SETUP AND ASSEMBLY

The ONBRILL bathroom vanity requires assembly. The cabinet is shipped in one box and includes a detailed installation manual. Assembly can typically be completed by two adults in approximately half an hour by following the provided instructions and video.

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the package contents list.
2. **Review Manual:** Read the detailed installation manual thoroughly before starting.
3. **Prepare Workspace:** Ensure you have a clean, flat, and spacious area for assembly.
4. **Assemble Cabinet Frame:** Follow the manual's instructions to connect the cabinet panels using the provided hardware. Pay close attention to cam lock fasteners; handle them carefully to avoid breakage.
5. **Install Drawers:** Assemble the three drawers, including the U-shaped wall for plumbing in the top drawer and the extended slide rails for full extension.
6. **Attach Sink:** Secure the integrated ceramic sink to the top of the cabinet according to the manual.
7. **Position Vanity:** Place the freestanding vanity in its desired location in the bathroom.

MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your ONBRILL bathroom vanity.

- **Ceramic Sink:** The glossy white ceramic integrated sink has a smooth surface that is durable and easy to

maintain. Clean with a soft cloth and mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish.

- **Cabinet:** Wipe the wood cabinet surfaces with a soft, damp cloth. Avoid excessive moisture. Do not use abrasive cleaners or solvents.
- **Drawers:** Periodically check drawer slides for smooth operation. Clean any debris from the tracks.

TROUBLESHOOTING

This section addresses common issues you might encounter with your bathroom vanity.

- **Loose Hardware:** If any part of the cabinet feels unstable, check all assembly hardware (screws, cam locks) and tighten as necessary. Avoid over-tightening.
- **Drawer Malfunction:** If a drawer does not slide smoothly, check the extended slide rails for obstructions or misalignment. Ensure the drawer is correctly seated on the rails.
- **Water Leaks:** If you observe water leaks around the sink or faucet, immediately turn off the water supply. Check all plumbing connections for tightness and proper sealing. Consult a qualified plumber if leaks persist.
- **Color Variation:** Please note that the product color may vary under different lighting conditions. This is a natural characteristic and not a defect.
