button on the parent unit to digitally zoom in on the video feed (up to 3X). Press again to zoom out.

5.6 Night Vision

The baby unit automatically activates its infrared night vision in low-light conditions, providing a clear black and white image of your baby without disturbing red lights.

5.7 Temperature Monitoring

The parent unit displays the real-time temperature of your baby's room, detected by the baby unit's sensor.

No Wifi Required

Privacy Protected by FHSS Technology

Image 5.5: An image showing the precise temperature monitoring feature of the JeeBer baby monitor, displaying "28.8°C" on the screen while a parent interacts with a baby. This highlights scientific care powered by accurate temperature readings.

5.8 Adding/Managing Cameras (Optional)

Your monitor supports up to four cameras. To add additional cameras, refer to the "Camera Pairing" section in the menu settings on your parent unit.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of both units. Do not use abrasive cleaners or solvents.
- **Lens Care:** Gently wipe the camera lens with a lens cleaning cloth if it becomes dirty.
- **Storage:** If storing the monitor for an extended period, ensure both units are fully charged and then powered off. Store in a cool, dry place.

7. TROUBLESHOOTING

Problem	Possible Solution
No image/sound on parent unit.	Ensure both units are powered on and charged. Move the parent unit closer to the baby unit to improve signal. Re-pair the units if necessary (refer to manual for pairing instructions).
Poor image quality.	Clean the camera lens. Ensure adequate lighting in the room (if not using night vision). Check for obstructions between the camera and monitor.
Short battery life.	Ensure the parent unit is fully charged before use. Activate VOX mode to conserve battery. Reduce screen brightness.
Interference/Static.	Move the units away from other electronic devices (e.g., Wi-Fi routers, microwaves). Ensure the units are within range.

8. SPECIFICATIONS
